LETTER OF TRANSMITTAL.

To His Excellency, C. C. YOUNG,
Governor of California,
Sacramento, California.

In conformity with the provisions of section 12 of the Public Utilities Act herewith is transmitted the report of the Railroad Commission of the State of California for the fiscal period beginning July 1, 1926, and ending June 30, 1927.

Every important public utility in California, practically, was engaged in major proceedings of some kind before the Railroad Commission during this fiscal period.

The end of the fiscal year finds the Commission still engaged in many of the larger proceedings, and the outlook is that the ensuing twelve months will even exceed the record of the period covered in this report. The properties involved in valuation work now in progress, either in rate or condemnation proceedings, will run into the hundreds of millions of dollars.

The Commission also found itself engaged in important rate and other proceedings before the Interstate Commerce Commission, the United States Supreme Court, the California Supreme Court, and the Federal District Court, and its efforts before these bodies were attended with marked success.

The Commission received 906 applications and 130 formal complaints and rendered 1539 decisions during the fiscal period. Due to the removal of private contract motor carriers from the jurisdiction of the Commission by the decision of the United States Supreme Court in the case of *Marion L. Frost et al.* vs. *The Railroad Commission,* and the Commission's decision holding it had no jurisdiction over radial motor truck operators, the number of utilities under the Commission's jurisdiction showed a marked falling off, with a corresponding drop in the number of applications and decisions. There are now 1798 utilities operating under the Commission's jurisdiction.

The increased volume of work involved by proceedings other than those relating to auto stage and truck companies is reflected in the large number of hearings conducted by the Commission during the twelve months ending June 30, 1927. There were 896 hearings, of which 501 were original hearings and the remainder were adjourned, further, or rehearings. There were 670 during the previous fiscal year. The Commission instituted 29 proceedings on its own motion, or eight more than during the preceding fiscal period.

The Commission received and adjusted 2945 informal complaints, representing complaints from consumers or patrons of public utilities, not calling for a formal hearing and decision. Included in these complaints were 345 relating to bills for public utility service, in which the amount involved was deposited with the Commission, and was divided between the consumers and the utilities in proportion to the findings made by the Commission, after careful investigation.

It is significant that the number of informal complaints from consumers has steadily decreased since 1923-24, when the peak of 6315

was received. These complaints numbered 4394 in 1924-25, and 3453 in the fiscal period 1925-26. The improvement is attributed to the great increase in efficiency of the smaller utility companies, under the standards of service prescribed by the Commission, and the falling off in the number of telephone complaints in the Los Angeles telephone area. Complaints received at the Los Angeles office of the Commission are now much less than those received at the main office at San Francisco.

The total amount received by the Commission as deposits in connection with disputed bills was $33,024.14. The largest single deposit was $16,578.75. The Commission has refunded many thousands of dollars to consumers in the adjustment of disputed bills since it began making such adjustments in 1916.

The number of informal complaints, not including disputed bills, where the amount in question is deposited with the Commission, handled from January 1, 1912, when this was made a departmental function, to June 30, 1927, was 51,845.

It is worthy of mention that the Railroad Commission has worked in conjunction with the Utilities Department of the California Farm Bureau Federation in adjusting many informal complaints every year, and a number of informal complaints brought to the attention of the Commission by that body have been changed into formal proceedings before the matters complained of were finally adjusted. This department of the Farm Bureau Federation renders a valuable public service by rapidly and satisfactorily accomplishing the settlement of hundreds of complaints without the necessity of bringing them through the office of the Commission.

CHANGES IN UTILITY LAWS.

By amendments to the Public Utilities Act (Statutes 1915, page 115, as amended) and the so-called Auto Stage and Truck Transportation Act (Statutes 1917, page 330, as amended) and by certain new legislation, the Legislature of 1927 enacted a number of changes in the law affecting the regulation of public utilities. These changes are summarized in Chapter I of this report.

FINANCES OF UTILITIES.

During the year ending June 30, 1927, the Commission authorized the issue of $314,642,213.92 of stock, bonds and other evidences of indebtedness, as compared with $262,463,149.26 for the year ending June 30, 1926. It denied applications involving the issue of $7,415,000 of securities and dismissed applications covering $15,895,110. Utilities continued to take advantage of the low interest rates and reduced their fixed charges by refunding bond issues carrying high interest charges with bonds bearing lower interest rates.

The operating revenues of all utilities (entire system) operating in the state during 1926 aggregated $1,001,170,243.26, as compared with $955,230,075.80 for 1925; an increase of $45,940,167.46. The operating expenses for the same periods totaled $693,828,607.29 and $679,605,-881.31, respectively, while for 1926 the net operating revenue is reported at $307,341,635.97 and for 1925 at $275,624,194.49. These figures include the total operating revenues and operating expenses of companies such as Southern Pacific Company, The Atchison, Topeka and

Santa Fe Railway Company, The Pacific Telephone and Telegraph Company and Western Union Telegraph Company and others engaged in both intra and interstate business.

From reports and data at hand we estimate the operating revenues of utilities, applicable to California business, at $543,091,000 for 1926, as compared with $533,714,000 for 1925.

During 1926 public utilities operating in California paid out in the form of dividends $109,312,215.97, while for 1925 the payments totaled $103,727,520.77.

RATE DEPARTMENT.

The fiscal year ending June 30, 1927, was an exceptionally busy one for the Rate Department of the Commission. This Department has charge of the tariffs of 1386 transportation and storage public utilities. Tariffs are filed by 67 steam railroads, 31 electric railroads, 99 carriers by water, 704 automobile carriers, 5 airplane carriers, 12 express companies, 420 warehouses and 48 miscellaneous public utilities. During the year some 17,000 new tariffs and supplements were received and filed. There are now 202,146 rate schedules on file with the Commission.

Approximately 45 formal applications and 54 formal cases were handled during the year. These formal proceedings involved railroads, automobile and steamship companies, and affected the passenger fares and the freight rates throughout the state.

INTERSTATE RATE PROCEEDINGS.

In addition to the intrastate proceedings, this Department participated in many proceedings before the Interstate Commerce Commission. The principal ones related to the rates on grain and grain products, live stock, cotton and deciduous fruits. In connection with the grain rates the Commission found it necessary to send Commissioner Harley W. Brundige and Rate Expert W. P. Geary to Kansas City. Representatives of the Commission also attended hearings of the Interstate Commerce Commission at Chicago, involving the application of the transcontinental carriers for an increase of 5 per cent in all freight rates. This petition was denied by the Federal Commission on July 14, 1926. This action saved to the shippers of this state many millions of dollars.

DECIDUOUS FRUIT RATES.

Another formal proceeding before the Interstate Commerce Commission of vast interest to the California fruit producers involved the rates on deciduous fresh fruits from California shipping points to consuming points throughout the United States. The rates were $1.62 to the Denver territory, and $1.73 to the balance of the United States. By its decision rendered July 20, 1927, the Interstate Commerce Commission reduced the Denver territory rate to $1.50 and the rate to the balance of the United States to $1.60 per hundred pounds.

OTHER RATE MATTERS.

Joint fares were ordered into effect between the auto stage companies operating into the Yosemite Valley. This action of the Commission results in a saving to travelers and a convenience in their being able to purchase joint transportation without the trouble of re-buying tickets at the stage junction points.

The Commission also ordered the carriers to amend the tariffs permitting the shippers of butter, eggs, cheese or dressed poultry to use refrigerator cars without the assessing of a surcharge when the ice was furnished by the shipper with instructions not to re-ice en route. This decision resulted in the cancellation of bunker use charges varying from $5 to $8 per car.

INFORMAL RATE MATTERS.

In addition to the many formal proceedings, the Rate Department also took care of 1228 informal applications submitted by the public utilities and 678 complaints filed by shippers involving adjustments of rules, rates, fares and services.

ENGINEERING DEPARTMENT.

The large number of important rate proceedings involving telephone, gas, electric, water, and street railway companies made necessary certain additions to the engineering staff, and extraordinary provisions to handle the heavy valuation work made necessary in fixing the rate bases for these utilities, or in fixing condemnation costs.

GAS AND ELECTRIC DIVISION.

Although this department embraces the entire field in the regulation of the gas and electric utilities of California, there were particularly some outstanding developments in the natural gas field. Chief of these was the appointment of a Gas Administrator. His duties are to allocate and control the distribution of natural gas between the wholesale and the retail companies serving the Los Angeles field.

GAS ADMINISTRATOR.

The companies agreed to the appointment of the Administrator by the Commission, under a stipulation incorporated in the Commission's order fixing wholesale rates for natural gas for the Midway Gas Company for sale to Southern California Gas Company and Los Angeles Gas and Electric Corporation. The duty of the Gas Administrator will be to guard against shortage of natural gas for domestic use. He has full powers to order the supply for industrial and commercial consumers discontinued during periods of shortage during the peak of winter consumption, in accordance with the urgency of the demand.

WASTE OF NATURAL GAS.

The Commission has sounded a timely warning against the waste of natural gas in Southern California oil fields. Enough natural gas is being wasted daily in the flush oil production methods in these fields to supply the city of San Francisco with gas for one week.

SERVICE INSPECTION.

An important step was taken by the Commission in the interest of improved electric service throughout the state, and especially in agricultural districts, by the inauguration of an inspection service, in cooperation with the California Farm Bureau. Many complaints were made in farming communities that the drop in voltage caused increased power bills and made pumping conditions unsatisfactory. The appointment of an inspector to have supervision of voltage immediately resulted in more satisfactory service to the farming communities. The

Commission also revised its General Order No. 64, providing for overhead electric line inspection, in cooperation with the electric utilities, whereby more modern standards will be provided in conformity with the best construction methods.

HYDRAULIC DIVISION.

The acquisition of the water systems by a holding company in Fresno and Visalia was followed by the initiating of movements for the purchase of those properties by the municipalities. The Railroad Commission, upon request of the cities, has begun the valuation of these properties for the purpose of fixing just compensation to be paid by the cities for their acquisition.

FORMAL MATTERS.

There are now 432 water utilities operating in the State of California under the jurisdiction of the Commission. These water utilities vary in size from small plants serving not more than two dozen consumers to the largest, which serves more than 120,000 consumers. The individual investment in the physical properties of these utilities varies from a few thousand dollars for the small plant to approximately $70,000,000 for the largest water utility. The total investment in public utility water works in California today is estimated by the Hydraulic Division to be approximately $200,000,000.

During the fiscal year 1926-27, the Railroad Commission rendered 186 decisions involving water utilities. Of this number 38 decisions related entirely to security issues, and the balance covered a wide range of rates, service, transfers of properties, abandonment of service, and valuation proceedings. There were 27 valuations involving small water companies, which totaled $3,811,346.29.

IMPROVEMENT OF SERVICE.

The Hydraulic Division devoted its activities during the last fiscal year largely towards improving water service conditions among the smaller companies. The continued steady growth of the smaller California communities has shown many of the water utilities to be unprepared to supply the additional demands made upon them.

Poor service results in complaints to the Railroad Commission, both formal and informal, and the Commission has exerted itself to assist the smaller water utilities to bring their service up to the standards fixed by the Commission. There were 28 formal complaints calling for an official proceeding and decision by the Commission, and 609 informal complaints which were handled without the formality of a hearing.

TELEPHONE AND TELEGRAPH DIVISION.

The last fiscal year was marked by a large number of telephone and telegraph proceedings, ranging in importance from those affecting but a few dozen consumers to that affecting nearly 450,000 subscribers, and involving a complete revision of rates and exchange areas in the San Francisco Bay district.

During the year the California Supreme Court held that the Commission has jurisdiction over rates for classified advertising and advertising listings in telephone directories, and issued a writ of mandate requiring the Commission to assume jurisdiction. An order was issued

by the Commission to all companies publishing directories to file rates, rules and classifications for the Commission's approval.

In its efforts to bring up telephone service in California to the highest possible standard, the Commission frequently conducts investigations, and arranges conferences with individual telephone users, or representative organizations, and invites requests for assistance in matters relating to telephone service.

Such requests are thoroughly investigated and studied by the Telephone and Telegraph Division. Informal meetings, held at the place from which the request comes, permit of a fuller understanding of utility matters in general, and of the local telephone situation in particular, and invariably result in improved service.

When it is understood that there are approximately 141 telephone utilities operating in the State of California, and that the number of telephones connected for the service of organizations calling on the Commission for assistance varies from a half dozen to approximately a million, the public may realize the magnitude of the job which the Commission's telephone engineers has before them.

It is worthy of notice that there was a reduction in informal complaints (consumer complaints) from 978 during the fiscal year ending June 30, 1926, to 652 for the fiscal year ending June 30, 1927, and that the number of complaints has steadily decreased since the fiscal year of 1923-24, when there were 3736 complaints, practically all of which related to service or installations, extensions and cancellations. The reduction in complaints is a sure index in the marked improvement in service, especially among the smaller telephone utilities.

TRANSPORTATION DIVISION.

The fiscal period of 1926-27 witnessed great activity in all matters having to do with transportation, especially grade crossing and rate matters, coming before the Transportation Division of the Commission.

Although the normal number of grade crossing matters filed with the Commission during the year is 60, there were 222 new grade crossing proceedings filed during 1926-27. In addition to these, 42 were carried over from the previous year and six were reopened. Of these, 177 were for spur and other tracks, applied for by railroad companies, and 93 were for crossings by political subdivisions. The Commission granted 199 crossing permits, of which 57 were granted to political subdivisions, and the remainder were for spur tracks and other tracks requested by railroad companies.

GRADE CROSSING ELIMINATION.

The Commission kept up its efforts for the elimination, or separation, of dangerous grade crossings by authorizing 21 grade separations. The reconstruction of an old overhead crossing with impaired clearances was denied. The Commission also granted 12 extensions of time in which to construct grade separations, and issued a number of orders amending or revising previous orders of this nature.

Although the commercial and industrial development of California has resulted in the filing of an extraordinary number of applications for grade crossings by railroad lines, spur tracks, industrial tracks, or other tracks, the Commission has investigated every application with

scrupulous care, and has denied, dismissed, or ordered revised many applications, in order that the public safety may be conserved, and the needs of industry may not be infringed upon.

A survey of grade crossing separation possibilities was completed in the city of Palo Alto, and partially completed for the town of Sunnyvale.

GRADE CROSSING PROTECTION.

During the last fiscal year the Commission issued General Order No. 75, providing standards of grade crossing protection of a uniform nature, and also revised its General Order No. 26(a) regulating clearances along railroads, one of the effects of which will be to do away with the hazard created by the continual increase in the sizes of freight cars and locomotives.

The Transportation Division handled 170 informal complaints during the year, covering every sort of transportation activities from impaired clearances to smoking on upper decks of steamers, and even the burning of shrubs on railroad rights of way.

GRADE CROSSING SURVEYS.

Surveys of grade crossings were made on Southern Pacific lines through San Jose, through the East Bay cities, except Berkeley (which was surveyed during the previous year), through Burlingame, and from Watsonville to Aptos on the Santa Cruz branch. A survey was also made of grade crossings through El Cerrito and Albany on The Atchison, Topeka and Santa Fe Railway line, and all crossings authorized by the Commission in Santa Clara and Merced counties were inspected to insure carrying out of the Commission's orders. An intensive study was also begun with respect to signal ringing circuits on the lines of Southern Pacific Company, The Atchison, Topeka and Santa Fe Railway Company, and the work was completed on the Santa Fe in Albany and Oakland.

An analysis of grade crossing accidents occurring on 24 railroads in California from January 1, 1925, to May 10, 1927, was made by the Transportation Division. The 2251 accidents analyzed were as follows: On crossings protected by crossing signs, 946; by wigwags, 654; by human flagmen, 290; by overhead crossing signs, 293; by gates, 34; by crossing bells, 34. These 2251 accidents resulted in 297 persons being killed and 1054 injured. Property damage only occurred in 1360 accidents.

VALUATION WORK.

With so many important rate or condemnation cases pending before the Commission, the Valuation Division was actively engaged in 17 independent appraisals of public utility property, representing more than $100,000,000.

I. C. C. VALUATIONS CHECKED.

In addition to this work the Division checked the valuation reports of the Interstate Commerce Commission, which are submitted by the federal body to the various states for criticism, before making them effective in final form. There were 13 such reports, covering property valued at more than $60,000,000. The recommendations of the Rail-

road Commission have been instrumental in reducing the federal valuation figures by many millions.

FINANCIAL APPRAISALS.

The Valuation Division also checked over the valuations of 15 water companies in proceedings involving their sale, consolidation and refinancing, and also in the valuations of a number of other utilities, for the purpose of authorizing security issues. The Division also kept up to date the appraisals of a number of utility properties involved in condemnation proceedings before the Commission.

AUTO STAGE AND TRUCK LINES.

Control by the Commission of trucking operations on the highways has been considerably lessened by a United States Supreme Court decision to the effect that the operations of private or so-called "contract carriers" do not fall within the jurisdiction of the Railroad Commission, but the Commission has been given by the Legislature a greater measure of control over passenger stage lines. This was accomplished by the passage of a bill by the Legislature of 1927, declaring passenger stage lines a public utility, thereby submitting them to the full power of the Public Utilities Act, under authority of which gas, water, electric, rail and other utilities are regulated. They had previously been regulated under authority of the Auto Stage and Truck Transportation Act.

During the year covered by this report the Commission sponsored a measure appropriating $25,050 to be returned to 501 truckmen who, under a misapprehension of the law as to the certificating jurisdiction of the Commission, filed with the Commission applications for authority to operate truck services. Each application was accompanied by the filing fee of $50, required by law with such applications. The applications were subsequently dismissed by the Commission for want of jurisdiction upon authority of either what is generally described as the Ben Moore decision or the United States Supreme Court decision in *Frost* vs. *The California Railroad Commission,* the Commission being of the opinion that the applicants were entitled to a return of the filing fee.

It may be mentioned as an indication of the extent of public auto stage and truck transportation in California that there are 620 stage and truck lines operating under the jurisdiction of the Commission.

Reports filed with the Commission show that these lines transported 24,319,697 passengers and 1,231,176 tons of freight during the calendar year 1926. Their revenues totaled $22,451,646.75 and their expenses $21,341,415.88. The reports show a total investment by automotive transportation lines of $27,037,011.75. It is estimated that 4500 pieces of equipment are used by the authorized carriers.

LEGAL DEPARTMENT.

The Legal Department of the Commission, in addition to the general work of advising the Commission and its staff on legal problems, represented the Commission in 12 cases before the California Supreme Court, one before the Federal District Court, two before the superior courts of California, six before the Interstate Commerce Commission, in addition

to two cases before the United States Supreme Court, and took an active part in a large number of hearings before the Railroad Commission.

CASES DECIDED AND PENDING.

During the year one case was decided by the United States Supreme Court, one case by the Federal District Court, nine cases by the California Supreme Court, and one case by the Interstate Commerce Commission, in matters involving the jurisdiction or orders of the Commission. At the close of the fiscal year eight cases, in which the Railroad Commission was an interested party, were still pending: one in the United States Supreme Court, three in the California Supreme Court, two in the superior courts of California, and two before the Interstate Commerce Commission.

DIGESTS BEING PREPARED.

A digest of court cases in which the Commission has been a party was completed during the year, and will shortly be published, together with the full text of the cases digested, the Public Utilities Act, and the Commission's Rules of Procedure. A digest of the decisions and orders of the Commission has also been completed and is now being prepared for publication.

RECORD OF LITIGATION.

Since the reorganization of the Commission in 1911, it has made 18,568 formal orders and decisions. During that same period it has been a party to 177 court proceedings, of which 11 are still pending. Of these cases, 24 have been decided against the Commission, but included in these are five which have been reversed by later action of the California Supreme Court; four which were test cases, and, although nominally decided against the Commission, in reality sustained the Commission in principle; and one, which, though actually sustaining the Commission, went off on a minor technical point.

This leaves a net of 14 cases lost during these sixteen years out of the 177 cases which have been handled. In other words, the formal action of this Commission, in the regulation of public utilities in California as expressed in over 18,500 decisions, has been reversed in but 14 instances, considerably less than one-tenth of one per cent.

The report is in one volume of two parts. Part one is devoted to a description of the work of the Commission from a statistical and departmental standpoint. Part two contains tables compiled from the annual reports of utilities filed with the Commission, in conformity with the provisions of the Public Utilities Act and the rules of the Commission.

Respectfully submitted.

EZRA W. DECOTO,
CLYDE L. SEAVEY,
LEON O. WHITSELL,
THOMAS S. LOUTTIT,
WILLIAM J. CARR,
Commissioners.

PART ONE

THE BUSINESS OF THE YEAR

CHAPTER I.

JURISDICTION—LEGISLATION—HISTORY—ORGANIZATION.

The legislature of 1927 enacted a number of changes in the law affecting the regulation of public utilities. These had the effect, principally, of adding to the powers of the Commission or clarifying previous acts or amendments to the Public Utilities Act, and no important function was taken away from the Railroad Commission by new legislation.

LEGISLATION.

The Railroad Commission, originally created under a provision of the constitution of 1879, was reorganized under its present status as the result of the adoption of constitutional provisions at a special election October 10, 1910. Its principal powers were conferred on the Commission by the Public Utilities Act effective March 23, 1912.

Following is a list of the constitutional amendments and statutes describing and increasing the powers of the Railroad Commission since the present Commission was created:

Public Utilities Act enacted 1911, approved December 23, 1911; in effect March 23, 1912. (Statutes 1911, extra session, chapter 14, page 18.) Reenacted 1915; Statutes 1915, chapter 91, page 115. Amended: Statutes, page 1917, chapter 120, page 168; chapter 137, page 199; chapter 176, page 261; chapter 176, page 269; chapter 209, page 320; chapter 707, page 1329; Statutes 1919, chapter 304, page 488; chapter 304, page 493; chapter 304, page 497; Statutes 1921, chapter 776, page 1355; Statutes 1923, chapter 387, page 834; chapter 388, page 837. Constitutional provisions, article XII, sections 20 to 23*a*. Food Warehousemen Act, Statutes 1919, chapter 215, page 314. Act for regulation of auto stage and truck transportation, Statutes 1917, chapter 213, page 330; amended, Statutes 1919, chapter 280, page 457; Statutes 1921, chapter 840, page 1609; Statutes 1923, chapter 310, page 644. Act for regulation of water companies, Statutes 1913, chapter 80, page 84, and Statutes 1923, chapter 172, page 413.

1925 ENACTMENTS.

Chapter 144, Laws of 1925—Amending section 5 of the Public Utilities Act to enable the Commission to appoint more than one assistant secretary.

Chapter 145, Laws of 1925—Amending section 1 of chapter 213, Statutes of 1917 (Auto Stage and Truck Transportation Act), exempting from the provisions of said act "busses engaged solely in the transportation of bona fide pupils attending an institution of learning when such pupils are transported solely between their homes and such institution of learning."

Chapter 153, Laws of 1925—Amending section 7 of chapter 213, Statutes of 1917 (Auto Stage and Truck Transportation Act), granting immunity from prosecution to any person testifying before the Commission as to violations of said act, this to prevent a witness from refusing to testify on the ground that his testimony might incriminate himself.

Chapter 254, Laws of 1925—Amending section 9 of chapter 213, Statutes of 1917 (Auto Stage and Truck Transportation Act), by providing that the Commission may adopt reasonable and uniform rules and regulations governing the operation of transportation companies operating solely in interstate commerce between this and another state.

Chapter 357, Laws of 1925—Amending section 71 of the Public Utilities Act by enabling the Commission to grant reparation for unreasonable rates and by providing that no assignment of a reparation claim shall be recognized by the Commission.

Chapter 398, Laws of 1925—Amending the Public Utilities Act by adding thereto a new section designated "section $52\frac{1}{2}$" prohibiting any public utility from assuming any obligation as guarantor, indorser or surety in respect to securities of any other person without the Commission's permission.

Chapter 406, Laws of 1925—Amending section 52 of the Public Utilities Act by inserting at various places throughout that section the words "Other evidence of interest or ownership" to give the Commission jurisdiction over that type of security in addition to stocks, stock certificates, notes and other evidences of indebtedness, and by the substitution of the word "may" for "shall" in subdivision (*b*) of said section to enable the Commission to dispense with the hearing where deemed necessary on certain applications for issuance of stocks, bonds, notes and other evidences of indebtedness.

1927 ENACTMENTS.

Chapter 129, Laws of 1927—Amends section 50*d* of the Public Utilities Act by revising and clarifying the requirement of a certificate of public convenience and necessity from operators of vessels on the inland waters of the state. Provides that such certificates may be transferred only upon authorization of Railroad Commission, and empowers the Commission to revoke such certificates for cause.

Chapter 130, Laws of 1927—Amends section 2*h* of the Public Utilities Act to include in definition of street railway any person who operates in conjunction with such carrier any automobile, jitney bus, stage or auto stage over the highways between fixed termini or over a regular route.

Chapter 44, Laws of 1927—Amends section 51 of the Public Utilities Act to extend to all pubilc utilities, as defined in said act, the prohibition against selling, leasing, encumbering or otherwise disposing of any or all of their operative properties without the consent of the Railroad Commission. Heretofore only certain specified classes of public utilities were included under this section.

Chapter 37, Laws of 1927—Adds to section 6 of the Auto Stage and Truck Transportation Act a new subsection lettered (*c*) forbidding transportation companies, as defined by that act, to assume any obligation or liability as guarantor, endorser, surety or otherwise in respect to the securities of any other person or corporation payable more than twelve months after their date without securing authority from the Railroad Commission, and providing that every unauthorized assumption of such character shall be void. This amendment writes the pro-

visions of section 52½ of the Public Utilities Act into the Auto Stage Act.

Chapter 28, Laws of 1927—Amends section 6 of the Auto Stage and Truck Transportation Act by forbidding the execution of any mortgage or other lien on any of the property of operators under said act without authority from the Railroad Commission.

Chapter 38, Laws of 1927—Adds to the Auto Stage and Truck Transportation Act a new section (7½), conferring upon the Railroad Commission jurisdiction to award reparation for excess or unreasonable charges against operators falling under said act, substantially in the manner provided as to public utilities generally by section 71 of the Public Utilities Act.

Chapter 64, Laws of 1927—Amends section 5 of the Auto Stage and Truck Transportation Act to forbid the granting of certificates of public convenience and necessity under said act to foreign corporations (cf. sec. 26, Public Utilities Act, forbidding operation of public utilities by foreign corporation save in certain specified instances), and to limit the requirement of a $50 fee to applications for original certificates. Hitherto such fee has applied to cases involving transfers of certificates as well as to the issuance of original certificates.

Chapter 690, Laws of 1927—New act granting power to municipal and county legislative bodies, where public necessity and convenience require, to create assessment districts and raise funds by assessment therein to defray all or part of the public's share of the expense of separating the grades of highways and railroads at railroad crossings. Procedure specified.

Chapter 878, Laws of 1927—Adds two new sections to the Public Utilities Act relating to the regulation of warehousemen. By section 2½ the definition of warehousemen subject to said act is broadened to include all such enterprises which for compensation store merchandise other than second-hand household effects, or merchandise sold but retained in the custody of the vendor, but excepting warehouses conducted by any nonprofit cooperative association or corporation engaged in handling or marketing members' agricultural products, and warehouses conducted by their agents while acting under the legal limitations on the principles of such agents. By section 50½ persons desiring to operate in cities having a population of 150,000 or more are required to obtain certificates of public convenience and necessity before engaging in the warehousing business, as above defined, or before enlarging their warehouse space by more than 50,000 square feet. No certificate is required of existing warehousemen, but transfers must receive the Railroad Commission's approval. Certificates may be revoked for cause, and, on complaint, the Commission may direct cessation of operation until decision.

Chapter 42, Laws of 1927—Amends section 33 of the Public Utilities Act and adds two new sections (2¼ and 50¼) thereto, the purpose of the act being to subject passenger motor stages to regulation under the Public Utilities Act, such stages having heretofore been regulated by the Auto Stage and Truck Transportation Act (Statutes 1917, chapter 213, as amended). Section 2¼ defines "passenger stage" and "passenger stage corporation." Section 33 relates to joint rates and through routes. Section 50¼ provides for the certification of such carriers.

Chapter 81, Laws of 1927—A resolution to propose the addition of a new section to be numbered (6) in article XIV, California constitution, to provide for a bond issue of $10,000,000 to defray railroad grade crossing elimination expense on the primary road system. Funds have hitherto been lacking to cover the cost of grade separations at any but the most hazardous crossings.

Chapter 704, Laws of 1927—Amends section 43 of the Public Utilities Act by adding a provision that if the political subdivision interested in a railroad grade crossing separation deems that special benefits will flow therefrom, it may raise the necessary funds to defray its portion of the cost thereof by assessment upon the benefited district. This law was enacted as a companion law to chapter 690, *supra*.

Court decisions and litigation involving jurisdiction of the Commission are treated in detail in the report of the Legal Department, Chapter XIV of this report. A complete history of the Commission, its legislation and organization, was published in the annual report of the Commission for 1922-23. Those interested in the subject are referred to Chapter I of that report. The ensuing chapters cover the Commission's activities during the fiscal year 1926-27.

CHAPTER II.

THE YEAR'S WORK—STATISTICAL REPORT.

Every important public utility in California was involved in a major proceeding of some kind before the Railroad Commission during the fiscal period of 1926-27.

Never in the history of the Commission was it confronted by such a large number of proceedings of major importance. A number of these were proceedings continuing from the year before, and a great many were still pending at the close of the fiscal period. The properties involved in valuations by the Commission, either for rate making or condemnation purposes, consequently will run into the hundreds of millions of dollars.

Notwithstanding the fact that the Commission was engaged in a larger number of important proceedings than at any time in its history, the total number of formal applications filed during the fiscal year was less than during the preceding fiscal period, there being 906 as against 1643. The number of decisions rendered by the Commission also dropped from 1908 to 1539. This decrease was due to the removal of a large number of private contract motor carriers from the jurisdiction of the Commission by the Frost & Frost case decision of the United States Supreme Court, and the action of the Commission itself in holding that it has no jurisdiction over so-called radial operators, not conducting regular trips between fixed termini.

Grade crossing matters formed the largest group of applications, and leases and transfers of property were next. Certificates, which usually constitute the largest single class of applications, dropped into third place, due to the falling off in the requests for motor truck permits. There were but 236 applications involving auto stage and truck matters, as against 908 during the preceding year.

Formal complaints filed with the Commission showed an increase over the preceding fiscal period, there being 130, as against 116. The Commission instituted 29 cases on its own motion, or 8 more than during the year before. It held 250 meetings for the discussion of decisions and the transacting of other business.

The increased volume of work involved by proceedings other than those relating to auto stages and trucks, is reflected by the number of hearings of all kinds conducted by the Commission during the twelve months ending June 30, 1927. There were 896 hearings, either original, adjourned, or further hearings, or rehearings. Of these, 501 were original hearings, 139 of which were held in San Francisco, 146 at Los Angeles, and 216 at other places scattered throughout the state. The Commission held 136 adjourned hearings at San Francisco, 114 at Los Angeles, and 216 at other cities or towns. There were 26 further hearings and 9 rehearings, and 6 hearings on petitions for rehearings. In reporting these hearings the reporters of the Commission transcribed 120.111 folios of testimony and arguments, or a total of 12,011,100 words.

FORMAL COMPLAINTS.

Table No. 1 shows the number of formal complaints filed with the Commission every year since January 1, 1911, the date of the reorganization of the Commission in its present form.

TABLE NO. 1.

Formal Complaints Filed With the Railroad Commission During the Fiscal Years Ending June 30, 1912, to June 30, 1927.

January 1, 1911, to June 30, 1912, inclusive	168
July 1, 1912, to June 30, 1913, inclusive	138
July 1, 1913, to June 30, 1914, inclusive	209
July 1, 1914, to June 30, 1915, inclusive	194
July 1, 1915, to June 30, 1916, inclusive	145
July 1, 1916, to June 30, 1917, inclusive	136
July 1, 1917, to June 30, 1918, inclusive	150
July 1, 1918, to June 30, 1919, inclusive	80
July 1, 1919, to June 30, 1920, inclusive	131
July 1, 1920, to June 30, 1921, inclusive	170
July 1, 1921, to June 30, 1922, inclusive	146
July 1, 1922, to June 30, 1923, inclusive	148
July 1, 1923, to June 30, 1924, inclusive	88
July 1, 1924, to June 30, 1925, inclusive	121
July 1, 1925, to June 30, 1926, inclusive	116
July 1, 1926, to June 30, 1927, inclusive	130

Formal complaints segregated as to subject matter and utility are shown in the following table:

TABLE No. 2.

Formal Complaints, July 1, 1926, to June 30, 1927.

	Steam railroads	Electric railroads	Water carriers	Electric companies	Gas companies	Telephone and telegraph companies	Water companies	Auto stage—truck companies	Warehouse companies	Apartment houses	Miscellaneous	Total

*Governing the filing of contracts for special service or providing deviations from the filed rates, fares, tolls, charges etc., of all public utilities, as defined in the Public Utilities Act.

FORMAL APPLICATIONS.

Formal applications filed during the fiscal year 1926-27 totaled 906, or 737 less than during the preceding year. The number of formal applications filed by years since March 23, 1912, is as follows:

TABLE NO. 3.

Formal Applications Filed With the Railroad Commission During the Fiscal Years Ending June 30, 1912, to June 30, 1927.

March 23, 1912 to June 30, 1912, inclusive	126
July 1, 1912, to June 30, 1913, inclusive	501
July 1, 1913, to June 30, 1914, inclusive	583
July 1, 1914, to June 30, 1915, inclusive	544
July 1, 1915, to June 30, 1916, inclusive	632
July 1, 1916, to June 30, 1917, inclusive	632
July 1, 1917, to June 30, 1918, inclusive	893
July 1, 1918, to June 30, 1919, inclusive	803
July 1, 1919, to June 30, 1920, inclusive	1,159
July 1, 1920, to June 30, 1921, inclusive	1,099
July 1, 1921, to June 30, 1922, inclusive	1,034
July 1, 1922, to June 30, 1923, inclusive	1,170
July 1, 1923, to June 30, 1924, inclusive	1,061
July 1, 1924, to June 30, 1925, inclusive	1,115
July 1, 1925, to June 30, 1926, inclusive	1,643
July 1, 1926, to June 30, 1927, inclusive	906

Classified as to subject matter and utility, the year's applications are grouped in Table No. 4, as follows:

TABLE NO. 4.

Formal Applications, July 1, 1926, to June 30, 1927.

	Steam railroads	Electric railroads	Carriers by water	Electric companies	Gas companies	Telephone and telegraph companies	Water companies	Warehouse companies	Wharf companies	Auto stage—truck companies	Total

CHAPTER III.

INFORMAL COMPLAINTS—DISPUTED BILLS.

During the fiscal period of 1926-27 the Railroad Commission received 3290 informal complaints of all kinds from public utility patrons. Of these 345 related to disputed bills, and the amount of the bill was deposited with the Commission pending an adjustment. There were 2945 complaints not involving the deposit of money with the Commission.

The total amount of deposits on disputed bills received during the year was $33,024.14, and the largest single deposit was $16,578.14.

Valuable service is rendered to public utility patrons by the Commission through the medium of informal complaints. Since this branch of work was begun in 1912 a total of 55,379 informal complaints of all kinds have been handled by the Commission, of which 3534 were accompanied by deposits of money on disputed bills.

Continued reduction in the number of informal complaints received by the Commission during the last fiscal period is accepted as an indication that service conditions are improving steadily.

The Commission has prescribed standard rules and regulations of service for all classes of utilities, and has worked unremittingly to bring all utilities, both large and small, up to its requirements as to efficiency and adequacy of the service. A number of general orders have been issued during the last few years, fixing these service standards and rules and regulations for dealing with the user of the service. Frequent inspections and conferences have been held by representatives of the Engineering Department of the Commission with the operators of the utilities, with the result that the standard of service has been raised to a new high level.

Frequently the Commission, after investigation of an informal complaint, may change the matter into a formal proceeding and set it for formal hearing and decision. Also the Commission has instituted formal proceedings on its own behalf to investigate matters first brought to its attention as an informal complaint. An order requiring a utility to make general improvements in its system, or service, may result from the filing of the original informal complaint.

The number of informal complaints received at the Los Angeles office of the Commission was considerably below the number received at the San Francisco office, there being 993 at the Los Angeles branch office and 1952 at the main office of the Commission. For a number of years the greater number of informal complaints was received at the Los Angeles office, due to the unprecedented demands made upon the utilities, and their inability to keep pace with the development of the entire southern section of the state.

INFORMAL COMPLAINTS BY YEARS.

The total number of informal complaints, not including deposits on disputed bills, handled by the Railroad Commission since January 1,

1912, when this was made a departmental function, to June 30, 1927, the end of the fiscal year, was 51,845:

January 1, 1912, to June 30, 1912, inclusive	245
July 1, 1912, to June 30, 1913, inclusive	1,381
July 1, 1913, to June 30, 1914, inclusive	2,288
July 1, 1914, to June 30, 1915, inclusive	2,382
July 1, 1915, to June 30, 1916, inclusive	3,039
July 1, 1916, to June 30, 1917, inclusive	2,644
July 1, 1917, to June 30, 1918, inclusive	2,423
July 1, 1918, to June 30, 1919, inclusive	2,342
July 1, 1919, to June 30, 1920, inclusive	2,663
July 1, 1920, to June 30, 1921, inclusive	4,888
July 1, 1921, to June 30, 1922, inclusive	4,950
July 1, 1922, to June 30, 1923, inclusive	5,493

DISPUTED BILLS.

Following is a statement showing the number of deposits received on account of disputed bills presented to the Railroad Commission for adjustment since May 23, 1916:

May 23, 1916, to June 30, 1916, inclusive	76
July 1, 1916, to June 30, 1917, inclusive	173
July 1, 1917, to June 30, 1918, inclusive	157
July 1, 1918, to June 30, 1919, inclusive	347
July 1, 1919, to June 30, 1920, inclusive	253
July 1, 1920, to June 30, 1921, inclusive	330
July 1, 1921, to June 30, 1922, inclusive	496
July 1, 1922, to June 30, 1923, inclusive	340
July 1, 1923, to June 30, 1924, inclusive	301
July 1, 1924, to June 30, 1925, inclusive	351
July 1, 1925, to June 30, 1926, inclusive	365
July 1, 1926, to June 30, 1927, inclusive	345
Total	3,534

Deposits received for the period of July 1, 1926, to June 30, 1927, inclusive, tabulated as to class of utilities and amounts, are as follows:

Class of utility	*Number of deposits*	*Amounts*
Water	95	$4,216 44
Water and electric	1	29 50
Electric	66	3,713 28
Gas and electric	26	720 64
Gas	71	3,220 52
Telephone	84	22,098 76
Express-auto stage	1	21 00
Telegraph	1	4 00
Totals	345	$33,024 14

Detailed data in regard to informal complaints handled by the different departments of the Commission will be found in the respective chapters devoted to those departments, or divisions of departments, further on in this volume.

CHAPTER IV.

ISSUE OF SECURITIES.

Public utilities and common carriers operating in California were authorized by the Railroad Commission, during the twelve months ending June 30, 1927, to issue stock, bonds, notes and other evidences of indebtedness in the total amount of $314,642,213.92. In addition, the Commission denied requests to issue $7,415,000 of securities and dismissed further requests amounting to $15,895,110. The total securities passed upon aggregated $337,952,323.92.

ACTION DURING THE LAST THREE YEARS.

The action taken during the last year compares with that taken the two preceding years as follows:

Action taken	*Year ending June 30, 1925*	*Year ending June 30, 1926*	*Year ending June 30, 1927*
Granted	$175,795,119 29	$262,463,149 26	$314,642,213 92
Denied	19,900,400 00	274,960 00	7,415,000 00
Dismissed	1,717,288 00	8,286,398 00	15,895,110 00
Totals	$197,412,807 29	$271,024,507 26	$337,952,323 92

The totals for the two years ending June 30, 1927, are somewhat abnormal by the inclusion of stock authorizations of extraordinary natures. During these periods Southern California Edison Company, Southern California Gas Company and Pacific Gas and Electric Company reclassified their capital stock by changing the par value of the shares from $100 each to $25 each. They applied for and received permission to issue new shares of stock of the lower par value in exchange for the old stock in the ratio of four new shares for each old one, the total issue amounting to $119,746,000 in the case of Southern California Edison Company, $10,000,000 in the case of Southern California Gas Company and $117,339,646.92 in the case of Pacific Gas and Electric Company. Eliminating these amounts we would have a total of $151,278,507.26 for the twelve months ending June 30, 1926, as compared with $210,612,677.00 for the period just ended.

The amounts authorized to be issued during the three years were segregated among the various classes of utilities as follows:

Class	*Year ending June 30, 1925*	*Year ending June 30, 1926*	*Year ending June 30, 1927*
Steam railroads	$4,023,150 00	$658,000 00	$2,825,000 00
Electric railways	3,515,496 40	4,362,461 17	1,500,000 00
Gas and electric companies	116,684,856 00	241,314,100 00	237,912,346 92
Water companies	7,339,346 39	5,046,782 59	13,077,250 00
Telephone and telegraph companies	41,982,306 50	1,947,913 50	52,434,540 00
Warehousemen	668,700 00	1,259,320 00	976,897 00
Carriers by water	193,000 00	2,891,000 00	3,960,000 00
Automotive carriers	1,388,264 00	4,983,572 00	1,956,180 00
Totals	$175,795,119 29	$262,463,149 26	$314,642,213 92

These amounts were authorized to be issued for the following purposes:

Purpose	*Year ending June 30, 1925*	*Year ending June 30, 1926*	*Year ending June 30, 1927*
Additions and betterments	$148,027,069 89	$79,803,531 13	$137,191,630 00
Refunding	11,516,756 00	172,714,121 13	163,631,053 92
Collateral	14,529,000 00	2,305,800 00	----------
Reorganization	1,722,293 40	7,624,697 00	13,819,530 00
Miscellaneous	----------	15,000 00	----------
Totals	$175,795,119 29	$262,463,149 26	$314,642,213 92

RELATION BETWEEN STOCK AND BORROWED MONEY.

The records of the Commission show that the bulk of the securities have been authorized to be issued for the purpose of providing for additions and betterments.

Since the effective date of the Public Utilities Act on March 23, 1912, up to June 30, 1927, the Commission has authorized the issue, for additions to and betterments of properties, of securities in the total amount of $1,380,923,997.76, of which $596,563,245.68, or about 43 per cent, has been represented by stock, and $683,360,752.08, or about 57 per cent, by borrowed money. During the years following the close of the war the preponderance of borrowed money authorizations, compared with stock authorizations, was even more marked, in some cases running as high as 69 per cent.

In the last three years, however, there appears to have been a tendency among the utilities to finance their construction to a greater extent through stock issues. This seems to have been caused, in the early part of the period, by the inability of some companies to have bonds certified, due to decreased earnings resulting from water shortage, and in the latter part by the policy, on the part of some, to even the ratio between the outstanding stock and bonds. Figures showing the relationship between the two classes of securities authorized to be issued for construction purposes, are as follows:

Period	*Stock authorizations*	*Per cent of total*	*Borrowed money authorizations*	*Per cent of total*
1926–1927	$102,808,730 00	74	$34,382,900 00	26
1925–1926	46,486,893 50	60	33,316,637 50	40
1924–1925	96,976,470 29	65	51,050,599 60	35
1923–1924	85,783,510 41	44	107,137,215 00	56
1922–1923	30,358,759 00	35	58,318,850 00	65
1921–1922	63,732,928 96	42	85,192,277 57	58
1920–1921	34,022,037 55	36	60,102,898 36	64
1919–1920	18,877,684 00	31	40,536,088 56	69

INTEREST AND DIVIDEND RATES.

The twelve months period ending June 30, 1927, seemed favorable for stock financing by utilities. Not only was more stock authorized to be issued than in previous periods, but such stock appears to have been sold more readily at lower selling costs and for higher prices to the issuing companies. Several companies accomplished their junior

financing with a preferred stock bearing a lower dividend than in previous years. The California Oregon Power Company, Great Western Power Company of California and San Joaquin Light and Power Corporation discontinued the sale of 7 per cent preferred stock in favor of a 6 per cent preferred stock. Southern California Edison Company announced the proposed issue of a 5½ per cent preferred stock.

The prices at which stocks of various utilities were reported selling on the San Francisco Stock and Bond Exchange on or about June 30, 1926, and June 30, 1927, show a general improvement during the year. These prices were as follows:

Name of company and security	*On or about June 30, 1926*	*On or about June 30, 1927*
Great Western Power Company of California—6% preferred	---	97
Great Western Power Company of California—7% preferred	103	102
Los Angeles Gas and Electric Corporation—6% preferred	98	102
Pacific Gas and Electric Company—6% preferred	100⅝	105
Pacific Gas and Electric Company—common	130¼	144
Pacific Telegraph and Telephone Company—common	120	137½
San Joaquin Light and Power Corporation—7% prior preferred	104¼	107
San Joaquin Light and Power Corporation—7% preferred	100	106
San Joaquin Light and Power Corporation—6% prior preferred	---	99⅞
Southern California Edison Company—7% preferred	110½	114⅓
Southern California Edison Company—6% preferred	99	101½
Southern California Edison Company—common	126	137
Southern California Gas Company—6% preferred	96⅝	100

In this tabulation the stocks having a par value of $25 have been placed on a basis of $100 for comparative purposes.

Favorable bond market conditions, during the twelve months period, enable utilities to continue the practice, commenced several years ago, of replacing outstanding bonds with issues bearing lower rates of interest, and thereby effecting savings in fixed charges. For refunding purposes of this nature the Commission authorized the issue, during the twelve months period ending June 30, 1927, of $35,091,500 of bonds substantially all of which represented issues of gas and electric companies. Among these issues may be mentioned that of San Joaquin Light and Power Corporation, consisting of $22,725,000 of 5 per cent thirty-year bonds, of Los Angeles Gas and Electric Corporation, consisting of $6,895,500 of 5 per cent bonds, due 1961, and of Midland Counties Public Service Corporation, consisting of $2,500,000 of 5 per cent bonds, due 1957. It is of interest to note, during the last fiscal period under review, that of the bonds authorized to be issued, about 94 per cent of those of gas and electric companies, which account for substantially all of the bond financing, bore a nominal rate of interest of 5 per cent, whereas during the preceding period, about 70 per cent

of such bonds were 5 per cent bonds, and the remainder higher interest bearing, indicating that it was found possible and thought desirable during this last year to finance with a lower rate bond.

TREND TOWARD CONSOLIDATION.

The trend toward the consolidation of public utility properties has continued throughout the year.

Chief among the consolidations was the acquisition by Pacific Gas and Electric Company, from the Standard Gas and Electric Company, of the control of the Western States Gas and Electric Company, Sierra and San Francisco Power Company and Coast Valleys Gas and Electric Company. The acquisition of the control of these companies, which was accomplished by the purchase of stock, gave the Pacific Gas and Electric Company additional business estimated at about $8,000,000 annually and extended its field of operations generally down the Salinas Valley, into and about Eureka and elsewhere in Humboldt and Trinity counties, and into Stockton and surrounding territory, as well as other points. The purchase price was reported at approximately $61,000,000

Probably next in interest and importance was the consolidation under the ownership and management of the California Water Service Company of water systems operating in thirteen communities throughout the state, which formerly had been separately owned and managed. The communities in which the new company purchased properties are Hermosa, Redondo, Bakersfield, Visalia, Fresno, Stockton, Livermore, Port Costa, Dixon, Willows, Oroville, Chico and Redding. Although the systems are widely scattered, it was thought by the purchaser that under one management economies could be effected and service bettered. The purchasing company is a subsidiary of the Federal Water Service Corporation of New York.

At the close of the year a somewhat similar application, though not so extensive, was filed by Pacific Water Company to acquire the properties of South San Francisco Water Company, Peninsula Water Company and William H. Howard Estate Company. The Pacific Water Company is controlled by the Associated Public Utilities.

Other proceedings of interest were: The purchase of the Alturas Electric Power Company, Fort Bragg Electric Company, Mendocino Electric Light and Power Company and the N. P. Jensen electric properties by Peoples California Hydro-Electric Corporation, a corporation controlled by Peoples Light and Power Corporation; the consolidation under the Los Angeles Water Service Company of the properties of Consolidated Water and Development Company, South Park Water Company, Lawndale Land and Water Company, Melvin Place Water Plant and The Calhoun Plant; the consolidation of the California Transportation Company and the California Navigation and Improvement Company.

PERIOD OF SUPERVISION.

From March 23, 1912, the effective date of the Public Utilities Act, to June 30, 1927, applications were filed with the Railroad Commission by public utilities and common carriers, for permission to issue stock, bonds, notes and other evidences of indebtedness amounting to $2,766,680,505.66. The Commission acted upon applications involving the issue of $2,718,153,245.66 of securities, leaving $48,527,260 pending on June 30, 1927.

The action taken by the Commission was as follows:

Granted	$2,500,050,123 84
Denied	109,253,580 04
Dismissed	108,849,541 78
Total	$2,718,153,245 66

The securities authorized to be issued consist of the following:

Stock	$1,216,775,452 71
Bonds	1,105,615,729 81
Notes	143,323,102 32
Other evidences of indebtedness	34,335,839 00
Total	$2,500,050,123 84

The purposes for which these securities were authorized to be issued are as follows:

Additions and betterments	$1,380,923,997 76
Refunding	635,769,996 41
Collateral	153,971,392 70
Reorganization	318,548,071 97
Miscellaneous	10,836,665 00
Total	$2,500,050,123 84

The securities were authorized to be issued by the various classes of utilities and carriers as follows:

Steam railroad	$360,234,164 89
Electric railway	187,236,607 45
Gas and electric companies	1,434,620,611 82
Water companies	177,996,345 86
Telephone and telegraph companies	232,219,195 82
Warehousemen	14,613,242 00
Car companies	160,000 00
Pipe line companies	59,753,433 00
Carriers by water	18,037,034 00
Automotive carriers	15,179,489 00
Total	$2,500,050,123 84

TABULATIONS OF SECURITY AUTHORIZATIONS.

The tables following show the Commission's action during the year and the names of the utilities and carriers that have been authorized to issue stock, bonds, notes and other evidences of indebtedness.

Table No. 1 shows the total amount of stock, bonds, notes and other evidences of indebtedness applied for, authorized, denied and dismissed during the year ending June 30, 1927, and the amount pending on June 30, 1927, segregated as to classes of utilities.

Table No. 2 shows the same information segregated as to purpose of issue and classes of utilities.

Table No. 3 shows the stock and bonds of steam railroad companies authorized and dismissed during the year ending June 30, 1927, and pending on June 30, 1927.

Table No. 4 shows the bonds of electric railway companies applied for and authorized during the year ending June 30, 1927, and pending on June 30, 1927.

Table No. 5 shows the stock, bonds and notes of gas and electric companies applied for, authorized, denied and dismissed during the year ending June 30, 1927, and pending on June 30, 1927.

Table No. 6 shows the stock, bonds and notes of water companies applied for, authorized and dismissed during the year ending June 30, 1927, and pending on June 30, 1927.

Table No. 7 shows the stock, bonds and notes of telephone and telegraph companies applied for, authorizing and dismissed during the year ending June 30, 1927, and pending on June 30, 1927.

Table No. 8 shows the stock and bonds of carriers by water applied for, authorized and denied during the year ending June 30, 1927, and pending on June 30, 1927.

Table No. 9 shows the stock, bonds and notes of warehousemen applied for, authorized and dismissed during the year ending June 30, 1927, and pending on June 30, 1927.

Table No. 10 shows the stock, bonds and certificates of indebtedness applied for, authorized, denied and dismissed during the year ending June 30, 1927, and pending on June 30, 1927.

TABLE No. 1.

SHOWING AMOUNT OF STOCK, BONDS, NOTES AND CERTIFICATES APPLIED FOR, AUTHORIZED, DENIED AND DISMISSED BY AND BEFORE THE RAILROAD COMMISSION OF CALIFORNIA FROM JULY 1, 1926, TO JUNE 30, 1927, AND PENDING ON JUNE 30, 1927.

Class of utility and purpose	Applied	Authorized	Denied	Dismissed	Pending
STOCK.					
Steam railroads		$225,000 00		$75,000 00

COMMISSION'S DECISIONS.

The Commission's decisions authorizing the issue of securities are published in pamphlet form and also in volumes entitled "Opinions and Orders of the Railroad Commission of California." Copies may be obtained from the secretary of the Commission. Attention is called to a few of these decisions.

BASIS FOR CAPITALIZATION.

The Commission's view on the capitalization of a property are set forth in a decision, No. 17109, entered on an application filed by Stockton Terminal and Eastern Railroad to issue stock in payment for the properties, then held by receivers, which formerly had been operated by Stockton Terminal and Eastern Railroad Company.

Permission was asked to issue $300,000 of stock, and in support of this request reproduction costs as of December 31, 1925, were urged as the proper basis for capitalization. It appeared, however, that the Interstate Commerce Commission, in a tentative valuation dated April 16, 1926, had found a value of the properties, using 1914 price levels, for rate making purposes, of $222,297, and this Commission accordingly reduced the amount of stock to $225,000, its decision reading, in part, as follows:

> "We do not believe that the capitalization of the properties should be based on prices prevailing on December 31, 1925, or on any other particular date. Capitalization should be based on the cost of the properties. It is of record, however, that the original cost of the properties is not available. We are of the opinion that a valuation of the property, based on the 1914 price level, plus the cost of additions and betterments, the increase in land values and the current assets, afford a sounder basis for the issue of stock than a valuation as of today, based on present prices."

VALUE OF PROPERTY NOT SOLE MEASURE IN CAPITALIZATION.

The Commission does not use the value or cost of properties as the sole measure in determining the capitalization, but gives consideration to earnings and various other elements. It will not, for example, permit the issue of securities to acquire a property, equal to the value thereof, if the earnings have not been, and apparently will not be, sufficient to meet fixed charges on such securities. To this extent the revenue is a limiting factor.

During the year, Sonoma Water and Irrigation Company applied for permission to use $10,000 of stock proceeds to pay for two water plants operating in its vicinity, and alleged property values of about that amount. In the decision on the matter, Commissioner Whitsell reviewed the valuations and went on to say:

> "I believe, however, that in passing on these proposed transfers we should give consideration to the earnings of the properties, as well as to the physical value."

After analyzing the revenues and expenses the order permitted the use of $9,000 of stock proceeds, an amount less than the valuations but seemingly more compatible with the return from the operation of the system.

These views were enunciated also in Decision No. 18418, rendered on the application of The Sweetwater Water Corporation to issue securities in payment for water properties. That company had pro-

posed a capitalization of $2,100,000, consisting of $1,200,000 of bonds, $150,000 of preferred stock and $750,000 of common stock. This, the Commission found was not in the public interest. Its decision in part reads:

> "It is reported that the net revenue before depreciation for 1926 was 2.04 times the interest on $1,200,000.00, and that the net revenue after depreciation for 1926 was 1.86 times bond interest. The projected net revenue for 1927 is reported at 2.22 times bond interest before depreciation, and 2.04 times after depreciation. It occurs to us that in proceedings of this kind too much emphasis is given to the number of times net earnings may exceed bond interest. While the estimated net revenue for 1927 is over twice the amount of interest on the proposed bond issue, the balance remaining after providing for depreciation and dividend on the proposed issue of preferred stock, will, if realized, be sufficient to pay a dividend of only 4.9 per cent on the proposed common stock; a condition which in our opinion is not conducive to securing a proper price for the bonds or a ready market for preferred and common stock."

The order in the decision accordingly approved a lower capitalization. The Commission's interest in these matters thus extends to the public, the company and the security holders, and it thus takes the position that a capitalization should be one which will permit the ready financing of additions and extensions that may become necessary to take care of future demands for service.

POTENTIAL VALUES NOT CAPITALIZABLE.

According to a ruling of the Commission potential values may not be capitalized through the issue of securities.

Modesto Refrigerating Company asked for authority to issue $30,000 of stock to acquire certain lands which were estimated to have a value at that time of $14,400, but a possible value in the future of $30,000. The Commission did not look with favor on the proposal, its decision reading on this point as follows:

> "An estimate of the value of the land * * * shows the estimated value at $14,400. Applicant asks permission to issue $30,000 of stock in payment, and in support of its request alleges that the land is so situate as to be peculiarly adapted to its needs; that the appraisal submitted is conservative and that the construction of the plant upon it will enhance and increase the value thereof; that applicant was organized by those in control of the Beard Land and Investment Company, and that without the financial assistance and management and control contributed by that company the construction of applicant's plant could not be accomplished; that therefore the Beard Land and Investment Company will be responsible for the increase in the value of the land to $30,000, and should be entitled to the benefit of such increase, especially because it is taking stock for its property.
>
> It seems to us, however, that here we are asked to make an order permitting applicant to capitalize a potential land value that may, or may not, result because of the proposed plant to be erected and operated. Furthermore, the appraisal ($14,400), is predicated upon the land being occupied. It therefore appears to us that the company should be permitted to issue not more than $14,400 of stock in payment for the property."

Similar proposals to capitalize potential values have come before the Commission from time to time but none has received its approval.

DENIAL ON ACCOUNT OF HIGH PROPORTION OF DEBTS.

During the year the Commission denied an application to issue notes when it developed that there would result what seemed to be an unreasonably high proportion of indebtedness against properties. This was

an application of Pacific Coast Motor Coach Company to issue $20,000 of notes to acquire properties and equipment.

The Commission's opinion reads in part as follows:

> "It should be noted that if this application were granted, applicant's equipment, depot and garages would represent a cost of $24,500, against which there would be outstanding $20,000 face value of notes. It has been suggested that applicant's operative rights have a value of from $30,000 to $40,000. The Commission will not recognize any such value for the purpose of authorizing either the issue of notes or stock. The Commission can not entertain an application for the issue of notes representing so large a proportion of the reasonable value of applicant's tangible property. We believe that this application should be denied without prejudice and suggest to applicant that if it is in need of additional funds, it should file with the Commission an application for permission to issue stock."

In making this decision the Commission was but following a general policy that a substantial portion of a company's investment in plant should be represented by stock. It has taken the position that in a financial structure a preponderance of borrowed money, on which there accrues a fixed interest charge, is not in the public interest. While it has made no fixed ruling as to the ratio between stock and borrowed money, it has in several instances in the last year, in approving mortgages or deeds of trust, directed that such instruments contain a section providing that subsequent issues of bonds might be made only up to 60 per cent of the cost of new property.

INVESTMENT BY STOCKHOLDERS.

Somewhat in line with the decision referred to in the preceding paragraph was the order on the Tracy Gas Company application to issue securities.

This company, desiring to build and operate a gas plant in Tracy, applied for permission to issue $100,000 of stock and $100,000 of bonds to finance construction costs. The Commission indicated its approval of this financial structure but withheld final approval of the bond issue until there was a substantial investment in the stock of the corporation. Its decision, No. 17769, reads in part:

> "We feel that it is proper for the company to issue not exceeding $100,000 of bonds to pay in part the cost of its gas plant, provided it can sell enough stock to establish a reasonable equity for the bonds, and that it submits in satisfactory form a deed of trust. We will not authorize the issue of the bonds until we are furnished with satisfactory information showing that the company has sold at par $50,000 or more of its stock and has on deposit in some bank or banks at least 75 per cent of the selling price of such stock."

In addition to requiring the sale of some stock as a condition precedent to the issue of bonds, the Commission imposed certain restrictions on the use of the stock proceeds by requiring that no proceeds be used except as authorized by the Commission in supplemental orders. In doing so, the Commission followed its usual policy in these new developments, and thus makes it possible for it to exercise detailed supervision over a project from its inception to its completion.

APPROVAL OF DECLARATIONS OF TRUST.

By Decision No. 17041, the Commission authorized the transfer of a public utility water system to a trust known as the Los Alamitos Water Company.

In passing on this request the Commission took the position that any subsequent transfers of the beneficial interests under the trust must be approved by it. Quoting from the decision:

> "Although the agreement provides that the beneficial interests, or any part thereof, are assignable, no authority is requested to issue certificates of beneficial interest or ownership. We believe that in the event any of the beneficial owners hereafter desire to transfer their interest, that application must first be made to, and permission received from, the Commission."

In this particular transaction no certificates were issued to the real owners of the properties in evidence of their interests. If such certificates are to be issued, they must first be authorized by this Commission.

APPROVAL OF LEASE AND OPTION AGREEMENTS.

A number of applications have been brought before the Commission by automotive carriers, requesting approval of lease and option agreement or lease and conditional contracts of sale whereby one carrier leases the operative rights of another at a fixed rental which is to apply toward the purchase price if the carrier so elects.

In such cases, of course, the Commission considers first if public convenience and necessity will be served by the transaction, and if the lessee and purchaser will be able to meet its obligations under the agreement. The Commission's views are set forth in Decision No. 17078, and are as follows:

> "Upon the record herein, we are of the opinion that public convenience and necessity will be served by the lease of the operative rights of West Coast Transit Company to Pickwick Stages System and the operation thereunder by Pickwick Stages System. The order herein, therefore, will authorize the lease of the operative rights, on the condition, among others, that the rental as agreed between the applicants herein, as set forth in the lease and option agreement, shall never be urged or claimed by Pickwick Stages System as an operating expense or measure of value in any rate fixing, capitalization or other proceeding before this Commission or other public body having jurisdiction, it being understood that the approval herein granted is not in any way to be considered as a finding of value of the operative rights or as binding the Commission to recognize the rental as the basis for an order fixing rates or permitting the issue of stock or other securities, the amount to be paid as rental being considered by the Commission only as the price agreed upon by the two companies for the purpose of this agreement. The rent paid should be charged to surplus and not to be a capital account."

DENIAL ON ACCOUNT OF PRICE.

In authorizing the issue of securities, the Commission insists that the utilities receive a reasonable consideration for them. If securities can not be sold except at a large discount, the Commission has taken the position that they should not be disposed of at that time and that moneys should be obtained from some other source.

San Joaquin Light and Power Corporation applied for permission to issue $4,000,000 of common stock at 50 per cent of par value. The request was denied for the reason that the Commission did not favor the issue of stock at such a low price and, also, that it would not authorize the issue of stock for control purposes, as appeared to be the purpose of the proposed sale at 50.

ISSUE OF STOCK WITHOUT PAR VALUE.

By Decision No. 18407, dated May 25, 1927, the Commission for the first time authorized the issue of stock without nominal or par value.

Previously, requests to issue stock of this nature had been filed, but in each case had been withdrawn. In this one case it is important to note that the articles of incorporation of the issuing company provided for but the one class of stock and that such stock was authorized by the Commission to be sold at $100 a share.

EXCESSIVE AMOUNT OF STOCK DENIED.

The Commission, under Section 52 of the Public Utilities Act, is required to make a finding, in authorizing the issues of securities, that such issues are reasonably required by the company for the purposes for which the securities are to be used. If it is unable to make such a finding it withholds its approval of the proposed financing.

South Coast Gas Company, during the year, applied for permission to issue $185,000 of stock to finance the cost of constructing a gas plant and system to serve the city of Oceanside. It developed that the company had entered into a contract for the construction of the properties for $127,500, whereas the Commission's Engineering Department estimated that the cost should not exceed $71,515. The request of the company accordingly was denied. Quoting from the decision:

> "We do not believe that it is in the public interest for applicant to undertake to pay $127,500 for work and material that should not cost more than $71,515. While the Oceanside Chamber of Commerce and the Board of Trustees of the city of Oceanside urge (by letters dated prior to the hearing had on this application), that the Commission grant this application, they were not represented at the hearing. We have no objection to the construction of a gas plant at Oceanside provided it is built at a reasonable cost and financed in an ordinary business-like manner. To permit the construction under, or to recognize, the contract now before us in any way is likely to result in a request for rates that are unfair to the public. If such request is refused, which no doubt it would be, those who pay par for the applicant's stock will not receive an adequate return on their investment."

Subsequently the company filed a new application containing a new contract for the erection of the plant for $79,500, as compared with the $127,500 originally submitted, a reduction in the cost of $48,000.

INADEQUATE SHOWING.

The Commission denied the request of Great Western Power Company of California for permission to issue 25,000 shares of common stock at $50 per share, the par value being $100 per share. The application was denied because of the inadequate showing made by the applicant. After calling attention in its decision to the evidence submitted, the Commission says:

> "This is all the evidence that was submitted by applicant to justify the price at which it proposes to sell its stock. True, in response to a question by the presiding examiner, J. B. Black stated that it was difficult to determine the price and that he knew no justification other than earnings for anyone to invest money in common stock.
>
> This Commission has never authorized the issue of stock at a price as low as fifty unless perchance it be the common stock of applicant now outstanding. In the decision authorizing the issue of such stock the Commission stated, however, that its action should not be considered as a precedent, and gave the

reason why it authorized the issue of such stock. The frequent appearance of representatives of applicant before the Commission, the fact that Decision No. 2985, from which we have quoted herein, involved the issue of common stock by applicant, warrants us to conclude that they have at least a general familiarity with the policy of the Commission in regard to the price at which it permits utilities to issue stock. Be that as it may, the only evidence submitted by applicant to support its request to issue stock at fifty, is that quoted herein. This we regard as wholly insufficient.

It is not incumbent upon the Commission's representatives to develop an applicant's case. The practice of some applicants to ask their witnesses a few perfunctory leading questions and then dismiss them with the suggestion that if the Commission desires any additional information, let its representatives ask the questions, does not meet with approval of the Commission. We expect an applicant to make such affirmative showing in support of its requests as will warrant the Commission to make the findings it is expected to make, and not to impose on the Commission the duty to make such showing either by cross-examination or direct testimony."

CHAPTER V.

OPERATING REVENUES AND EXPENSES OF UTILITIES.

In the year ending December 31, 1926, the operating revenues of steam railroads, electric railways, gas, electric light and power, water, telephone and telegraph companies, carriers by water, wharfingers, warehousemen, auto stage and truck operators filing annual reports with the Railroad Commission totaled $1,001,170,243.26 as compared with $955,230,075.80 for the year ending December 31, 1925. The increase in operating revenues amounted to $45,940,167.46. The operating expenses for the same companies during 1926 increased $14,222,725.98, being $693,828,607.29 in 1926 and $679,605,881.31 in 1925. The net operating revenues, as such term is used in the annual report forms for the several classes of utilities, aggregated $307,341,635.97 in 1926 and $275,624,194.49 in 1925, showing a gain of $31,717,441.48.

Steam railroads for the calendar year 1926 report operating revenues of $491,743,019.03 and operating expenses of $334,076,504.88, leaving net operating revenues of $157,666,514.15 as compared with net operating revenues of $136,399,039.16 for 1925. The operating revenues include only the earnings from transportation. The figures just stated, however, include the total operating revenues, operating expenses and net operating revenues of The Atchison, Topeka and Santa Fe Railway Company, Los Angeles and Salt Lake Railroad Company, Southern Pacific Company (Pacific System), The Western Pacific Railroad Company, Nevada-California-Oregon Railway Company and Tonopah-Tidewater Railroad Company, all of which companies operate outside as well as within the State of California. Steam railroad companies operating within the State of California have allocated $184,073,118.49 of their revenues to California business in 1926, while $130,655,842.49 of their operating expenses have been allocated to California. The net operating revenues attributable to California business for 1926 are reported as $53,417,276, as compared with $47,053,035.06 for 1925. The number of passengers carried in California decreased from 44,576,450 in 1925, to 43,156,341 in 1926, while the freight tonnage assigned to California increased from 43,791,343 in 1925 to 44,799,393 in 1926.

Electric railway companies filing reports with the Railroad Commission show for 1926 operating revenues of $58,634,283.03 as compared with $58,611,044.86 for 1925, and operating expenses of $48,381,640.77 as compared with $47,062,373.47 for 1925, leaving net operating revenues of $10,252,642.26 and $11,548,671.39 respectively. The net operating revenues decreased $1,296,029.13. During 1926 electric railways carried 712,569,466 of revenue passengers as compared with 719,578,595 during 1925. The revenue passengers decreased 7,009,129.

Water companies for 1926 report operating revenues of $19,292,170.54 as compared with $17,995,970.60 for 1925. The net operating revenues of such companies for 1926 are reported at $7,893,577.29 while during 1925 water companies had net operating revenues of

$7,067,647.62. Water companies report 485,572 consumers for 1926 and 447,523 for 1925, the increase being 38,049.

The operating revenues of electric light and power companies for 1926 totaled $101,176,751.54, the operating expenses $45,323,-807.91 and the net operating revenues $55,952,943.63, as compared with $90,706,599.06, $40,807,061.51 and $49,899,537.55, respectively, for 1925. The number of electric light and power consumers increased from 1,160,384 in 1925 to 1,254,878 in 1926, the increase being 94,494.

Gas companies for 1926 report operating revenues of $54,447,959.10, operating expenses of $35,782,106.79 and net operating revenues of $18,665,852.31. In 1925 this class of utility reported operating revenues of $54,154,588.20, operating expenses of $36,039,696.09 and net operating revenues of $18,114,892.11. Gas companies report an increase in the number of consumers from 1,092,310 in 1925 to 1,168,-618 in 1926, the increase being 76,308.

Telephone and telegraph companies filing annual reports with the Commission show operating revenues of $216,699,771.89 for 1926, which was $15,824,275.54 greater than in 1925. They report operating expenses of $164,897,061.44 for 1926, the increase amounting to $11,894,680.58. The net operating revenues for 1926 are reported at $51,802,710.45; for 1925 at $47,873,115.49. The figures include the total revenues of The Pacific Telephone and Telegraph Company and of the Western Union Telegraph Company, both companies doing business outside of the state, as well as within the state. The report of the Western Union Telegraph Company shows a total revenue of $134,464,886.43, of which $8,530,814. is by that company allocated to California. The report of The Pacific Telephone and Telegraph Company shows total operating revenues of $54,524,558.82, of which $36,554,946.74 is by it allocated to California. The reports of these companies do not show a segregation of their operating expenses to California. The average number of working stations of telephone companies increased from 1,720,657 to 1,877,862, both figures including all the stations of The Pacific Telephone and Telegraph Company.

Warehouses and wharfingers report operating revenues for 1926 at $10,219,027.60, as compared with $11,819,612.63 for 1925. This class of utility reports operating expenses of $9,480,281.60 for 1926 and $11,137,628.89 for 1925, leaving net operating revenues of $738,-746 for 1926 and $681,983.74 for 1925.

Carriers by water report operating revenues for 1926 at $26,505,-613.78 in comparison with $25,750,204.61 for 1925. They show operating expenses of $23,247,194.77 for 1926 and $23,094,358 for 1925, leaving net operating revenues of $3,258,419.01 for 1926 and $2,655,-846.61 for 1925.

Transportation companies (auto stage and truck operators) for 1926 report operating revenues at $22,451,646.75, as compared with $21,055,-991.70 for 1925. Their operating expenses for 1926 amounted to $21,341,415.88 and $19,672,530.88 for 1925. The net operating revenues for 1926 amount to $1,110,230.87 and for 1925, $1,383,460.82. During 1926 stage operators carried 24,319,697 passengers; during 1925 they carried 30,534,540; the decrease being 6,214,843, while

truck operators report 1,231,176 tons of freight carried during 1926 and 1,184,814 tons during 1925, the increase being 46,362.

In the case of steam and electric railways, gas and electric companies, telephone and telegraph companies and carriers by water, taxes are not included in operating expenses and are therefore a deduction from their net operating revenue. The other classes of utilities include taxes in operating expenses. Tables following show the taxes of each utility. For the former group, taxes appear in the income account statements; for the latter, under operating expenses.

Table No. 12, following, contains a summary of the operating revenues, operating expenses and net operating revenues of public utilities reporting to the Railroad Commission for 1925 and 1926. Table No. 13 shows the net operating revenues of public utilities filing reports with the Commission during the same period; Table No. 14, the net cost of fixed capital installed by certain California public utilities as shown in annual reports filed with the Railroad Commission from 1913 to 1926, inclusive; Table No. 15, the net cost of fixed capital installed by steam railroads during 1926; Table No. 16, the net cost of fixed capital installed by electric railways during 1926; Table No. 17, the net cost of fixed capital installed by electric light and power companies during 1926; Table No. 18, the net cost of fixed capital installed by gas companies during 1926; Table No. 19, the net cost of fixed capital installed by telephone and telegraph companies during 1926, and Table No. 20, the net cost of fixed capital installed by water companies during 1926.

TABLE NO. 12.

Summary of Operating Revenues, Operating Expenses and Net Operating Revenues of Public Utilities Reporting to the Railroad Commission, 1925 and 1926.

	1925	*1926*
Water companies—		
Operating revenues	$17,995,970 60	$19,292,170 54
Operating expenses	10,928,322 98	11,398,593 25
Net operating revenue	$7,067,647 62	$7,893,577 29
Electric companies—		
Operating revenues	$90,706,599 06	$101,176,751 54
Operating expenses	40,807,061 51	45,223,807 91
Net operating revenue	$49,899,537 55	$55,952,943 63
Gas companies—		
Operating revenues	$54,154,588 20	$54,447,959 10
Operating expenses	36,039,696 09	35,782,106 79
Net operating revenue	$18,114,892 11	$18,665,852 31
Telephone and telegraph companies—		
Operating revenues	$200,875,496 35	$216,699,771 89
Operating expenses	153,002,380 86	164,897,061 44
Net operating revenue	$47,873,115 49	$51,802,710 45
Steam railroads—		
Operating revenues	$474,260,567 79	$491,743,019 03
Operating expenses	337,861,528 63	334,076,504 88
Net operating revenue	$136,399,039 16	$157,666,514 15
Electric railways—		
Operating revenues	$58,611,044 86	$58,634,283 03
Operating expenses	47,062,373 47	48,381,640 77
Net operating revenue	$11,548,671 39	$10,252,642 26
Warehouses—		
Operating revenues	$11,819,612 63*	$9,655,732 60
Operating expenses	11,137,628 89*	9,001,887 59
Net operating revenue	$681,983 74*	$653,845 01
Wharfingers—		
Operating revenues	----------**	$563,295 00
Operating expenses	----------**	478,394 01
Net operating revenue	----------	$84,900 99
Carriers by water—		
Operating revenues	$25,750,204 61	$26,505,613 78
Operating expenses	23,094,358 40	23,247,194 77
Net operating revenue	$2,655,846 61	$3,258,419 01
Auto stages and auto trucks—		
Operating revenues	$21,055,991 70	$22,451,646 75
Operating expenses	19,672,530 88	21,341,415 88
Net operating revenue	$1,383,460 82	$1,110,230 87
Totals—		
Operating revenue	$955,230,075 80	$1,001,170,243 26

CHAPTER VI.

RATE DEPARTMENT—TRANSPORTATION BY RAILROADS, VESSELS, AIRPLANES, AUTOMOBILE STAGE AND AUTOMOBILE TRUCK LINES, STORAGE (INCLUDING COLD STORAGE) AND WHARFAGE.

Because of the large number of formal and informal proceedings submitted to the Commission requiring much detailed work of investigation in connection with the general rate matters affecting steam railroads, electric railroads, steamships, ferries, automobile stage and truck transportation companies, grain warehouses, cold storage warehouses, wharves, switching and terminal companies, the fiscal year ending June 30, 1927, has been a year of heavy activities in this department. The shippers and receivers of freight throughout the state are being rendered a service which is each year becoming of greater importance. It is apparent that as the public grows more familiar with the historical and current rates and fares, it is applying more frequently to the Commission as the source of information and assistance.

During the year 16,893 tariffs and supplements were received, many containing as many as 300 pages of rules, rates and regulations. These must be scrutinized, checked and filed for the information of the public. The employees in this department are limited in number, and since approximately 1400 public utilities file tariffs, it is at times difficult to prevent delays, although a review of the year's work will clearly demonstrate that practically all matters referred to the department have been handled expeditiously.

There were 1228 informal applications submitted by the utilities requesting authority to adjust rules and rates, and 678 by shippers involving services and rates.

As mentioned in previous annual reports, the Rate Department has been called upon to act in a number of proceedings before the Interstate Commerce Commission, involving rates being investigated under the provisions of the Hoch-Smith Resolution, passed by Congress January 30, 1925, which resolution directed the Interstate Commerce Commission to make thorough investigation of the rate structures of common carriers subject to the Interstate Commerce Act, emphasizing the fact that in future its rate-making powers give less weight to distance of the haul, a purely transportation consideration, and more weight to the commercial and competitive conditions, to the end that commodities may move freely and that there be a natural and proper development of the country as a whole. The Commission was instructed because of the existing depression in agriculture to make such changes in the rate structure of the country as would promote the free movement of the products of agriculture, including live stock, at the lowest possible rates compatible with the maintenance of an adequate transportation service.

The Federal Commission has under investigation its Docket No. 17000, which is divided into eleven parts as follows:

Part 1. Carriers' petition for a general increase of approximately 5 per cent in all rates. (Denied July 14, 1926.)
Part 2. Class rate structure.
Part 3. Rates on cotton.
Part 4. Petroleum and petroleum products.
Part 5. Furniture.
Part 6. Iron and steel articles.
Part 7. Grain and grain products.
Part 8. Cottonseed and its products.
Part 9. Live stock.
Part 10. Hay.
Part 11. Sand and gravel.

Each proceeding is in and of itself of far-reaching importance to the State of California, and is carefully studied by the department experts. Hearings are being conducted throughout the United States, and it has been our effort, especially in connection with the proceedings involving products of the soil, including live stock, to secure hearings for either Los Angeles or San Francisco. Hearings have already been held in California in connection with the Part 3, rates on cotton; Part 8, cotton seed and its products; and Part 9, live stock. It has been necessary to send representatives of the Commission to Chicago in connection with the 5 per cent increase applications and to Kansas City for a meeting of State Commissioners involving the rates on grain and grain products. It is expected, in connection with the grain rates, that hearings will be held at San Francisco some time in October, when the grain interests, producers, manufacturers and brokers will have an opportunity to be heard.

The denial by the Interstate Commerce Commission of the petition for an increase of 5 per cent in all rates reflected a saving of many million dollars per year to California shippers. Commenting on the decision and this Commission's activity in the adjustment, John E. Benton, general solicitor of the National Association of Railroad and Utilities Commissioners, forwarded the following wire:

> "The justice of this decision was demonstrated by the showing in the public behalf made by the State Commission forces. I congratulate your Commission upon the splendid contribution made by it in this case and upon the decision just rendered."

DECIDUOUS FRUITS.

Perhaps the decision of greatest advantage to California shippers was the reduction in the rates on deciduous fresh fruits. This proceeding was instituted by the California Growers and Shippers Protective League, and sought a reduction in the rate of $1.62 to Denver and points west thereof, and in the rate of $1.73 to points in the balance of the United States. It was contended that the deciduous fruit rate should not be in excess of $1.44 to all territory Denver and east thereof, which rate was in effect June 25, 1918. The Federal Commission in its decision rendered July 20, 1927, made to become effective October 10, 1927, reduced the Denver rate to $1.50 and the rate to points beyond

to $1.60, a reduction of 12 cents per 100 pounds to the western territory and 13 cents per 100 pounds to the eastern territory. The estimated annual savings to the California fruit growers will be in excess of $3,000,000.

The California Commission intervened in this proceeding, submitted exhaustive exhibits and testimony at the San Francisco hearing held in March of this year, and sent its attorney to Washington in June to argue the proceedings before the Interstate Commerce Commission *en banc*.

The rate department introduced exhibits and testimony showing that the major California rail lines engaged in transcontinental traffic are in a most prosperous and healthy condition, the operating revenues of the Southern Pacific having increased since the year 1911 from $38,692,580 to $46,417,047 in 1926. During the same period of time the operating revenues of the Santa Fe changed from $29,667,802 to $55,493,700; and the Western Pacific since 1912, when operations were commenced, increased its operating revenue from $611,424 to $4,405,683. This Commission's experts also brought out the fact that the express rates for deciduous fresh fruit in carloads adjusted by the Interstate Commerce Commission in 1922, were at a level varying from 27.6 per cent to 29.5 per cent above the rates in effect prior to June, 1918, while the freight rates varied from 40.8 per cent to 50.4 per cent above the prewar levels. It was shown that the growth of deciduous fruit shipments from California has been phenomenal, increasing from a total of 4411 carloads in 1896 to 86,795 carloads in 1925.

Since 1920 the prices received for California deciduous fruits in the eastern markets have steadily declined, following the readjustment of the economic conditions since the war. It was clearly evident from the testimony of the growers that the deciduous fruit industry was facing a severe depression, the transportation costs under the present rates consuming no less than 43 per cent of the total amounts received for fruits sent into the eastern consuming markets. The reduction of 13 cents per 100 pounds or $2.60 per ton to the eastern markets, where most of the fruit is delivered, will result in a reduction of approximately $35 per car. The minimum weight for deciduous fruits, except grapes, was continued at 26,000 pounds, and for grapes the minimum weight was increased to 30,000 pounds, but since the grapes can load 30,000 pounds without difficulty, the increasing of this minimum is of no detriment to the shipper but is of value to the carrier in securing heavier loads per car.

REFRIGERATION CHARGES.

A proceeding was instituted by the Pacific States Butter, Eggs, Cheese and Poultry Association alleging that the charges assessed by common carrier railroads between points in the State of California for the refrigeration of butter, eggs, cheese and dressed poultry were unjust, unreasonable and excessive to the extent that they exceeded the charges which would have accrued under the cost-of-ice basis. These shippers when forwarding the commodities within California have paid either $5, $7.50 or $8 per car, dependent upon the distance

moved; this charge in addition to what it may have cost to ice and salt the car. The Commission held that the surcharge of $5, $7.50 or $8 was excessive, unreasonable and discriminatory, and that the commodities referred to should have the same cost-of-ice basis as applied to fresh meats and packing-house products. This decision cancels entirely the surcharges mentioned above, and will mean a saving of many thousand dollars per year to the shippers.

The following tabulations, enumerated in two groups, set forth the formal rate decisions in applications and cases during the fiscal year ending June 30, 1927:

FORMAL APPLICATIONS.

No.		
13000	Western Pacific Railroad: Abandon station, Omira	Authorized
13031	Auto freight rates	Increases granted
13061	Readjust pickup charges	Authorized
13086	Readjust rates, etc., of steamship companies	Authorized
13101	Auto passenger fares	Authorized
13144	Adjust switching charges and redefine switching zones in Richmond	Authorized
13158	Rates on forest products, to cancel	Authorized
13160	Rates on bottles, to concel	Authorized
13176	Fairfax Incline Railway, to increase fares	Authorized in part
13199	To amend routing rules	Authorized
13248	Readjust joint rate via railroads	Authorized
13282	Certificate to operate trucks	Denied
13327	Auto freight rates, increases	Denied
13329	Auto passenger fares	Authorized
13332	To define commodity description of salt	Authorized
13430	Freight rates by water carriers, increases	Denied
13434	Auto passenger fares	Authorized
13435	Auto freight rates	Authorized
13451	Auto freight rates	Authorized
13463	Auto freight rates	Authorized
13475	Auto passenger fares	Fares readjusted
13479	Rules for dunnage allowance	Authorized
13499	Joint operation of railroads	Authorized
13503	To cancel rule for constructing combination rates on lumber	Authorized
13506	To cancel absorption of switching charges	Authorized
13523	To cancel water and rail rates	Authorized
13540	To cancel water and rail rates	Authorized
13542	To cancel water and rail rates	Authorized
13597	Auto freight rates	Rates readjusted
13711	Warehouse rates	Rates readjusted
13713	To cancel water carriers' tariff	Authorized
13767	Auto passenger fares	Authorized

FORMAL CASES.

Case No. 2167. *Guggenhime and Company* vs. *Sacramento Northern Railway Company.* Rate of 28½ cents per 100 pounds charged on nine carloads of dried fruit moved from Colusa to San Jose found to be unreasonable to the extent it exceeded a rate of 21½ cents. Reparation awarded.

Case No. 2192. *The Vitrefrax Company* vs. *Southern Pacific Company.* Complainant alleged the rate of 15½ cents per 100 pounds charged on two carloads of silica rock moved from Ogilby to Los Angeles was unreasonable to the extent it exceeded 10 cents per 100 pounds. We found that a rate of 12½ cents was reasonable and awarded reparation of all the charges colleced in excess of that rate.

Case No. 2196. *G. X. Wendling Company* vs. *Southern Pacific Company et al.* Complainant alleged the rates of 51½ cents and 50½ cents charged on six carloads of box shook shipped from Adelaide to Arvin were unreasonable to the extent they exceeded 43 cents per 100 pounds. The rate claimed was found reasonable and defendants were ordered to make reparation of all charges collected in excess of that rate.

Case No. 2212. *California Transit Company et al.* vs. *Yosemite Valley Railroad et al.* In this case complainants, consisting of seven corporations and copartnerships operating passenger automobiles, sought an order from the Commission directing defendants to join with complainants and establish joint passenger fares between practically all important communities in California on the one hand and Yosemite Valley on the other hand. The Commission found that the publication of joint fares in connection with the automobile companies was in the public interest and ordered through joint fares established. We also found that joint fares in connection with Yosemite Valley Railroad were not required.

Case.No. 2232. *San Francisco Milling Company* vs. *Southern Pacific Company et al.* In this case complainant alleged that failure of defendants to permit milling in transit of grain at its mill located in San Francisco when the outbound commodities moved through the piers for shipment by water carriers, was unreasonable and prejudicial. We found the rules assailed not unreasonable or prejudicial, and dismissed the complaint.

Case No. 2242. *Union Oil Company* vs. *Southern Pacific Company et al.* Rate of 43½ cents per 100 pounds charged on three carloads of gasoline shipped from Ora and Coalinga to Aurora found unreasonable to the extent it exceeded a rate of 41½ cents per 100 pounds. Reparation awarded.

Case No. 2246. *Southwest Onyx and Marble Company* vs. *The Atchison, Topeka and Santa Fe Railway Company et al.* Rates of 55 cents and 57½ cents charged on three carloads of rough marble blocks moved from Tuttletown to San Diego found unreasonable to the extent they exceeded 47 cents per 100 pounds. Reparation awarded.

Case No. 2248. *Cowell Portland Cement Company* vs. *Bay Point and Clayton Railroad Company et al.* Rate of 21½ cents per 100 pounds charged on three carloads of cement moved from Cowell to Las Plumas found unreasonable to the extent it exceeded the subsequently established rate of 19½ cents per 100 pounds. Reparation awarded.

Case No. 2251. *Swanston and Sons* vs. *Southern Pacific Company.* Rate of $51.50 per car on 19 carloads of cattle shipped from Merced to Swanston found unreasonable to the extent it exceeded a rate of $47.50 per car. Reparation awarded.

Case No. 2261. *Charles Harley Company* vs. *The Atchison, Topeka and Santa Fe Railway Company.* Rate of 44 cents per 100 pounds charged on two carloads of junk moved from Fresno to San Francisco found unreasonable to the extent it exceeded 35½ cents per 100 pounds. Reparation awarded.

Case No. 2268. *Swanston and Sons* vs. *Southern Pacific Company et al.* Rate charged for refrigeration on 34 carloads of fresh meat

shipped from Swanston to Los Angeles found unreasonable. The lawful charge of $25 per car was assessed and collected; this rate was subsequently reduced to $20 per car. Defendant ordered to make reparation in the sum of $170.

Case No. 2269. *Jacobs, Malcolm and Burtt* vs. *The Atchison, Topeka and Santa Fe Railway Company.* Rate of 47½ cents per 100 pounds charged on 81 carloads of citrus fruit moved from Riverside and other points in the Riverside district to San Francisco during the period of July 15, 1924, to May 15, 1926, found to be not unlawful or unreasonable. Complaint dismissed.

Case No. 2271. *Associated Oil Company* vs. *Southern Pacific Company.* Rate of 34½ cents per 100 pounds charged on seven carloads of soda ash moved from Cartago to Hapress found unreasonable to the extent it exceeded 28½ cents per 100 pounds. Reparation awarded.

Case No. 2281. *California Packing Corporation* vs. *Southern Pacific Company et al.* Rate of 22½ cents per 100 pounds charged on 10 carloads of box shook shipped from Loyalton and Calpine to Suisun-Fairfield during the period from December 4, 1924, to October 15, 1925, found unreasonable to the extent it exceeded 22 cents per 100 pounds. Reparation awarded.

Case No. 2287. *Associated Oil Company* vs. *Southern Pacific Company.* Rates charged on 62 carloads of structural steel moved from Los Angeles to Avon and Mococo found unreasonable to the extent they exceeded a rate of 25 cents per 100 pounds. Rate of 26½ cents was charged on 24 carloads and rate of 32 cents was charged on balance of shipments. Defendant was ordered to make reparation of all charges collected in excess of the rate found reasonable.

Case No. 2296. *Pan American Petroleum Company* vs. *Pacific Electric Railway Company.* Rates of 5½ cents and 5 cents per 100 pounds charged on 658 carloads of crude oil moved from Sentous to Watson found unreasonable to the extent they exceeded 4½ cents per 100 pounds. Reparation awarded.

Case No. 2298. *Associated Oil Company* vs. *Pacific Electric Railway Company.* Rate of 5 cents per 100 pounds charged on 581 carloads of crude oil moved from Sentous to Wilmington found unreasonable to the extent it exceeded 4½ cents per 100 pounds. Reparation awarded.

Case No. 2301. *Woods-Beekman Lumber Company* vs. *Pacific Electric Railway Company et al.* Rate of 40 cents per 100 pounds charged on one carload of magnesite stucco shipped from Porterville to Beverly Hills found unreasonable to the extent it exceeded rate of 29½ cents per 100 pounds. Reparation awarded.

Case No. 2305. *White Pine Products Company* vs. *Southern Pacific Company et al.* Switching charge of $2.70 per car collected in addition to the line haul rate on numerous carloads of box shook moved from Alameda to Antioch found discriminatory and the carrier receiving the line haul was ordered to refund the switching charges.

Case No. 2307. *Associated Oil Company* vs. *Southern Pacific Company.* Rate of 47 cents per 100 pounds charged on six carloads of gasoline and refined oil found unreasonable to the extent it exceeded 43 cents per 100 pounds. Reparation awarded.

Case No. 2310. *Haslett and Merguire Shook Supply Company* vs. *Southern Pacific Company et al.* Rate of 22½ cents per 100 pounds charged on seven carloads of box shook moved from Adelaide, Portola and Grays Flat to Suisun-Fairfield found unreasonable to the extent it exceeded a rate of 18½ cents per 100 pounds from Adelaide and 22 cents per 100 pounds from Grays Flat and Portola. Reparation awarded.

Case No. 2312. *Albers Bros. Milling Company* vs. *Southern Pacific Company et al.* Rate of 29 cents per 100 pounds charged for transportation of one carload of milo maize from Levee Spur to Palo Alto and rate of 13½ cents charged for transportation of one carload of alfalfa meal from Yarmouth to Palo Alto found not unjust or unreasonable. Complaint dismissed.

Case No. 2320. *West Coast Porcelain Manufacturers* vs. *The Atchison, Topeka and Santa Fe Railway Company.* Rate of 28½ cents per 100 pounds charged for transportation of clay in carloads from Alberhill to Millbrae found to have been unjustly discriminatory so far as it exceeded 25 cents per 100 pounds. Reparation awarded.

Case No. 2332. *E. H. Tryon* vs. *Sacramento Northern Railway et al.* Rate of 41 cents per 100 pounds charged on four carloads of wool moved from Colusa to Stockton found to have been unreasonable in so far as it exceeded 32 cents per 100 pounds. Reparation awarded.

Case No. 2337. *Pan American Petroleum Company* vs. *Pacific Electric Railway Company.* Upon the facts disclosed by the record it was held that defendant's rate of 7½ cents per 100 pounds on asphalt from El Segundo to Watson was unreasonable in so far as it exceeded 2½ cents per 100 pounds. Reparation awarded.

Case No. 2340. *Pan American Petroleum Company* vs. *Southern Pacific Company et al.* Rate of 21 cents per 100 pounds charged for transporting 46 carloads of crude oil from Casmalia to Watson found unreasonable in so far as it exceeded the subsequently established rate of 20½ cents per 100 pounds. Reparation awarded.

Case No. 2351. *Pan American Petroleum Company* vs. *Pacific Electric Railway Company.* Rate of 7 cents per 100 pounds charged on four carloads of scrap steel moved from Watson to Torrance during the period from Decemer 19, 1924, to February 24, 1925, found unreasonable and reparation awarded of all charges collected in excess of 3½ cents per 100 pounds.

Case No. 2362. *Pan American Petroleum Company* vs. *Pacific Electric Railway Company.* Rates of 7½ cents, 6 cents and 5 cents per 100 pounds charged for transporting 18 carloads of ground clay from Los Angeles to Watson found unreasonable. Defendant ordered to refund all charges collected in excess of 3½ cents per 100 pounds.

Case No. 2363. *Celite Products Company* vs. *Southern Pacific Company.* Rate of 60 cents per 100 pounds for the transportation of soda ash from Keeler and Cartago to Lompoc and White Hill, held to have been unreasonable in so far as it exceeded 36 cents, the rate subsequently established. Reparation awarded.

Case No. 2364. *Celite Products Company* vs. *Southern Pacific Company.* Rate of 55½ cents per 100 pounds for the transportation of 10 carloads of crude salts from Keeler to Lompoc and White Hill found

unreasonable to the extent it exceeded 27 cents per 100 pounds. Reparation awarded.

BRICK RATES.

The Western Pacific Railroad Company and the Southern Pacific Company published separate rates of 7½ cents per 100 pounds on brick, common, from Stockton to Marysville. The rates were published to become effective April 26, 1927; however, prior to that date the Sacramento Brick Company filed a protest and the Commission issued an order suspending the operation of said rates. It developed that the rate from Sacramento to Marysville was 7 cents, and from Stockton to Marysville 10½ cents. We found that the proposed rates were not justified and ordered the carriers to cancel the suspended schedules. The proposed rates exceeded the rates from Sacramento to Marysville by only one-half cent per 100 pounds, and the distance from Stockton to Marysville is approximately 200 per cent greater than that from Sacramento to the same point, therefore there was no justification for such a slight spread in the rates from the two producing points.

FOREST PRODUCTS.

In our previous annual report we recited the activities of the Rate Department in connection with several cases involving rates on lumber and forest products. During the past year we ordered the Southern Pacific Company to make reparation to E. K. Loosely, of Siskiyou County, on 268 carloads of logs moved from Morrison to Barnard. The defendant charged and collected $18.50 per car for a haul of 31 miles. We found that the reasonable rate for a haul of this distance was $12.50 per car and ordered the defendant to make reparation to the complainant of all charges collected in excess of the rate found reasonable.

GRAIN AND GRAIN PRODUCTS.

The Commission in Case No. 2125 made an exhaustive study of the rates on grain and grain products upon complaint filed by Albers Bros. Milling Company wherein an adjustment of rates to and from Oakland was sought.

The matter to be decided by the Commission was whether or not the rates published by the Southern Pacific Company from points in the San Joaquin and Sacramento valleys to Stockton, Sacramento, Port Costa, South Vallejo and Oakland unduly favored the first four points named, to the disadvantage of Oakland.

In the original proceeding decided March 3, 1926, it was found that certain specific changes should be made in the rates to Oakland from points on the Napa Branch and Vanden, Cannon and Elmira. It was found that the rates to Oakland from stations on the west side of the San Joaquin Valley, Lyoth and points south thereof, should not exceed the rates to Sacramento from the same points.

The case was reopened for further investigation and consideration upon request of both complainant and defendant. Nothing new in the way of evidence or testimony was submitted whereby the original decision pertaining to those rates should be amended; however, the Commission prescribed a complete line of rates on grain and articles

taking the same rates from numerous points in the San Joaquin Valley, also from points south of Bakersfield to and including Glendale to Oakland, Port Costa, South Vallejo and Sacramento.

With very few exceptions the rates prescribed by the Commission are the same to all four milling points.

In Case No. 2291 the Globe Grain and Milling Company attacked the rates and minimum weights on grain, flour, and grain products published by the water carriers operating between northern California ports and Los Aneles, San Pedro and San Diego, and also attacked the rule prescribing the minimum weights. The complainant made no effort to prove that the rates assailed were unreasonable, but contended that the minimum weights were not properly adjusted, especially the minimum weight of 100,000 pounds applicable on whole grain. After a thorough review of all the evidence we found the rates and minimum weights not unreasonable; furthermore, they compared favorably with the rates and minimum weights established by water carriers between other ports, and we concluded that they were not excessive or unreasonable. We found that the minimum weight rule was unreasonable and ambiguous and ordered defendants to publish a rule by eliminating the ambiguous features and a rule that would be acceptable to this Commission and the interested shippers.

GRAIN RATES—GENERAL INVESTIGATION.

Commissioner Brundige and Rate Expert Geary were sent to Kansas City to confer with commissioners from other states upon the methods of presenting the data concerning rates for grain and grain products, Docket No. 17000 (Part 7), before the Interstate Commerce Commission. This case involves a readjustment of rates on grain over the entire country and is of vital importance to the California producers and millers. This Commission has instituted on its own motion a proceeding calling into question all the grain rates between points within the State of California, for the purpose of making necessary adjustments in harmony with the Interstate Commerce Commission. The immense amount of data to be compiled will devolve upon the Rate Department and is now in course of preparation.

GAS OIL RATES.

During the past year the Commission disposed of a controversy of great importance involving rates on petroleum gas oil between points in southern California. A number of important oil companies filed a formal complaint alleging that the petroleum gas oil rates charged by The Atchison, Topeka and Santa Fe Railway Company, Los Angeles and Salt Lake Railroad Company and Southern Pacific Company were unreasonable to the extent they exceeded the contemporaneous rates on crude and fuel oil. After giving due consideration to all the circumstances and conditions pertaining to the transportation and the value of the commodity involved, the Commission decided that the rates charged were unjust and unreasonable to the extent they exceeded those applicable on petroleum crude and fuel oil and ordered the carriers to make reparation to the complainants of all charges assessed and collected in excess of the rates found reasonable.

THE SAN FRANCISCO SWITCHING CASE.

This case involved an order of the Commission requiring the removal of discrimination and payment of reparation by The Atchison, Topeka and Santa Fe Railway Company and the Southern Pacific Company of switching charges on numerous carloads of rock and gravel moved from Eliot to wharves in the China Basin district of San Francisco.

It was shown that the defendants absorbed bridge switching charges of $6.20 per car on shipments from Niles and Livermore to San Francisco wharves, but refused to absorb similar charges on shipments from Eliot, although that point was intermediate to Livermore. The decision of the Commission enabled the complainant to recover approximately $4,400.

FERRY RATES.

Extensive investigation and study of the rates and service of the various ferry lines is being carried on for the information of the Commission and this work has been especially valuable during the past year, particularly in connection with service to and from Alameda, between San Francisco and Richmond, and auto ferry rates between Benicia and Martinez and on the Northwestern Pacific between Sausalito and San Francisco.

STREET RAILWAY AND MOTOR COACH FARES.

The Pacific Electric Railway was authorized by this Commission to make certain adjustments in the fares within the city of Pasadena, from Pasadena to Altadena and to the Country Club district. The city of Pasadena contended that since these lines were operated under contract with the city, pursuant to a franchise which it had granted to the Pacific Electric, this Commission had no jurisdiction or authority to permit the railway company to adjust the fares for this service. The case was appealed by the city of Pasadena to the Supreme Court of California, and this Commission in its arguments before the court pointed out that the lines extended beyond the city limits and contended that therefore it was vested with authority under the Public Utilities Act to regulate fares over all lines involved in the proceeding. The Commission's position was sustained by the Supreme Court's decision.

STEAMSHIP RATES.

During August, 1926, the Los Angeles Steamship Company, McCormick Steamship Company, Nelson Steamship Company, Pacific Steamship Company and the White Flyer Line filed an application with the Commission requesting authority to adjust freight rates between San Francisco, Oakland, Berkeley and Alameda on the one hand, and on the other San Pedro, Wilmington, Long Beach and Los Angeles, to the basis of rates in effect prior to November 2, 1925. The applicants alleged that the rates were adjusted in order to meet the lower rates established by the Los Angeles Dispatch Line; that they had anticipated increased tonnage and revenue as the result of the lower rates established, but instead of an increase there was a decrease, and it was shown that for the first five months of the year 1926 the loss in revenue suffered by the Los Angeles Steamship Company was $14,707.50,

McCormick Steamship Company $17,066.77, Pacific Steamship Company $169,728.28 and White Flyer Line $9,516.11.

The Los Angeles Dispatch Line began operations in 1925 and showed an operating loss in excess of $65,000 before it discontinued operations in the early part of the year 1926. The application was granted, with the stipulation that the proceeding would be reopened if the new schedules of rates were shown to be unreasonable or discriminatory.

RECONSIGNMENT CHARGE.

In Case No. 2311 the complainant alleged that the charges assessed and collected on one carload of mill feed from Oakland to Caruthers were unjust and unreasonable. The evidence showed that the car was shipped from Oakland to Caruthers, was refused by the consignee and reshipped to Fresno. Combination rates made to and from Caruthers plus a reconsignment charge of $5.85 were assessed. We found the reconsignment charge not justified and ordered defendant to make reparation.

CHAPTER VII.

AUTO STAGE AND TRUCK DEPARTMENT.

Giving recognition to the rapid development of public automobile transportation in California, that is, common carrier automobile passenger transportation between fixed points or over a regular route, the California legislature of 1927 ranked the ever-growing industry as a public utility and gave to the Railroad Commission added power to regulate this type of transportation.

Regulated since 1917 by the Railroad Commission under authority of what is generally described as the Auto Stage and Truck Transportation Act (chapter 213), after July 29, 1927, the full power of California's Public Utility Act (under which all common carriers and other utilities operating within the borders of the state are regulated), will be spread over every "passenger stage corporation" operating between fixed points or over a regular route as a common carrier, or, to use the language of chapter 42, Statutes 1927 (Section $2\frac{1}{4}$ (a)), of the Public Utilities Act:

> "* * * every stage, auto stage or other motor vehicle used in the transportation of persons, or persons and their baggage or express, or persons or baggage or express, when such baggage or express is transportated incidental to the transportation of passengers."

SIGHT-SEEING BUSSES.

By another section added to the Public Utilities Act, number $50\frac{1}{4}$ (chapter 42, Statutes 1927), the Commission is also given jurisdiction over sight-seeing busses, which, under the provisions of the Auto Stage and Truck Transportation Act, were exempted from the necessity of obtaining a certificate of public convenience and necessity from the Railroad Commission. Section $50\frac{1}{4}$ reads, in part, as follows:

> "No passenger stage corporation shall hereafter operate or cause to be operated any passenger stage over any public highway in this state without first having obtained from the Railroad Commission a certificate declaring that public convenience and necessity require such operation, but no such certificate shall be required of any passenger stage corporation as to the fixed termini between which, or the route over which, it is actually operating in good faith at the time this act becomes effective in compliance with the provisions of an act known as chapter 213, Statutes of 1917, of the State of California, approved May 10, 1917, and amendments thereto, nor shall any such certificate be required of any person or corporation who, on January 1, 1927, was operating, or during the calendar year 1926 had operated, a seasonal service of not less than three consecutive months duration, sight-seeing busses on a continuous sight-seeing trip with one terminus only."

The words "between fixed termini or over a regular route," are declared to mean:

> "* * * the termini or route between or over which any passenger stage corporation usually or ordinarily operates any passenger stage, even though there may be departures from said termini or route, or such departures be periodic or irregular."

The term "common carrier," according to paragraph D of section $2\frac{1}{4}$,

> "* * * shall include every 'passenger stage corporation,' their lessees, trustees, receivers or trustees appointed by any court whatsoever, operating within this state."

Thus by chapter 42, Statutes 1927, all motor passenger stage operations are placed under the Public Utilities Act, and such operations are no longer subject to regulation under the Auto Stage and Truck Transportation Act of 1927, as amended, chapter 213, Statutes 1917.

ADDED REGULATORY POWER.

Further power in the matter of regulation of public highway transportation of passengers is granted the Commission through the addition of the following language to the Public Utilities Act (section $50\frac{1}{4}$):

> "When a complaint has been filed with the Commission alleging that any passenger stage is being operated without a certificate of public convenience and necessity, contrary to or in violation of the provisions of this act, the Commission shall have the power, with or without notice, to make its order requiring the corporation, or person, their lessees, trustees, receivers or trustees appointed by any court whatsoever, operating or managing such passenger stage, to cease and desist from such operation, until the commission makes and files its decision on said complaint, or until further order of the commission.
>
> "Whether or not any stage, auto stage, or other motor vehicle is being, or is proposed to be operated as a passenger stage corporation 'between fixed termini or over a regular route,' within the meaning of this act shall be a question of fact, and the finding of the Railroad Commission thereon shall be final and shall not be subject to review. Any act of transporting or attempting to transport any person or persons by stage, auto stage, or other motor vehicle upon a public highway of this state between two or more points not both within the limits of a single incorporated city, town, or city and county, where the rate, charge or fare for such transportation is computed, collected or demanded on an individual fare basis, shall be presumed to be an act of operating as a passenger stage corporation within the meaning of this act."

OPERATION OF BUSSES BY STREET RAILROADS.

By the enactment of chapter 130, Statutes 1927, section 2 of the Public Utilities Act was further amended. The change effected in section 2 is to be found in subdivision (*h*) thereof, wherein the term "street railroad corporation" is defined. The term is redefined to include those corporations "owning, controlling, operating or managing as a part of, or in conjunction with, such street railroad, any automobile, jitney bus, stage or auto stage used in the business of transportation of persons or property for compensation over any public highway in this state between fixed termini or over a regular route." By this change in the law the Commission is now vested with complete jurisdiction over bus operations when conducted by street railroad corporations.

REGULATION OF TRUCK LINES.

Although by virtue of the enactment of chapter 42, Statutes 1927, passenger stage operations were withdrawn from regulation under the Auto Stage and Truck Transportation Act and placed under the Public Utilities Act, the regulation of motor truck operations continues to be governed by the Auto Stage and Truck Transportation Act of 1917, as amended. This act, however, was amended in four respects by the enactment of chapters 28, 37, 38, and 64, Statutes 1927.

By the enactment of chapter 64, Statutes 1927, section 5 of the Auto Stage and Truck Transportation Act was amended and two changes therein effected. In the first place it provides that no certificate of

public convenience and necessity granted under said act may be granted to a foreign corporation. This change was designed to make regulation more effective, particularly with reference to security issues of motor truck transportation companies. The prohibition thus enacted is in conformity with, and consistent with, the prohibition found in section 26 of the Public Utilities Act. Under that provision of law, no foreign corporation, subject to certain exceptions, is permitted to transact within this state any public utility business. The second change in section 5 of the Auto Stage and Truck Transportation Act effected by the enactment of chapter 64 is with reference to fees to be paid to the Commission upon the filing of applications made under the act. The new law provides that a fee of $50 must be paid upon the filing of every application for a certificate of public convenience and necessity, whereas, under the old law a fee in said amount was payable to the Commission upon the filing of each application for an order authorizing the sale, lease, assignment or transfer of an existing operating right, privilege or franchise, as well as upon the filing of each application for a certificate of public convenience and necessity. Experience had shown that the $50 filing fee requirement was unreasonable in so far as it applied to applications other than those asking for certificates of public convenience and necessity.

AUTHORITY TO MORTGAGE.

Under chapter 28, Statutes 1927, section 6 of the Auto Stage and Truck Transportation Act is amended to provide that no transportation company shall execute any mortgage or other lien on any of its property to secure the payment of any bond or any note or other evidence of indebtedness payable at a period of more than twelve months after the date thereof. No other change was made in section 6 of said act.

By the enactment of chapter 27, Statutes 1927, a new section known as "section 6 (*c*)," was added to the Auto Stage and Truck Transportation Act. This new section provides that:

> "No transportation company shall henceforth assume any obligation, or liability, as guarantor, endorser, surety or otherwise in respect of the securities of any other person, firm or corporation when such securities are payable at periods of more than twelve months after the date thereof, without having first secured from the Railroad Commission an order authorizing it so to do. Every such assumption made other than in accordance with the order of the Railroad Commission authorizing the same shall be void."

This section is the same in substance as section 52½ of the Public Utilities Act, enacted in 1925, containing an inhibition against public utilities subject to regulation under that act assuming like obligations without authority being first obtained from the Railroad Commission.

MAY AWARD REPARATIONS.

By the enactment of chapter 38, Statutes 1927, a new section, section 7½, was added to the Auto Stage and Truck Transportation Act. This provision confers upon the Railroad Commission authority to award reparation against any transportation company that has charged a shipper an unreasonable, excessive or discriminatory rate. The provisions of this section in substance are similar to the provisions of section 71 of the Public Utilities Act conferring upon the Commission

authority to award reparation against public utilities, subject to regulation under that act, charging unreasonable, excessive or discriminatory rates.

Through this most recent legislative action, the only public carriers of passengers at this time exempted from the necessity of securing a certificate of public convenience and necessity from the Railroad Commission, are those whose operations are confined to territory entirely within the limits of a single municipality, and operators of busses engaged solely in transporting pupils from their homes to a bona fide institution of learning.

FILING FEES ARE REFUNDED.

By the enactment of chapter 297, Statutes 1927, the legislature appropriated $25,050 to enable the Commission to refund 501 filing fees of $50 each, which had been paid to the Commission upon the filing of certain applications. The applications referred to were those which had been dismissed by the Commission for want of jurisdiction upon authority of either the "Ben Moore" decision (No. 15818), or the United States Supreme Court decision in *Frost and Frost* vs. *Railroad Commission*, 271 U. S. 583; 70 L. ed. 1101. The Commission was of the opinion that the applicants, whose applications had been dismissed under the above mentioned decisions, were equitably entitled to the return of their filing fees in view of the fact that they had acted in good faith in filing their applications and were under a misapprehension as to the certificating jurisdiction of the Commission.

All these measures received the approval of the Railroad Commission, which, out of its experience, gained through regulation of Auto Stages and Trucks since the passage of chapter 213 (the Auto Stage and Truck Transportation Act), in 1917, was enabled, in the presentation of the various measures, to give to the legislative body a full measure of advice in the matter of changes in the laws required to meet conditions resulting from the great and rapid development in California of public highway transportation. It should be stated, however, that much of the new legislation affecting auto stages was prompted by the carriers themselves, practically all of whom, after an experience of ten years, saw the wisdom of not lessening the regulatory power of the Commission, but the need for further authority for the regulatory body.

"COMMITTEE OF TWENTY-ONE" REPORT.

Action by the Commission in the framing of legislation was largely due to the failure of the "Committee of Twenty-One," a committee named as a result of a conference of truck and stage operators, shippers and producers called by the Railroad Commission in an effort to develop, through an intensive study by those most deeply interested in the highway transportation problem of California, a comprehensive program embracing such changes in existing laws, by legislative action, as such a study would find to be necessary in the interest of sound and efficient regulation.

The conference was held in San Francisco on December 12, 1925. The Commission's call, which followed the then recent decision of the California Supreme Court (197 Cal. 230-240 Pacific 26), sustaining

the Commission in its assumption of jurisdiction over so-called "contract carriers," said:

> "During the last session of the state legislature, many bills were introduced to amend and clarify the Auto Stage and Truck Transportation Act, most of which, together with many other proposed measures, were submitted by their proponents to this Commission for criticism and support.
>
> "The Commission at that time announced its continued determination not to attempt in any way to influence legislative policy regarding the regulation of this form of transportation, but merely to help in all ways within its capacity to clarify and render practical the operations of the law as determined by the legislature. In furtherance of this, it suggested that all measures be dropped for the time being with the understanding that the Commission would call together all interested parties to make a thorough study of the situation for comprehensive and unified recommendations to the next legislature.
>
> "Because of certain important cases pending in the Supreme Court, the calling of this conference has been delayed until now. Decisions recently rendered in these cases, it is believed, will simplify the work to be undertaken."

The meeting, or conference, was attended by more than 400 persons, representing stage and truck operators, shippers, producers and others interested in highway transportation. A resolution was passed unanimously providing for the establishment of two committees, one to consist of 21 members, representative of every type of auto carrier, both trucks and stages, also shippers and producers; the other to consist of five members, one from each group. The smaller committee, which was promptly named by the Railroad Commission, and on which was a representative of the Commission, was to act in an advisory capacity.

REPORT OF ADVISORY COMMITTEE.

Under date of January 25, 1927, the Committee of Five made its report to the Railroad Commission. After a brief recital of its organization and that of the Committee of 21, the report says:

"The Committee of Twenty-one held nine meetings during the year, six at San Francisco and three at Los Angeles.

"At the last meeting of the Committee of Twenty-one, held at San Francisco on December 17, 1926, the final action of said Committee was recorded by the passage of the following motion:

> "That this Committee of Twenty-one report to the Committee of Five as follows:
>
> "That the Committee of Twenty-one, having been unable to agree upon a unanimous report, hereby submits to the Committee of Five a transcript of the proceedings of the Committee of Twenty-one as the result of its deliberations and suggestions for the amendments to chapter 213, Laws of 1917, as amended, for the guidance of the Committee of Five in compiling its report."

"The Committee of Five, after a study and review of the transcripts setting forth the activities of the Committee of Twenty-one, and in view of the inability of said committee to suggest concretely or to recommend matters which should form the basis for constructive legislation, is of the opinion that the existing statute (chapter 213, Laws of 1917, and effective amendments), should be clarified to cover the operation of transportation companies operating in the carriage of persons and property as common carriers and to make such recommendations for the elimination of certain portions of the existing enactment which may have been declared unconstitutional or which refer to regulation of transportation companies other than common carriers. Your committee also recommends the enactment of amendments which have

the approval of the legal department of the Railroad Commission and covering matters which experience has indicated should properly be made portions of the statutory law.

"We, therefore, unanimously recommend the following changes in the present statutory enactment:

(Here follows recommendations suggesting amendments to the Auto Stage and Truck Transportation Act covering fee elimination, reparations, security issues and the other changes as described in preceding pages.)

CONDITIONS ARE CHANGED.

"Your committee, in presenting this report and recommendations, directs attention to the fact that the situation as regards regulation has greatly changed since the appointment of the Advisory Committee of Five, largely by reason of precedential court and commission decisions. The United States Supreme Court decision in the 'Frost and Frost' case, particularly, having limited the right of the legislature to enact any statute which would infringe—whether under the guise of police power of the state, or otherwise—upon the constitutional right of contract. This condition was considered desirable by the public representatives of the Committee of Twenty-one, such members being fully satisfied with existing conditions as established by the court decision. It would be an idle act for this committee to recommend any change in the status of contract carriers, or to propose any legislation regarding their regulation. If such were proposed or enacted, it would immediately be the subject of legal attack. Your committee's proposed restatement of section 1 of the act as to the definition of a 'transportation company,' confines same solely to common carriers, and eliminates any reference to other classes of carriers over which, obviously, jurisdiction is denied under the United States Supreme Court decision.

"Representatives of the passenger stage industry have tentatively suggested that the regulation of such class of carriers be provided for by placing them under the Public Utilities Act, it being their belief that the passenger business has reached a degree of stability justifying such action, and that the matter of regulation would thereby be made more certain and effective than by the existing statute. Your committee makes no definite recommendation regarding the suggestion for the reason that the matter of regulation of both carriers of passengers and property was before it for consideration and that special legislation, if desired, is properly a matter to be handled directly by the passenger carriers interested."

The report is signed by W. J. Handford, a representative of the Railroad Commission; W. E. Travis, president, Motor Carriers Association; J. J. Deuel, representing California Farm Bureau Federation and Shippers Association; W. S. Hamilton, representing California Truck Owners Association; and Fred A. Russell, representing California Interurban Motor Freight Association.

ALL CLASSES REPRESENTED.

Showing the wide range of activities represented on the Committee of Twenty-one, and how full and comprehensive was the Commission's effort to establish regulatory practices based on sound knowledge of

the requirements and needs of every feature of the state's development, there is listed immediately following this paragraph the personnel of the Committee of Twenty-one:

Representing shippers and the public:

D. K. Grady, secretary, Dried Fruit Association of California, 1 Drumm street, San Francisco;
R. H. Taylor, secretary, Agricultural Legislative Council, 603 Plaza Building, Sacramento;
Sam H. Green, California Dairy Council, 216 Pine street, San Francisco;
Fred W. Reed, California Fruit Exchange, Sacramento;
R. N. Wilson, California Development Association, Ferry Building, San Francisco;
Felix Landis, San Diego Farm Bureau and San Diego Chamber of Commerce, Chamber of Commerce Building, San Diego;
Preston W. McKinney, vice president, California Canners League, 112 Market street, San Francisco.

Representing automobile passenger carriers:

Arthur E. Samish, secretary, Motor Carriers Association, Flood Building, San Francisco;
Earl A. Bagby, secretary, California Transit Company, 1919 Market street, Oakland;
W. H. Pearson, president, Peninsula Rapid Transit Company, Burlingame;
F. D. Howell, vice president, Motor Transit Company, Market street, Los Angeles;
Charles F. Wren, president, Pickwick Stages System, East Seventh street, Los Angeles;
Joseph Held, president, Peerless Stages, Inc., 11th and Clay streets, Oakland;
T. E. Morgan, president, United Stages, Inc., 411 Stanford avenue, Los Angeles.

Representing automobile freight carriers:

E. H. Hart, secretary, Alameda County Draymen's Association, Oakland;
Rex Boston, secretary, Los Angeles Truck Owners Association, Los Angeles;
J. F. Vizzard, secretary, California Truck Owners Association, Call Building, San Francisco;
Bob Zimmerman, care City Transfer and Storage Company, 140 Pacific avenue, Long Beach;
Phil Jacobsen, secretary, Franchise Motor Carriers Association, 443 South San Pedro street, Los Angeles;
C. S. McLenegan, care Pioneer-Gibson Express, 875 Folsom street, San Francisco;
Edw. S. Stanley, care Star Truck and Warehouse Company, 1817 Industrial street, Los Angeles.

As may be seen by perusal of the opening pages of this report, all the changes and additions to the existing laws proposed by the Committee of Five, were approved by the legislature of 1927, as was also the proposal of the carriers (passenger), that their operations be classed as those of a public utility.

MORE THAN 600 CARRIERS.

The records of the Railroad Commission show that on July 1, 1927, there were 620 auto stage and truck lines operating in California under the jurisdiction of the Commission. Of this number, 86 are solely engaged in the business of transporting persons. There are 224 lines carrying passengers and property, and 310 transport only property. Of the 310 property or freight carriers, 120 are haulers designated as "special carriers," that is, carriers limited to the transportation of specified commodities, such as household goods, flour, eggs and poultry supplies, milk and cream, farm produce, films, theatrical scenery and

stage necessities, fruit and vegetables, cement, lumber, newsprint paper, cotton and other commodities, the movement of which is sufficiently large in quantity to justify special equipment and service.

On July 1, 1926, there were 655 auto stage and truck lines operating under the Commission's jurisdiction, that is, giving service within the purview of the Auto Stage and Truck Transportation Act. The reduction in number is due to the revocation by the Commission of a large number of certificates or operating rights covering passenger and property transportation service abandoned by persons holding mail carrying contracts who, on June 30, 1926, abandoned the business of transporting persons and property when, on that date, their mail carrying contracts with the United States government expired. Their successors as mail carriers, in a number of instances, did not apply for authority to continue the service of common carriage of persons and other property than the mail. The number of certificates revoked totaled 63. Several carriers withdrew their tariffs and time schedules, the withdrawals coming from operators who were operating under a prescriptive right, a right established by the filing of tariffs showing service started prior to May 1, 1917.

ENLARGE SERVICE AREA.

The Auto Stage and Truck Transportation Act, when passed in 1917, provided that persons operating prior to May 1, 1917, were not required to obtain a certificate of public convenience and necessity from the Railroad Commission. The reduction in the number of carriers may further be accounted for by the continued enlargement, through the purchase of the small lines operating in contiguous territory, by the larger companies whose program of enlargement of their service area has been steadily continued over a period of several years. As an instance may be cited the case of the West Coast Transit Company, a corporation, which acquired, by purchase, 12 small lines operating out of and in the vicinity of Eureka. In turn Pickwick Stages System, which operates from the Mexican border to the Oregon line in California, acquired West Coast Transit. Pickwick also acquired the properties of United Stages, which operated between Los Angeles and Imperial Valley points, also the rights of Shasta Transit Company between Sacramento and Redding. California Transit Company, which operates between San Francisco and Los Angeles, as well as between San Jose and Stockton and Oakland and Sacramento and San Francisco and Yosemite National Park borders, acquired the operating rights of Motor Transit Company between Bakersfield and Los Angeles and the rights of R. R. Young between Stockton and Yosemite Park. Yosemite Park and Curry Company acquired the rights of several companies operating in territory contiguous to the park out of Fresno, Merced and Mariposa. These purchases did not occur in the period covered by this report, but they are cited as changes in highway transportation, indicating development of large stage line operations under highly organized units. Such development is greatly to the interest of the traveling public as it means better service, better equipment and better and more intelligent understanding of the demands of the people who have elected to do their traveling via the highway rather than the rails.

COMPLAINTS COMPARATIVELY FEW.

That this better understanding is reflected in the service given by the auto carriers is indicated by a digest of the informal complaints filed with the Commission involving public highway operations. During the period covered by this report 251 informal complaints, involving transportation by auto, were filed with the Commission, an astonishingly low number considering the amount of traffic concerned. Of these complaints, which are made by personal call at the office of the Commission, by telephone or by letter (hence the title "informal"), 52 reflected on service, 46 involved rates and 7 were claims for refunds. Eighteen were based on loss and damage claims, one complained of dangerous operation and three complained of faulty C. O. D. collection methods. By far the largest number, 68, charged illegal competition and were directed against carriers not operating under authority of the Commission. It may be said for the authorized lines that they readily cooperated with the Commission to bring about a satisfactory adjustment of the complaints.

FIGURES ARE INTERESTING.

The following statistics abstracted from the annual reports of carriers operating under the authority of the California Railroad Commission, which reports cover the calendar year ending December 31, 1926, indicate the investment and performance of such certificated carriers for that year:

Investment of Class "A" carriers (revenues exceeding $20,000 per annum).

Plant and equipment	$19,552,613 60
Other property	3,980,976 17
Materials and supplies	782,130 53
Total	$24,315,720 30
Investment, small carriers—	
Plant and equipment	$2,396,857 57
Other property	282,348 50
Materials and supplies	42,085 38
Total	$2,721,291 45
Total investment (all carriers)—	
Class "A" carriers	$24,315,720 30
Small carriers	2,721,291 45
Total	$27,037,011 75
Passengers carried (all lines)	24,319,697
Tons of freight carried (all lines)	1,231,176
Passenger revenue (all lines)	$10,419,032 06
Freight revenue (all lines)	8,903,351 99
Total passenger and freight revenue (all lines)	$19,322,384 05
Revenue from other sources	3,129,262 70
Total revenue (from all lines reporting)	$22,451,646 75
Total expenses (from all lines reporting)	$21,341,415 88

NUMBER OF PASSENGERS CARRIED.

A more detailed study of the reports filed with the Commission by the carriers operating under the authority of the Commission reveals some interesting figures. In 1922 the reports filed with the Commission showed that auto stages had transported 21,221,928 persons. In 1923 the number of passengers carried totaled 29,202,073. Undoubtedly part of this great gain was due to the fact that the number of companies reporting in 1923 greatly exceeded the number reporting in 1922, and that the records kept by the carriers were maintained in better shape. At any rate it would appear that the gain in passenger traffic shown by the reports of 1924, a gain of close to half a million (460,835), and the reports of 1925 are more truly indicative of the real yearly growth of public auto stage service than the very great increase shown in 1923. The figures compiled for 1925 show a gain of 871,632 in the number of passengers carried over the number transported in 1924. The 1926 reports show 24,319,697 passengers carried. The great disparity between the number of passengers carried in 1925 and the number reported in 1926 is accounted for by the exclusion from the 1926 report of 9,656,324 passengers transported by the B. & H. Transportation Company of Long Beach. This company is no longer operating under the jurisdiction of the Railroad Commission, the city of Long Beach having annexed the territory which the company was serving under certificates of public convenience and necessity granted by the Commission. As a result of the annexation proceedings the B. & H. bus operations became a service "entirely within the confines of a single municipality," a service for which a certificate is not necessary and, therefore, not a service within the jurisdiction of the Railroad Commission.

MORE THAN 1,000,000 TONS FREIGHT.

The reports covering the amount of freight transported by authorized lines reporting to the Commission should be analyzed in a similar manner. Reports for 1922 and 1923 were most incomplete, few carriers keeping what could be accepted as accurate records. In 1924 auto truckmen reported that they had transported 899,373 tons of freight. The reports of 1925 show 1,174,814 tons of freight transported by authorized carriers. The reports for 1926 show 1,231,176 tons carried.

The 1925 equipment reports of the Class "A" companies show 1202 passenger cars, 1280 trucks and 584 other vehicles, the latter being principally trailers. The Class "B" companies in 1925 used 412 passenger cars, 496 trucks and 44 other vehicles, a total of 4018 pieces of equipment regularly devoted to the business of transporting persons and property over the highways, as public carriers. The 1926 reports show a total of 1655 passenger cars in use, 2055 trucks and 821 pieces of "other equipment." These figures do not include leased equipment. A large percentage of the auto stage and truck operators, at time of peak demands, lease equipment to enable them to take care of the traffic. This practice is approved by the Commission, which prescribes the form of lease. It may be said that, including the leased cars, approximately 4500 cars, trucks and trailers are required to meet the demands of travelers and shippers who use the authorized public highway transportation service.

SOURCES OF REVENUE.

The net operating revenue of all auto stage and truck lines reporting to the Commission in 1925 totaled $1,383,460.82, as compared with $810,635.46 in 1924, a gain of $572,825.36. The net revenue for 1926 totaled $1,110,230.89.

The sources of revenue of the auto stage and truck lines, the reports show, with the amount collected under each account, are as follows:

Source of revenue	*"A" companies*	*"B" companies*
Passengers	$9,783,113 34	$635,918 72
Freight	7,488,348 79	1,415,003 20
Mail	231,544 08	253,309 70
Express	1,217,066 31	141,396 98
Miscellaneous	1,069,415 84	216,529 79
Totals	$19,789,488 36	$2,662,158 39

Among the principal items of expense reported by the auto stage and truck operators is gasoline. In 1924 the large companies paid gasoline bills totaling $1,295,816.02. In 1925 they expended $1,448,099.45 for gas. The gasoline bills of smaller companies in 1924 totaled $365,053.06. In 1925 the small companies paid $290,625.35 for gas and oils. In 1926 the "A" companies paid $1,682,852.17 for gas and the "B" companies $326,231.12 for gas and oils. Taxes are another important item. In 1925 "A" companies paid a grand total of $581,535.28 in taxes. In 1926 they paid $580,519.96. "B" companies in 1925 paid taxes amounting to $33,044.92. In 1926 the small companies paid $59,207.98. All told the tax and license collections from the auto stages and trucks whose activities are subject to the jurisdiction of the Railroad Commission amounted to $643,470.10 in 1925. The grand total in 1926 was $639,727.94.

STATISTICS SHOW EXTENT OF TASK.

The report of the Commission's docket clerk for the fiscal year 1926–27 best indicates, from a statistical standpoint, the extent of the Commission's task in regulating auto stages and trucks. Of the total of 906 formal applications filed with the Commission from July 1, 1926, to June 30, 1927, there were 246 involving auto stages and trucks. Of these 103 were applications for certificates of public convenience and necessity, 19 were for security issue authorizations and 89 requests for authority to lease or transfer operating rights. There were 9 applications to increase rates and 6 were for authority to establish rules and rates. Six of the applications asked for authority to abandon or reduce service, one asked for an order approving an agreement and 3 dealt with miscellaneous matters.

Of the 130 formal complaints filed with the Commission, 17 involved auto stages and trucks. Of the decisions signed by the Commission 587, or 38.22 per cent of the total were on auto stage and truck matters. Throughout the year 293 hearings on auto stage and truck matters were held.

CHAPTER VIII.

ENGINEERING DEPARTMENT.

While the primary duty of the Engineering Department is to furnish the Commission with advice on engineering matters and to produce necessary facts and figures, such as appraisals and estimates of operating expenses, as a matter of practical administration, its duties include a large amount of the detail of the administration of the Commission's orders and policies. It is frequently found that minor complaints may be easily and satisfactorily adjusted by a tactful engineer during the course of an investigation. In this manner it is possible for the Engineering Department, under proper guidance, to relieve the Commission itself from considerable detail involved in carrying out the provisions of orders, and in the adjustment of differences that come up between utilities and their patrons.

The work of the Engineering Department naturally falls into five subdivisions, according to its character, and the services rendered by the various utility companies.

The Gas and Electric Division, with a staff of approximately ten engineers and clerks, handles matters relating to gas and electric utilities, and the service of steam heat, oil pipe line companies and the inspection of overhead electric lines owned by all utility companies.

The Telephone and Telegraph Division, with a staff of approximately seven, covers the field indicated by its title, and in addition handles matters involving inductive interference between power and signal circuits, and investigates complaints of interference with radio reception by the operations of public utility systems.

The Transportation Division, with a staff of approximately ten, handles the investigation of grade crossing protection and accidents, inspection of steam and electric railway service and accidents, and in addition obtains necessary engineering information in connection with the applications of such companies for changes in fares, abandonment of lines, stations, and the like.

The Hydraulic Division, with a staff of approximately ten, handles all phases of contact between the Engineering Department of the Commission and water service companies. It also passes upon the design of dams built by public utility companies of any character, and makes necessary inspections of foundations and construction, as required by the Commission's General Order No. 50.

The Valuation Division, with the cooperation of other divisions involved, handles the detail and mechanical work of making such appraisals of property as may be called for. The amount of such work varies within wide limits, according to the size and character of valuations that may be needed from time to time. The nucleus of approximately ten men maintained in this division is expanded by the employment of temporary assistance as occasion may require, the total number having at times exceeded fifty.

In addition to this organization of engineers and specialists, a staff of approximately ten clerks and stenographers is maintained to handle

the stenographic and administrative work connected with the Engineering Department.

THE YEAR'S WORK.

The work of the Engineering Department, during the fiscal year, is covered in some detail in the reports of the various divisions concerned, but a few outstanding points are of interest.

Attention is particularly directed to the reference in the report of the Gas and Electric Division to the waste of natural gas in southern California. The contact of the Commission with this situation comes primarily through its regulation of the gas companies engaged in the distribution of natural gas to domestic, commercial and industrial consumers, but such contact results in acquainting the Commission with the uneconomic uses of oil, and the wastefulness of unnecessary drilling. That such practices are, to a greater or less extent, forced on the oil companies by conditions beyond their control, may be urged as an excuse, but is by no means a justification of the present serious waste of a most valuable natural resource. The opinion has been expressed by those in contact with the problem that regulation should go to the drilling of oil wells rather than to the operation of such wells after completion and apparently the adequate control of this situation is beyond the scope of existing laws as well as outside of the jurisdiction of the Railroad Commission.

During the last fiscal year, the Commission has, with the cooperation of the public utility companies involved, appointed a gas administrator who will have headquarters in Los Angeles. His duty will be to exercise necessary supervision over the operations of gas distributing companies to insure that domestic and commercial consumers get the fullest possible benefit of the supply of gas available to them, and by proper distribution of natural gas between such companies, to prevent unnecessary manufacture of oil gas. The necessity of such supervision is principally due to the extreme variation in the consumption of gas by domestic consumers, and the sudden demands for additional gas made by such consumers during cold weather.

Another matter of interest running through the reports of the various divisions is the reflection of the national tendency towards the consolidation of utility properties. Both the Hydraulic and the Gas and Electric Divisions report purchases of a number of smaller properties by large companies. From the standpoint of the consumer, such changes are usually of immediate benefit, because they make available to the consumers, depending on the smaller systems, the financial backing and the higher grade of management and engineering that go with large concerns. To the extent that such consolidations place the ownership of local properties in the hands of financiers, who have no other interest in the service or growth of the community, they involve problems of regulation.

The report of the Transportation Division indicates that nearly every street railway company within the state is applying for permission to charge higher fares. More important than the burden that this situation places upon the shoulders of the Commission and its staff, is the community problem of which it is a reflection. Many of the street

railroads in question have already received permission to increase their rates of fare, and some of them are applying for further increases in the hope of meeting operating expenses and paying interest upon money needed for necessary extensions without any serious expectation of being able to earn even savings bank interest upon the investment already made. In many of the towns and smaller cities it is quite possible that street railway transportation will be superseded by private automobiles and busses without inconvenience to the public, but the question of local transportation for great numbers of people in the larger cities in the state gives promise of becoming serious if the present trend of conditions continues.

The report of the Telephone and Telegraph Division refers to one of the most important proceedings coming before the Railroad Commission in several years, the application of The Pacific Telephone and Telegraph Company for increased rates in San Francisco, Oakland and other municipalities of the San Francisco Bay community. A similar application involving telephone rates and service in the Los Angeles metropolitan area was most earnestly contested by both the utility and the public, and has occupied much of the Commission's time and attention for the last three years. There is every reason to expect that the present application will assume equal proportions before the issues involved can be disposed of finally.

CHAPTER IX.

GAS AND ELECTRIC DIVISION.

The work of the Gas and Electric Division for the fiscal year just ended has shown a marked increase in the number of formal proceedings handled, and a slight decrease in the number of informal complaints requiring adjustment. The formal work has embraced the entire field of questions, which normally require formal action, and some of the conclusions are of far reaching importance.

WASTE OF NATURAL GAS.

The discovery and rapid drilling of new oil fields has resulted in a flush production of oil, and a flooding of the oil market, that is part of a problem now assuming national importance.

Every barrel of oil recovered, being accompanied by an average of a thousand cubic feet of natural gas, the unrestricted production of oil in southern California fields involves a production of natural gas that is now far exceeding the possibilities of beneficial use. As this report is written, enough natural gas to supply the city of Los Angeles is being wasted into the air. In all probability it will be but a few years before this gas, now being wasted, will have to be replaced by the costly process of manufacture from oil or coal.

FORMAL PROCEEDINGS DECIDED.

Exclusive of requests for stock and security issues, 52 formal proceedings were investigated, and reported on by this division, in addition to work performed on matters still pending. These proceedings include transfers of property, certificates of public convenience and necessity, rates and service investigations. Of more than usual importance was the decision authorizing purchase by the Pacific Gas and Electric Company of the controlling interest in Western States Gas and Electric Company, Sierra and San Francisco Power Company, and Coast Valleys Gas and Electric Company.

Pacific Gas and Electric Company, in the early part of the fiscal year, was authorized to enlarge the Spring Gap hydro-electric plant on the Stanislaus River, and was, at the close of the fiscal period, progressing rapidly with the construction of a dam, and the addition of a second generating unit of 7500 k. w. capacity.

Truckee River Power Company received permission from the Commission to construct a transmission line from Truckee to Tahoe. This line is now completed, and electric service is being supplied to the area bordering the northern shore of the lake.

The construction by Pacific Gas and Electric Company of a gas transmission main from the town of San Pablo to the town of Pinole, enables Coast Counties Gas and Electric Company to obtain a supply of gas to meet the constantly increasing demands of the area already served, and provides for the extension of service to Pinole and adjacent rural territory. Pacific Gas and Electric Company was authorized to abandon its gas plant at Oroville and to install a transmission main between that city and Marysville, where generating equipment was

enlarged to supply more economically both towns. Subsequently a branch from this transmission line to supply the town of Gridley was authorized. The same company was also authorized to install a gas transmission main from Sacramento to Roseville for the purpose of supplying gas to the latter town. Such concentration of gas generating equipment to obtain greater economy of production, and the resulting greater distances of transmission, is in line with the present trend in the gas industry.

Midway Gas Company was granted authority to supply gas in the town of Tehachapi, a hitherto unserved community, and also to construct a 16 inch pipe line from Castaic to Glendale. This line will increase the quantity of natural gas available to the Los Angeles Basin, and will, for a time in the future, insure the southern communities against a shortage, due to their rapid growth, and the almost certain decline in production of the southern oil fields.

South Coast Gas Company, a newly organized company, was granted a certificate of public convenience and necessity, authorizing it to install a plant for generating and supplying artificial gas to the town of Oceanside and vicinity. Investigation by the engineers of this division showed that the amount of securities, at first proposed to be issued, considerably exceeded the reasonable cost of the property to be constructed and resulted in a reduction being ordered in the contract price of the plant, as well as in the security issue proposed. At the close of this fiscal year the plant is incomplete, but it is contemplated that service will begin before October 1, 1927.

Tracy Gas Company, likewise newly organized, was granted a certificate of public convenience and necessity to serve artificial gas in Tracy, but at the close of the fiscal year, no construction work had been performed.

Of more general interest than the matters above cited, was the decision of Los Angeles Gas and Electric Corporation and Southern California Gas Company to serve natural gas in the areas formerly receiving mixed gas. This has been originally contended for by the communities involved, and is in conformity with an option granted these companies in the Commission's order in the major proceedings, which were noted as pending in the last annual report. Such substitution of natural gas in those portions of the city of Los Angeles and adjacent territory then receiving mixed gas, required adaptation of the companies' equipment to the new service, and was attended by the necessary adjustment of the consumers' appliances in order that the gas of higher heating value might be efficiently utilized. During the period of readjustment, the consumers were in many instances inconvenienced, but conditions are now stabilized, and there is no reason to expect further difficulty from this source.

FORMAL MATTERS PENDING.

Of the formal matters, which remain pending at the close of the fiscal year, 17 relate to rate revision, and are directed against three utilities.

Proceedings involving electric rates of Pacific Gas and Electric Company and Great Western Power Company are held in abeyance by general agreement, pending disposal of condemnation proceedings

involving these same companies. An appraisal of the properties of the Southern Sierras Power Company system has been completed, and several hearings have already been held. In view of the importance of this proceeding, it is probable hearings will continue for some time.

There remain 17 matters still pending at the close of the fiscal year, of which nine were filed during the last two months of that period. The others embrace miscellaneous service matters, territorial disputes and applications for certificates of public convenience and necessity in limited areas.

GAS SERVICE STANDARDS.

The enforcement of prescribed standards for gas service has been carried on with increased vigor this year to the end that more faithful compliance on the part of the utilities has been obtained.

The division's engineers made 28 inspections covering more than half of the utilities in the state. These inspections comprise an examination of the generating equipment, tests of the quality of gas supplied, a study of pressure conditions under which gas is delivered, and an inspection of the complaint records, refund accounts and various related minor subjects.

In addition to the actual inspection of generating and distributing equipment, these engineers have checked the accuracy of sixteen sets of testing apparatus, issuing certificates of accuracy for the same. This apparatus embraces measuring devices, by which the quality of the gas is determined, and the provers used by the utilities to test consumers' meters. The routine in connection with these inspections has been more rapid, and has obtained greater results than was possible last year.

ELECTRIC SERVICE STANDARDS.

Although not governed by any formally prescribed rules, as in the case of gas service, electric service throughout the state has been closely watched by the division's engineers, and many incipient difficulties disposed of before they had time to develop to serious proportions.

Realizing that unsatisfactory service in any locality is often not confined to one consumer alone, but may indicate a condition affecting, to a greater or lesser degree, all service on an entire distribution unit, prompt action has been taken in each case to ascertain the full extent of the unsatisfactory condition, and to remedy the same as a whole. The results thus obtained have been so gratifying that preparations are being made to prosecute this particular phase of work on a much greater scale during the coming year. It is particularly designed that rural areas shall be closely studied at the opening of the coming agricultural season and such corrective measures as may appear warranted be taken before any unsatisfactory service conditions can arise.

Through the cooperation of the Law and Utilities Department of the California Farm Bureau Federation it is hoped that the widespread contact of the local farm centers throughout the state may be combined with the engineering investigation (and where necessary the authority), of the Commission to find and bring about the correction of such service troubles as promptly as possible and at the least expense to the state.

OVERHEAD LINE CONSTRUCTION STANDARDS.

As indicated in the last annual report, this division has been actively engaged, in cooperation with representatives of various electric utilities, in the revision of the Commission's General Order No. 64. On account of the magnitude of this work, and the many unexpected problems which arose, the proposed revision of the order was not placed in the printers' hands until just prior to the end of the fiscal year.

Very little inspection work was done during the last year, and as it closes, practically all work previously inspected has been reported in compliance with chapter 499, Stats. of 1911, as amended by chapter 600, Stats. of 1915, and General Order No. 64.

INFORMAL COMPLAINTS.

The number of informal complaints received during this fiscal year exceeds by five the number received last year. In view of the steady development experienced by the various utilities during this period, the net result is a most gratifying decrease in the ratio of complaints to the number of consumers served.

It is interesting to note that complaints relative to extensions of service, and to the quality of service, have shown a marked decrease, while those based upon rates and billing have increased to an equivalent extent.

This peculiar condition is largely due to the unusually cold weather which followed immediately after the substitution of natural for mixed gas in the Los Angeles area, resulting in a marked increase in the use of gas for heating purposes, and leading to a large number of complaints attributing high bills to natural gas service.

This situation is one of adjustment to new conditions, rather than of a permanent nature, and there is no reason to expect the repetition of an unusual number of complaints during the coming winter.

The number and character of the complaints received are best illustrated by the following tabulation:

	Gas	*Electric*	*Steam*	*Total*
Service conditions	65	161	0	226
Extensions	133	235	0	368
Excessive bills	219	271	0	490
Rates	82	66	0	148
Totals	499	733	0	1,232

In connection with these complaints a total of $6,654.44 was deposited by consumers protesting their bills, a large portion of which amount was returned to these consumers after investigation by the Commission.

CHAPTER X.

HYDRAULIC DIVISION.

During the last fiscal year the Hydraulic Division has been actively engaged in carrying on the usual work required by the Commission in connection with the regulation of public utility water companies.

This past year has witnessed a consolidation of public utility water companies which presents a new departure in this state. Several large eastern holding companies, owning and operating public utility water properties in other states, have entered the California field and have purchased a number of independently owned utilities and former California corporations for the purpose of financing and operating these properties.

One of these corporations, the California Water Service Company, has acquired six water systems of the Pacific Gas and Electric Company, serving the towns of Stockton, Dixon, Livermore, Oroville, Willows and Redding, involving some 15,000 consumers, and also the three systems serving Chico; the water properties of the Port Costa Water Company, serving the bay area from Martinez to Crockett; the Fresno City Water Corporation, supplying Fresno; the Electric Water Company and the Bakersfield Water Works, the two water companies furnishing Bakersfield's water supply; the Visalia City Water Works at Visalia and the Hermosa-Redondo Water Company, serving the towns of Hermosa and Redondo. These latter nine utilities are serving approximately 35,000 consumers. It is proposed to operate these systems as a unit with headquarters at San Francisco, consideration being given to the various service conditions obtaining in each of the different communities served. The new company proposes greater efficiency in operation and improvement of conditions on certain plants where insufficient and inadequate water service formerly prevailed.

During the past year, the activities of this division have been directed more towards the improving of service conditions among the smaller utilities. The continued steady and rapid growth of the smaller California communities has shown many of the utilities serving these smaller towns to be unprepared to supply the additional demands made upon them. Poor service leads to informal and formal complaints by the consumers and requires investigations and recommendations by engineers of this division for improving the conditions complained of, and, furthermore, requires constant supervision to insure that the measures recommended to remedy conditions are properly and promptly applied.

There are now 432 water utilities reporting to the Commission, which vary in size from the small concern serving perhaps not more than two dozen consumers to the largest, which serves well over 120,000 consumers. The individual investment in physical property of these utilities varies from a few thousand dollars for the small plant to approximately $70,000,000 for the largest water utility. The total investment in public utility water works in California today is estimated to be approximately $200,000,000.

FORMAL PROCEEDINGS.

The Commission has rendered 186 decisions involving water utilities during the last fiscal year. Of this number there were 38 decisions rendered in connection with proceedings that relate entirely to security issues. This division investigated and reported on all of these matters except the security issues, and, in these, cooperated with the Department of Finance and Accounts, which handles financial matters. There were 149 formal matters involving water utilities filed with the Commission during the last fiscal year which required and will require detailed investigation and report by this division.

The following classification, by subject matter, shows the number of formal proceedings involving water utilities, exclusive of those handled by the Department of Finance and Accounts, which were decided during the fiscal year ending June 30, 1927:

Subject	*Formal applications*	*Formal cases*	*Total*
Rates	23	3	26
Rates and certificates	1	-	1
Rates, transfers and securities	1	-	1
Service	1	10	11
Service and rates	1	1	2
Transfers	46	-	46
Transfers and securities	7	-	7
Transfers and certificates	1	-	1
Transfers and rates	1	-	1
Certificates	18	-	18
Certificates, rates and securities	1	-	1
Securities	2	-	2
Securities and certificates	1	-	1
Leases and transfers	2	-	2
Discontinuances	7	-	7
Easements, leases, rights of way	4	-	4
Investigation on Commission's motion	-	9	9
To fix compensation	1	-	1
Agreements	1	1	2
Dams	1	2	3
Invasions of territory	-	2	2
Totals	120	28	148

VALUATIONS.

During the last fiscal year, 27 valuations were made involving small water utilities, which totaled $3,811,346.29. None of the larger water utilities appeared before the Commission in proceedings requiring valuations of their properties.

The following tabulation gives a classification of the proceedings in connection with which valuations of the properties were required:

Class of proceeding	*Amount*
Rates	$2,856,089 29
Service and rates	23,279 00
Certificates and rates	19,600 00
Transfers	13,986 00
Transfers and securities	760,566 00
Securities	137,826 00
Total	$3,811,346 29

Following is a detailed table showing by individual proceedings the utilities involved and the amounts of the valuation:

Proceeding number	*Utility*	*Amount*
A-11431	San Gabriel Valley Water Company	$856,897 00
A-11711	Petaluma Power and Water Company	448,126 00
A-12393	Los Altos Water Company	70,491 00
A-12575	Los Angeles County Water Works	227,443 00
A-12576	Fay Water Company	60,000 00
A-12578	Peninsula Water Company	98,405 00
A-12753	Mattie L. Goodwin and Grace Webb, Quincy Water Works	26,630 00
A-12754	Moorpark Farmers Water Company	56,400 00
A-12793	Consolidated Water and Development Company, Los Angeles Water Service Co. et al.	556,578 00
A-12828	I. W. Lampman (Magnolia Park Water Company)	38,779 00
A-12913	Frank Globin	19,600 00
A-12946	Sonoma Water and Irrigation Company	55,620 00
A-12963	Rogers and Sons	2,490 00
A-13029	Plymouth Water Company	25,966 00
A-13040	North Sacramento Light and Water Company	100,139 00
A-13100	Ocean Park Heights Land and Water Company and Ocean Park Heights Water Company	203,988 00
A-13112	Thousand Oaks Water Company	37,687 00
A-13137	James M. Eva and Florence V. Eva	6,670 00
A-13193	Thos. Parkhill	2,545 00
A-13260	The Richmond Company, Inc.	7,853 00
A-13305	Southern California Utilities, Inc.	678,254 00
A-13453	Boyes Hot Springs Company and L. F. Cowan	3,727 00
A-13454	Auga Caliente Water Works and L. F. Cowan	10,259 00
A-13670	Liberty Acres Water Company	35,026 00
A-13696	Ivanhoe Water Company	3,719 00
C- 2203	Rodeo Water Company	23,279 00
C- 2270	A. B. Chapman Estate	154,775 29
Total		$3,811,346 29

SERVICE MATTERS.

As already suggested, a great deal of the time and efforts of the Hydraulic Division has been directed toward the improvement of service of various utilities against which complaints have been received. Complaints of service are made to the Commission either formally or informally, and, in either case, if the situation is one that can not be corrected by correspondence, a field investigation is made by an engineer of this division and a report prepared containing recommendations for the necessary measures to be taken to correct the conditions complained of.

The Commission is often called upon to adjust water service matters that result from long-standing disagreements between the owner of a utility and a consumer. As an illustration of how serious these misunderstandings become and the extreme measures the Commission is forced to take to prevent discriminatory service, the following instance is cited:

An owner of a water utility supplying one of the smaller towns in central California refused to continue water service to one of his consumers on account of a personal dislike. After all informal attempts to

obtain a resumption of service, a formal investigation was instituted by the Commission. A public hearing was held, after which the owner was formally ordered to restore the service. However, as the owner still refused to obey the order of this Commission, it became necessary, for the first time in this institution's history, for the Commission to avail itself of its powers to compel compliance with its orders by imprisonment, if necessary, and the recalcitrant utility operator was committed to jail for a ten day period for a contempt. The consumer, thereafter, experienced no further difficulty in having his water supply reconnected.

In another instance, complaint made by a single consumer regarding the service of a company that resisted the jurisdiction of the Commission on the ground that it was not a public utility resulted in over two years of litigation in which the matter was carried by the utility to the United States Supreme Court. This utility finally agreed to install an entirely new water system costing in the neighborhood of $75,000 and present it to the consumers to operate themselves on a mutual basis.

These, however, are extreme cases which involve the smaller utilities. The larger companies maintain organizations to handle complaints of service and rates and seek to preserve amicable relations with the public and, in general, cooperate very readily in the adjustment of complaints brought to their attention by the Commission.

OTHER MATTERS.

This division also makes a thorough investigation of all applications for certificates of public convenience and necessity and applications for transfers of water properties in order that the public may be protected as fully as possible from irresponsible owners and from those that are not capable financially and otherwise of assuming the responsibilities of supplying a utility service. It is also the purpose of this division to insist that proper and sufficient facilities are provided to insure adequate water service to all of the consumers on the new system. Considerable difficulty has been experienced in the past in maintaining proper water service in small subdivisions in which the real estate operators frequently attempt to install cheap and inadequate water facilities. When such a tract is sold, the water system is usually given to some irresponsible party to operate. Eventually, the water system can not meet the demands and the owner is not financially able to make the necessary replacements and additions. The Commission is then asked to compel the utility to maintain its system properly and render adequate service, and the owner generally attempts to secure a prohibitive rate, or quits altogether. Such situations continually appear before the Commission for solution and will continue to do so as long as there is no law by which the tract owners can be compelled to install adequate water facilities. The Commission can and does refuse certificates of public convenience and necessity when the water systems are not properly designed and installed but there apparently is no way of controlling operators who install a system and avoid the public utility status by giving free water service or who form some type of mutual water company organization.

Applications for discontinuance of service are also investigated to determine the necessity for such action, and, if justified, to see that all consumers' rights are protected and that they may have sufficient time to provide a water service from another source of supply and that such a supply is available.

INFORMAL PROCEEDINGS.

This division has a great variety of informal complaints involving water utilities to adjust. During the last fiscal year, 609 informal complaints were filed which have been segregated into the following subjects:

Service	155
Installations, extensions and cancellations	77
Rates	61
Bills	183
Loss, damage, shortage	3
Competition	1
Refunds	13
Rules and regulations	1
Deposits and deposit refunds	19
Deposits to preclude discontinuance of service	96
Total	609

Other correspondence handled by this division covers various inquiries concerning jurisdiction of the Commission, contracts, rules and regulations, water supply, valuations and other matters. There were 232 matters of this nature handled by this division during the year in addition to the informal complaints set in the above table.

Many informal complaints are adjusted satisfactorily by correspondence and others require a field investigation in order to bring out all the facts before a solution can be effected. Some of these complaints can not be decided informally and result in formal proceedings and formal decision by the Commission for determination. It is the policy of this division to extend every effort toward obtaining an equitable adjustment of the informal complaints in order to save the time and expense of the Commission's employees, as well as that of parties in dispute in carrying on extended litigation.

SPECIAL PROBLEMS.

Investigations and inspections have also been made by the engineers of this division of the plans and sites of a number of dams that are being constructed by the various utilities in the state. These investigations involve a study of the plans to determine if the design is proper and provides for a safe and stable structure and an inspection of the site in order to prevent the possible attempt to use an unsafe foundation. From time to time, the construction is also inspected.

The following summary shows the type of dams under construction, the name of the utility for which the structure is being erected and

the nature of the work done by the engineers of this division in connection therewith.

Type of dam and name of utility	*Nature of work done*
Hydraulic fill dam at Lake Almanor for Great Western Power Company	Inspected construction.
Concrete multiple arch dam at Florence Lake for Southern California Edison Company	Inspected completed dam.
Rock fill dam on Bucks Creek for Feather River Power Company	Inspected foundation.
Concrete constant angle arch dam on Bucks Creek for Feather River Power Company	Inspected foundation.
Concrete gravity arch dam at Shaver Lake for Southern California Edison Company	Checked plans and inspected foundation.
Concrete dam on Pit River (Pit No. 4) for Pacific Gas and Electric Company	Inspected foundation.
Concrete arch dam on Mono Creek for Southern California Edison Company	Checked plans.
Concrete arch dam on Bear Creek for Southern California Edison Company	Checked plans.
Concrete arch dam on Kings River for San Joaquin Light and Power Company	Checked plans.

CHAPTER XI.

TELEPHONE AND TELEGRAPH DIVISION.

The activities of the Telephone and Telegraph Division during the year ending June 30, 1927, have included investigation of formal proceedings, informal complaints, and matters affecting telephone service and rates in certain parts of the state. Considerable of the time of the division has been spent in the inspection of telephone properties and operations, and in the preparation of reports and exhibits to be used in connection with a number of important formal telephone matters, which are still pending before the Commission.

Many extensive and varied investigations, relative to telephone service in different parts of the state, were made during the last year. Members of the division participated in 55 public meetings and informal conferences, held with various civic organizations, groups of individuals and telephone utilities for the purpose of considering problems pertinent to telephone service, as viewed from the standpoint of both the telephone-using public and the utilities. The value of satisfactory public relations has received attention at many of these gatherings, and engineers of the division have rendered assistance and furnished advice, wherever possible, particularly to the smaller telephone utilities. The magnitude of the work confronting the division may be better understood when it is known that, at present, there are approximately 141 telephone and telegraph utilities operating in the State of California, many of which are very small companies furnishing service under rather unsatisfactory conditions in sparsely settled or outlying sections.

The work of this division has necessitated the writing of approximately 4100 letters and the preparation of 290 memoranda and reports during the fiscal period. During this same period the division issued 208 special permissions, authorizing the establishment or discontinuance of exchanges, toll stations or telegraph offices, on less than statutory notice.

FORMAL PROCEEDINGS.

The Commission received 33 applications during the fiscal year from telephone and telegraph utilities. In general, these applications covered requests for rate increases or modifications, certificates of public convenience and necessity, and requests for authority to open or close telegraph offices, sell telephone properties and to establish service connection, move and change, and reconnection charges not theretofore in effect. Eleven cases were filed, several of which were formal complaints, against telephone and telegraph utilities and covered matters of service and rates, while three were proceedings instituted by this Commission, in regard to rates and practices and the closing of one telegraph office without authority from the Commission. A total of 54 decisions was rendered during the year, involving telephone and telegraph matters, exclusive of stock and bond proceedings. The number and character of these are indicated in Table No. 1 following:

TABLE NO. 1.

Telephone and Telegraph Proceedings Decided During Fiscal Year Ending June 30, 1927.

Applications	*Number*
Rates	16
Sale of properties	6
Establishment of telephone service	2
Establishment of telegraph service	2
Abandonment of service	2
Service connection charges	2
Moves and change charges and public pay station rate	7
Certificate	4
Close telegraph office	3
Discontinuance of free service	1
Approval of agreement	1
Total	46
Cases	
Rates	3
Unlawful operation	1
Abandonment of service	1
Close telegraph office	1
Elimination of classified listing	1
Total	7
Total proceedings decided	53

NOTE.—Orders extending time not included.

PROCEEDINGS PENDING.

A considerable amount of the time of the Telephone and Telegraph Division has been spent in the investigation, or preliminary investigation, of a number of important proceedings which were filed or instituted during the past year, but which have not yet been decided. Among these are the two cases instituted by the Commission relative to the rates, rules, regulations and practices of the Kern Mutual Telephone Company, and the application of the Delta Telephone and Telegraph Company for the establishment of exchange areas and the readjustment of rates. Preliminary hearings have been held in each of these matters, which have necessitated considerable work on the part of the Telephone Division, and further hearings will be had in each of these early in the coming year.

The cities of Arcadia and Monrovia filed formal complaints against the Monrovia Telephone and Telegraph Company and The Pacific Telephone and Telegraph Company, alleging inadequate service between the two cities, and requesting that the companies be required to install additional facilities to provide for adequate service between the two communities. An unusual feature of these complaints was the fact that in each, request was made that the telephone companies be permitted to charge a rate of five cents for interexchange service between the two communities, and further, be authorized to withdraw the so-called free service then existing between said cities.

At the present time, there are pending before this Commission the request of the Pomona Valley Telephone and Telegraph Union for a revision of rates, and the joint application of the Pomona Company and the Ontario and Upland Company for authority to discontinue so-called free switching between exchange systems. The situation between the Pomona and Ontario companies has been before this

Commission in several formal proceedings in the past. The two proceedings herein referred to involve fundamental principles and matters of particular interest to the people in the localities affected.

The Pacific Telephone and Telegraph Company filed an application on May 18, 1927, for an order authorizing changes in specified exchange areas, intraexchange and interexchange rates, the inclusion of the present San Francisco and East Bay exchanges within one exchange area, the authorization of just and reasonable exchange rates, together with rules and regulations appertaining thereto, and the establishment of an exchange at Orinda, Contra Costa County. This application, together with the proceedings relative to rates and service in Los Angeles, are the two most important telephone matters that have been before the Commission in recent years.

Some time ago this Commission dismissed, for lack of jurisdiction, a complaint of the *California Fireproof Storage Company* vs. *Southern California Telephone Company*, relative to rates for advertising service in the company's telephone directory. This matter was carried to the State Supreme Court, which handed down a decision requiring the Commission to assume jurisdiction in the matter of telephone directory advertising. The Commission then issued its order setting aside the previous order of dismissal and reopening the matter for further hearing.

INFORMAL COMPLAINTS.

Informal complaints indicate authentically the trend of the service conditions actually experienced by the patrons of a utility, and the work attendant upon the treatment of such complaints is one of the most important functions of the Commission. Each complaint involves contact with a particular individual, group of individuals, organization or community, and presents a most favorable opportunity for acquainting the public with the principles of regulation and the work which the Commission is constantly carrying on to the ultimate end that the people of California may receive the most satisfactory utility services under the most favorable conditions.

During the past year, 665 informal complaints, relative to telephone and telegraph matters, were received by this Commission. This is almost one-third less than the number filed for the preceding year, and is particularly interesting when compared with the figure of 3818, filed during the year ending June 30, 1924. This reduction in informal complaints is indicative of the extent to which telephone service in California is improving, and is even more impressive, when considered in face of the growth in population and resultant telephone demand constantly occurring in many of the larger California cities. The Telephone Division has adjusted 667 complaints during the past year, 414 of this number being in connection with telephone service in the southern part of the state. The following table, No. 2, sets forth the number of informal complaints pertaining to telephone and telegraph matters received, and those decided during the year ending June 30, 1927, segregated into the various classes of complaints considered:

TABLE NO. 2.

Informal Complaints.

	Filed	*Decided*
Service	202	206
Installations and extensions	117	115
Bills	215	244
Exchange boundaries	19	14
Rates	29	26
Requests for information	29	23
Radio interference	7	5
Miscellaneous	49	32
Totals	667	665

In addition to the above, approximately 250 requests for information were received by telephone or through personal call at the Commission's office, of which no detailed record was made, inasmuch as it was possible to furnish the information desired, or satisfy the request at the time of inquiry.

Service at Los Angeles has been the subject of constant investigation by this Commission during the last few years, and service at that point has now materially improved. This condition has resulted in a marked decrease in the number of informal complaints received by the Commission relative to service in that exchange. During the year ending June 30, 1924, the Commission received 2800 complaints in connection with telephone operations in Los Angeles, while for the year just ended, only 389 complaints were handled by the Los Angeles office.

The delayed order situation, which several years ago was so acute, and constituted the basis for over one-half of the informal complaints filed in connection with telephone and telegraph matters, has now passed, and, further, the length of time required to complete an order for telephone service has been materially shortened. The above table indicates 117 installation complaints filed during the last year. However, this figure also includes extensions of service, line extensions and requests for toll stations, and only a percentage of the total number covers cases of delayed or slightly deferred installations.

It is interesting to note that 350 informal complaints were received during October, 1923, in connection with service in Los Angeles, 218 of which referred to delayed installations. All classes of complaints at Los Angeles have now dropped to a total of approximately 30 a month, with installation complaints averaging about four a month. This decline in complaints is typical of the condition existing in regard to the remainder of the state and is viewed as a very strong indication of the degree to which service in general has improved throughout California during the last three or four years.

More than 40 per cent of all the persons, whose complaints were decided during the fiscal year, either favorably or unfavorably, have telephoned, written or called in person at the Commission's office to express their thanks and appreciation of the efforts made in their behalf, the information furnished, and the results obtained.

INVESTIGATIONS.

During the past year, the Telephone and Telegraph Division has made some 45 special investigations, which have included almost every phase of telephone operation. These investigations have provided the Commission with authentic information as to the actual service conditions existing in the localities involved, and, as a result, the Commission has been able to make certain recommendations to the utilities, and to require changes and modifications intended to produce more satisfactory service conditions.

General service conditions in Los Angeles have been the subject of constant investigation and study by the Telephone Division, and periodic reports covering various phases of the Southern California Telephone Company's operations are required of the company. This division recently completed the investigation, which was started more than a year ago, relative to the effect of measured rates in actual operation in Los Angeles, together with a comparison of the measured rates with the former flat rates. Investigations relative to service conditions in Los Angeles have been carried on throughout the entire year, and will be continued indefinitely.

Service investigations involving practically every phase of telephone operation have been conducted at Cambria, Pasadena, Oxnard, Somis, Camarillo, Baldwin Park, Burlingame, Bakersfield, Monrovia and many rural communities, particularly in the vicinity of Stockton. As a result of these investigations certain requirements have been made of the utilities in the interest of better service.

As a result of a study made several months ago, relative to the quoting of unbilled toll charges to apartment house and hotel owners and managers, who desire to obtain as complete a statement of charges as it is possible to make for service furnished vacating tenants, a more equitable method of furnishing such charges has been developed.

MEETINGS.

Consistent with the policy adopted some time ago, members of the Telephone and Telegraph Division have participated in approximately 55 public meetings and informal conferences during the past year in different parts of the state with chambers of commerce, city and county officials, clubs and other organizations, and groups of individuals and representatives of the utilities. These gatherings bring the Commission into closer contact with the public, and the service problems confronting the companies and their patrons. They enable the Commission to acquaint the people better regarding the work which it is doing at present, and is planning to do in the future, to the end that the people of the state may receive the best in utility services. Considerable attention has been directed to the importance of good public relations and their value in connection with the effective operation of a utility.

INDUCTIVE INTERFERENCE.

The Commission issued in 1918 its General Order No. 52, setting forth rules and regulations governing the construction and operation of power and communication circuits for the prevention and mitigation of inductive interference. This order requires, among other things, that

utilities proposing to construct new lines, or to reconstruct or change existing lines, which in any way are involved in a parallel, shall submit to this Commission reports covering the proposed work.

As of June 30, 1927, a total of 636 inductive interference reports had been received from the various power and communication utilities within the State of California. Of this number, 40 were filed during the last year. A number of revised reports, correcting or bringing up to date reports previously filed, also were submitted to the Commission.

The Commission's work in connection with matters regarding inductive interference is largely of an informal nature. During the year, this division has been engaged in a study of inductive interference of major importance, involving communication circuits of the Western Pacific Company and the Western Union Telegraph Company, and the power lines of the Great Western Power Company in the Feather River Canyon.

RATE SCHEDULE FILINGS.

General Order No. 68, issued June 7, 1923, and effective July 1, 1923, prescribes the method and form of filing of rates, rules and regulations by telephone and telegraph utilities.

The various companies were required to refile their schedules of rates, rules and regulations to conform with the provisions of General Order No. 68. A large number of utilities had compiled with this order at the beginning of the fiscal year, but during the past year eleven additional companies made initial filings.

Rate filings to the number of 5982 were made during the year ending June 30, 1927, involving the handling of between 23,000 and 24,000 rate sheets.

CHAPTER XII.

TRANSPORTATION DIVISION.

The work of the Transportation Division was considerably augmented after October 1, 1926, due to the assignment of certain phases of the work formerly handled by the Service Department. This work covered such service investigations as pertained to the railroad and street railways and certain phases of their motor bus operations in cities. Accident investigations, changes in time tables, station and track abandonments, impaired clearances and curtailment of service are some of the assignments transferred. Grade crossing and grade separation matters were handled as usual by the division, including the inauguration of one new General Order relating to the protection of grade crossings. General Order 26-C covering standard clearances was also issued about the same time.

FORMAL PROCEEDINGS.

Formal decisions, supplemental orders and extensions of time involving Transportation Division studies, including transferred service matters, numbered 494, divided as follows: Grade crossings 344, grade separations 40, abandonment of tracks and agencies 64, other service proceedings 29, valuation proceedings 2, joint use of track 9, rate proceedings 4, and transfers of property 8.

RATE PROCEEDINGS.

The division continued its investigations through the year in regard to the rate increases applied for by the Key System Transit Company and Southern Pacific Company, covering transbay fares and east bay local fares. Rate increases applied for by Pacific Electric Railway Company on its street cars and motor busses in the city of Pasadena, by the Fresno Traction Company, on its street car lines in Fresno, and by the Fairfax Incline Railway at Fairfax, Marin County, were granted during the year after thorough investigation and public hearings. At the close of the year, rate proceedings were pending on several interurban and street car systems located in Los Angeles, Santa Clara, San Joaquin and Sacramento counties. This is probably the largest number of rate proceedings to be handled by this department at any one time in its history, and as all are being handled at the same time in addition to other important new proceedings and the usual routine matters, it has been necessary to add a few additional men to the department. (A complete list of the rate proceedings with their status is shown in Table V.)

SERVICE PROCEEDINGS.

One of the most important service proceedings handled during the year, particularly as regard to the public interest therein, was the granting to the Golden Gate Ferry Company of the right to operate an automobile ferry between San Francisco and Berkeley. The application of the Golden Gate Ferry to operate an auto ferry to Alameda is still pending at the end of the fiscal year, and the matter of the Southern Pacific Company to run to the same city is before the state Supreme

Court for decision. The Golden Gate Ferry Company leased the steamers "Fernwood" and "San Francisco" from the Key System Transit Company as a result of the Commission's decision in Case No. 2221, wherein the Commission ordered the ferry company to place two more boats in service.

Another proceeding of great public interest was the filing of formal complaint (Case No. 2330) by Marvelous Marin, a civic organization, against Northwestern Pacific Railroad Company, complaining of inadequate service as set forth in 27 allegations. As a result of the testimony brought forth at the public hearings held at San Rafael in April and certain investigations made by this division, the Commission instituted on its own motion a complete investigation of this railroad company (Case No. 2365). In conjunction with these two cases, investigation is being made in the formal complaint of E. F. Dreger et al., against this carrier with respect to station facilities at Kentfield. All three of these cases are pending at the close of the year. In Case No. 2265, filed by the Fairfax Volunteer Fire Department, this carrier was ordered to install new station facilities and grade crossing protection.

During the year certain short-line railroads were authorized to abandon service, particularly the Iron Mountain Railway Company, California, Shasta and Eastern Railway (temporary only), Sacramento Northern Railway (passenger service between Vacaville and Suisun). Petaluma and Santa Rosa Railroad Company was authorized to install one-man car operation on its interurban cars, subject to certain regulations conducive to safe operation. Key System Transit Company has pending at this time two applications for abandonment of service on certain of its street car lines, Application No. 13875, in the Twenty-third street, Sixth street, Ohio street and Grand Canyon lines in Richmond, and Application No. 13833 on the abandonment of its San Lorenzo branch. Both applications are being vigorously opposed by the local residents.

The Los Angeles Terminal and Grade Crossing Proceeding, Case No. 970 *et seq.*, and Case No. 2177, which was reopened last year as result of the Interstate Commerce Commission's decision in I. C. C. Docket 14778, is under submission and it is expected that an opinion and order will be forthcoming at an early date.

(A complete list of the important service matters handled during the year is given in Table IV.)

STATION AND TRACK ABANDONMENTS.

These matters collectively form one of the sections of work taken over by the Transportation Division from the Service Department on October 1, 1926. Of 61 applications filed from October 1, 1926, to June 30, 1927, service inspection has been made by this department and recommendations offered on 53 of these applications. Of these 53 applications, 17 were for the abandonment of nonagency stations, 21 were for abandonment of agency stations, nine were for abandonment of tracks, five were for abandonment of station buildings and one was for removal of a wigwag signal. (Detail of these matters is shown in Table III.)

GRADE SEPARATIONS.

During the year 21 applications were granted for the construction of grade separations and one application to reconstruct and maintain an old overhead crossing with impaired clearances was denied. Twelve extensions of time were granted in which to construct separations, six supplemental orders were issued and three prior decisions granting separations were revoked. Of the latter, one of the separations was moved to a slightly different location, the other two are not to be constructed. These matters are tabulated in Table II. Grade separations were authorized at the following locations:

Application number	*Applicant*	*Other party*	*Location*
12722	State Highway	S. P. Co.	Ben Ali
12836	State Highway	S. P. Co.	Mossdale
13153	State Highway	S. P. Co.	*Los Flores
13385(2)	State Highway	A. T. & S. F. Ry. Co.	2 at Serra
12910	Contra Costa County	A. T. & S. F. Ry. Co.	*Pittsburg
13120	Orange County	P. E. Ry. Co.	Stern Station
13678	Sutter County	W. P. R. R. Co.	Rio Oso
12543	City of Oakland	S. P. Co.	Seventh st.

2171	California Railroad Com.	S. P. Co.	Glendale-Brand Los Feliz blvd.

* Built during year.

GRADE CROSSING APPLICATIONS.

There were 222 new grade crossing proceedings filed during the year, 42 were carried over from the previous year, and six were reopened during the year. Of these, 177 were for spur and other tracks by railroad companies and 93 were for crossings by political subdivisions. One hundred and ninety-nine crossing proceedings were granted, of which 57 were for new crossings by political subdivisions and the remainder for spur tracks, etc., by railroad companies. The normal yearly growth of new roads and streets across railroads appears to be about 60 per year in this state.

Investigations are made of all applications and every effort is made to keep the number of unnecessary crossings down to a minimum.

GENERAL ORDERS.

In an effort to render grade crossing protection as nearly uniform as possible, a number of hearings were held during last winter, and, as a result, General Order No. 75 was issued as of January 12, 1927, effective February 1, 1927. Under this general order it is proposed that each public crossing have an identification number which is to be painted on the crossing sign or other structure adjacent to the tracks. This general order standardizes the size and kind of crossing signs to be placed at crossings and also gives certain specifications and dimensions for the location of wigwags and the dimensions of their banners. The order also requires that the Commission be notified of the installation of all additional protection installed or of the removal, reduction or substitution of protection.

About the same time last winter other hearings were held in regard to revising and clarifying General Order No. 26-A, which was issued in 1925. As a result, General Order No. 26-C was finally issued as of March 28, 1927, effective April 1, 1927. One of the important improvements in this order over previous orders on clearances is in the interlocking of prescribed clearances with size of equipment operated. This provision does away with most of the hazard created by the continuous increase in size of freight cars and locomotives.

INFORMAL MATTERS.

The informal matters handled by the Transportation Division may be treated under the following heads:

1. Informal complaints.
2. Grade crossing surveys and investigations.
3. Surveys of grade separation projects.
4. Grade crossing accident investigations and reports.
5. Interlocking towers and signal systems.
6. Correction of impaired clearances.
7. Proposed General Orders.
8. Violation of full crew law.
9. Bridge failures.
10. Changes in time schedules and curtailment of service.
11. Investigation of unsafe practices.
12. Accident investigations.

(1) Informal Complaints.

More than 170 informal complaints were filed during the fiscal year on matters handled by this division, of which some 80-odd were satisfactorily handled and closed as of June 30, 1927. These complaints cover every sort of transportation activities from impaired clearances to smoking on upper decks of steamers and burning shrubs on railroad rights of way. More than 37,500 of such complaints have been filed with all departments of the Commission since the passage of the Public Utilities Act.

(2) Grade Crossing Surveys.

Surveys of grade crossings were made on Southern Pacific lines through San Jose, through the East Bay cities except Berkeley, which was surveyed last year; through Burlingame and from Watsonville to Aptos on the Santa Cruz branch. A survey was also made through El Cerrito and Albany on The Atchison, Topeka and Santa Fe Railway Company and all crossings authorized by the Commission in Santa Clara and Merced counties were inspected as to the correct carrying out of the Commission's orders. In connection with crossing surveys an intensive study was inaugurated with respect to the ringing circuits on the lines of Southern Pacific Company and The Atchison, Topeka and Santa Fe Railway Company. The surveys in Albany and Oakland on the Santa Fe lines were completed.

(3) Surveys of Grade Separations.

Surveys of grade separation possibilities were completed for the city of Palo Alto and partially completed for the town of Sunnyvale.

(4) Analysis of Grade Crossing Accidents.

An analysis of grade crossing accidents occurring in California from January 1, 1925, to May 10, 1927, was made by this department. Twenty-four different railroads were covered. The 2251 accidents analyzed were distributed as follows: On crossings protected by crossing signs, 946; by wigwags, 654; by human flagmen, 290; by overhead crossing signs, 293; by gates, 34; by crossing bells, 34. These 2233 accidents resulted in 297 persons being killed and 1054 injured. Property damage only occurred in 1360 accidents.

During the year a large number of accidents at grade crossings were investigated and reported upon by this department's service investigator and engineers. As a result of these investigations, additional protection was required at such crossings as was deemed necessary.

(5) Interlocking Plants.

This division inspects interlocking plants at railroad junctions and crossings and passes on plans for proposed changes at towers or for new tower installation.

Towers at Alameda Pier, Hobart and Tulare were inspected during the year and plans for changes at Calwa, Third and Webster streets, Oakland, and Key Pier tower were approved. Plans for changes at Baltimore Park tower on the Northwestern Pacific Railroad were not approved.

In connection with interlocking plants some study has been given to automatic interlocking which does not require the services of a towerman. Conferences have also been held in conjunction with signal engineers of the railroad companies for the purpose of modernizing and improving General Order No. 33, which was adopted fourteen years ago. Conclusion as to automatic interlocking will be embodied in the new general order.

A study on unprotected railroad grade crossings in the state was also initiated during the year.

(6) Clearances (G. O. 26-C).

During the year inspections of a large number of impaired clearances throughout the state have been made, and, following usual practice, these have been corrected when practicable.

(7) Proposed General Order.

As already stated, studies have been commenced on a revision of General Order No. 33. Investigation has also been conducted in regard to a proposed general order to standardize the construction of industrial spur tracks, and for a general order on automatic signaling.

(8) Violations of Full Crew Law.

A number of instances of violations of the Full Crew Law have been called to the attention of the division during the year, and, after investigation by service inspector, the carrier involved was required to correct its practices where such violation was found.

(9) Bridge Failures.

Whenever bridge failures occur, which is seldom, they are subject to investigation and report by this department. Such a failure occurred on the Los Angeles and Salt Lake Railroad at the San Gabriel River, near Whittier Junction, during the heavy storms last winter.

(10) Changes in Time Schedules and Curtailment of Service under General Order No. 31.

Under General Order No. 31 of the Railroad Commission, all changes in steam and electric interurban railroad time tables are required to be filed with the Railroad Commission, and to be posted for the information of the public five days in advance of the effective date of the proposed changes. A supplement to this general order requires that in all instances where a reduction in passenger service is contemplated, or where the abandonment of any stop is desired by the railroad, an outline of the proposed time table must be submitted to the Railroad Commission thirty days prior to the proposed effective date of the change, and that the permission of the Railroad Commission must be obtained prior to making any reduction in service or abandoning any stop. Similar requirements are imposed upon automobile stage and truck lines operating under the jurisdiction of the Railroad Commission.

(11) Investigations of Unsafe Practices.

As a result of inspections, which have been continued for many years, unsafe practices have been corrected and standard and uniform methods of operation have been prescribed for the smaller roads, with the result that their general operation now compares favorably with the standard practice of the larger carriers. The work of the department also includes such inspection as is required by the statutes and the regulations of the Railroad Commission as to compliance with such laws and regulations by the carriers.

A report on local service between San Francisco and San Jose, and protection of passengers at station platforms, was prepared by this department.

(12) Accident Investigations.

Every train accident resulting in the loss of life or serious injury to passengers or employees is investigated by the Railroad Commission. When a fatal accident occurs, the company's investigation, and in some instances coroner's inquest, are attended and an independent investigation is made by the Commission's inspectors at the scene of the accident, that all possible information may be available regarding the accident. Upon the receipt of the inspector's report such orders or recommendations are issued by the Commission as appear to be necessary in the specific case.

TABLE No. 1.

SUMMARY SHOWING NUMBER OF GRADE CROSSING PROCEEDINGS HANDLED.

Applicant or complainant	Pending June 30, 1926	Submitted but not decided	New proceedings filed during year	Reopened during year	Disposition

13569	South San Francisco Belt Railway, Southern Pacific Company		Joint use tracks of former at South San Francisco	Mar. 1, 1927	Granted.

CHAPTER XIII.

VALUATION DIVISION.

The Valuation Division of the Engineering Department, during the fiscal year 1926–27, comprised an average staff of approximately twenty assistant engineers in addition to the Valuation Engineer. As the name implies, the work of this division is generally that of making investigations and preparing reports in connection with appraisals of public utility properties. Such work is prosecuted under the authority of section 47 of the Public Utilities Act, and is involved in most of the important proceedings before the Railroad Commission which deal with matters of condemnation, rates and security issues.

Within the fiscal period just ended the Valuation Division's activities included seventeen independent appraisals authorized under seven condemnation, eight rate, and two security issue proceedings. Properties of five different types of utility, and located in various parts of the state, were included in these investigations. Five of the jobs referred to were in progress when the year began, two were commenced and finished within the year, and thirteen were still in progress when the year ended.

Immediately following is a condensed statement of the work performed by the Valuation Division under various proceedings. Due to the fact that the Commission has not yet rendered a decision in any one of these cases, appraisal totals have been purposely omitted.

SUMMARIZED STATEMENT OF VALUATION DIVISION ACTIVITIES DURING YEAR ENDING JUNE 30, 1927.

VALUATIONS FOR RATE PROCEEDINGS.

The more important valuations prepared for rate proceedings are the Key System Transit Company, the East Bay Electric lines of the Southern Pacific Company, the Pacific Electric Railway Company, the Stockton Electric Railroad Company, and the Delta Telephone and Telegraph Company.

A detailed inventory and appraisal as of December 31, 1926, of all the Key System Transit Company's operative and nonoperative property was completed early in June.

The Pacific Electric Railway Company valuation, prepared by the Commission in 1920, is now being brought up to December 31, 1926, after a careful analysis of the company's records to determine the net additions and betterments.

A detailed inventory of the property owned by the Stockton Electric Railroad is being prepared. Unit costs for this work are also being prepared.

VALUATIONS FOR CONDEMNATION PROCEEDINGS.

There are two appraisals in progress in connection with the condemnation proceedings inaugurated by the city of Los Angeles to acquire certain properties owned by the Southern California Edison Company. The inventory and appraisal made in connection with Application No. 10882 was completed last year, and is now being kept up to date by a continuous analysis of additions and retirements. A detailed field inventory is now being prepared and unit costs are being developed in the proceeding on Application No. 13437.

The additions and betterments on the Pacific Gas and Electric Company's San Francisco property, Application No. 9768, and the Oroville property, Application No. 12392, are being continuously analyzed, and removals from plant deducted, using valuation figures. The valuations of the Great Western Power Company and the Universal Gas and Electric Company, Application No. 9767, are also being kept up to date by an analysis of additions and removals.

VALUATIONS FOR FINANCIAL PROCEEDINGS.

On Application No. 13514 a check was made of the valuations submitted by the California Water Service Company for the following fifteen water companies:

Fresno City Water Corporation, Chico Water Supply Company, Chico-Vecino Water Company, W. E. White Water Company, Electric Water Company, Bakersfield Water Works, Visalia City Water Company, Hermosa-Redondo Water Company, Stockton Water System, Livermore Water System, Port Costa Water System, Willows Water System, Dixon Water System, Oroville Water System, Redding Water System.

A complete inventory and appraisal was made of the properties of the California Transportation Company and the California Navigation and Improvement Company. An inventory of the Delta Telephone and Telegraph Company's property has been completed in the field and the office force is now summarizing the inventory and completing cost studies.

INTERSTATE COMMERCE COMMISSION VALUATIONS.

Under the Federal Valuation Act, the states are made parties to the valuation proceedings for each carrier located wholly or in part within the state, and the various reports prepared by the Bureau of Valuation of the Interstate Commerce Commission are submitted to the governor of each state. The valuation of road and equipment, in these reports, is referred to the Railroad Commission. These reports, when received by the Railroad Commission, were checked, and, if deemed necessary, a protest was prepared and submitted to the Interstate Commerce Commission.

The following tabulations indicate the final value determined and reports received and checked during the year:

INTERSTATE COMMERCE COMMISSION.

Name of carrier	Date of valuation	Final value				
		Wholly owned and used	Owned, but not used	Used, but not owned	Total owned	Total used
Amador Central Railroad Company	June 30, 1916	$361,456 00		$128 00	$361,456 00	$361,584 00

*Final reports received during fiscal year.
NOTE—Total used is not always our figures.

CHAPTER XIV.

LEGAL DEPARTMENT.

Due to a large amount of active litigation, and an increase in the general work of the Legal Department, the fiscal year 1926–27 proved to be a busy one for the attorney and his staff, who were called upon to represent the Commission in 23 court cases, in addition to the general work of advising the Commission and its staff on legal problems arising in connection with its duties.

During the year one case was decided by the United States Supreme Court, one case by the Federal District Court, nine cases by the California Supreme Court, and one case by the Interstate Commerce Commission, in matters involving the jurisdiction or orders of the Commission. At the close of the fiscal year eight cases, in which the Railroad Commission was an interested party, were still pending; one in the United States Supreme Court, three in the California Supreme Court, two in the superior courts of California, and two before the Interstate Commerce Commission.

Thus, during the year the Legal Department represented the Commission in two cases before the United States Supreme Court, twelve before the California Supreme Court, one before the Federal District Court, six before the Interstate Commerce Commission, and two before the superior courts of California.

Of the cases decided during the year, two decisions of the California Supreme Court, *California Fireproof Storage Company* vs. *Railroad Commission,* and *Postal Telegraph-Cable Company* vs. *Railroad Commission,* are of particular importance.

The first of these, the *California Fireproof Storage* case, involved the jurisdiction of the Commission to entertain a complaint concerning rates for space advertising and for bold-face type listings in the classified section of telephone directories. The Supreme Court, in issuing a writ of mandate requiring the Commission to entertain jurisdiction of the complaint, held (199 Cal. 185), that a telephone directory is an essential instrumentality in connection with the rendering of telephone service and should not be free from regulatory control.

The *Postal Telegraph-Cable Company* case involved a petition for a writ of review seeking to annul an order of the Commission directing the telegraph company to cease and desist from carrying on certain intrastate telegraph business unless and until a certificate of public convenience and necessity be secured. The Supreme Court decided that, as to a telegraph company possessed of a federal franchise, while the state may impose reasonable regulations as to the exercise of rights conferred by the national government, it can not prohibit the exercise thereof, and that the telegraph company, having accepted an offer of the state as expressed in the code, by construction of its lines, had secured vested rights which would be protected, it not being necessary for the company thereafter to secure a certificate for each new extension of service.

In addition to conducting all litigation and other legal proceedings for the Commission, the Legal Department assists and advises in connection with legal problems entering into opinions and decisions of the Commission, and advises the Commission and its staff upon all matters involving questions of law in relation to proceedings brought or pending before the Commission. This work has steadily and rapidly increased from year to year, and while it is generally deemed advisable for a member of the legal staff to be present at important Commission hearings, this has proved impossible with but three attorneys in the department. Important hearings have, however, been attended whenever possible.

During the year a digest of court cases in which the Commission has been a party was completed, and will shortly be published, together with the full text of the cases digested, the Public Utilities Act, and the Commission's Rules of Procedure. A digest of the decisions and orders of the Commission has also been completed and is now being prepared for publication by a member of the legal staff.

CASES DECIDED.

During the fiscal year 1926–27 the following cases were decided:

UNITED STATES SUPREME COURT.

1. *Miller and Lux, Inc.,* vs. *Railroad Commission.*

The Railroad Commission found that the petitioner was operating a public utility water system, and ordered the petitioner to file with the Commission a schedule of rates which were found and declared to be reasonable, and to refund to consumers certain sums of money collected for water service. The petitioner contended that the Commission exceeded its jurisdiction in making this order. The California Supreme Court, however, denied this petition for writ of review, thus sustaining the Commission's order. The matter has been taken before the United States Supreme Court by writ of error, and is still pending in that court.

FEDERAL DISTRICT COURT OF CALIFORNIA.

1. *Relph Brothers* vs. *Joseph Perumean and Railroad Commission.*

The Railroad Commission instituted an investigation on its own motion to determine whether or not a certificate of public convenience and necessity permitting operation of automotive vehicles for hire theretofore granted to the petitioner, who had become a bankrupt, should be revoked. The referee in bankruptcy issued a temporary restraining order purporting to enjoin the Commission from proceeding with such investigation and also from proceeding to a determination of a pending application of other parties seeking authority to operate over the same route as to which the petitioner possessed a certificate. The Commission's motion to dissolve the referee's temporary restraining order was granted by the district court.

CALIFORNIA SUPREME COURT.

1. *California Fireproof Storage Company* vs. *Brundige et al.*

This was a petition for a writ of mandate praying that the Supreme Court direct the Railroad Commission to assume jurisdiction over a complaint filed before the Commission against the Southern California

Telephone Company, in which it had been alleged that certain rates for space advertising in the classified section of the company's telephone directory and for bold faced listing in said directory had been increased without authority from the Commission, and that such increases were, therefore, unlawful. The Commission urged that such advertising service was not of a public utility character, and it therefore possessed no jurisdiction over it, but the Supreme Court (199 Cal. 185) held that a telephone directory is an essential instrumentality in connection with the rendering of telephone service, and that the Commission possesses jurisdiction over the subject-matter of the complaint. It therefore granted the petition.

2. *Postal Telegraph-Cable Company* vs. *Railroad Commission.*

This was a test case involving a petition for writ of review to annul an order of the Railroad Commission directing petitioners to cease and desist from carrying on an intrastate telegraph service in the vicinity of El Centro, in Imperial Valley, without first having secured a certificate that public convenience and necessity require such service. Petitioner contended that authorization from the Commission, in the form of a certificate, was not necessary as it already had an alleged established right both from the state and the federal governments to conduct its intrastate telegraph service in such area. The order of the Commission was annulled, the court holding that, even as to a telegraph company possessed of a federal franchise, while the state may impose reasonable regulations as to the exercise of rights conferred by the federal government, such power is not prohibitory, and that, moreover, such a company, having once accepted the offer of the state contained in section 536 of the Civil Code, by construction of its lines, has secured vested rights which will be protected, and it is not necessary thereafter to secure a certificate upon each extension of service.

3. *Miller and Lux, Inc.*, vs. *Railroad Commission.*

(See same case above under "United States Supreme Court.")

4. *City of Pasadena* vs. *Railroad Commission.*

This matter involved the jurisdiction of the Railroad Commission to grant a certificate for motor bus operation wholly within a municipality with the exception of a short portion of a route running outside of such municipality. The Commission assumed jurisdiction upon the ground that this operation was not exclusively within the limits of a municipality, under chapter 213, Statutes of 1917, as amended and the city's petition for writ of review was denied.

5. *City of Pasadena* vs. *Railroad Commission.*

The petitioner in this case argued against the jurisdiction of the Railroad Commission to authorize an increase in rates for motor bus transportation in connection with the above case, but its petition for writ of review was likewise denied.

6. *James A. Gunn, Jr.* vs. *Railroad Commission.*

The petitioner contended that a rate established by the Railroad Commission for electricity supplied to him for resale was unreasonable

and that by dismissing petitioner's complaint attacking such rate and asking reparation, petitioner was deprived of his property without due process of law. It was sought to have the court fix a reasonable rate and award reparation. Petition for writ of review was denied.

7. *George J. Nixon* vs. *Railroad Commission.*

The Railroad Commission granted a certificate to an automotive operator over the same route as that over which petitioner was operating. It was contended that such action, allowing competition, deprived the petitioner of a property right granted to him by the Commission to operate over such route. Petition for writ of review was denied.

8. *B. G. Adams* vs. *Railroad Commission.*

The Railroad Commission directed the petitioner, a public utility operator, to return to a number of the consumers of his service certain so-called "tap fees" which the Commission held to have been collected by the petitioner in violation of one of his filed rules and regulations. It was contended that such order was unlawful in that, the water system being located entirely within the corporate limits of a municipality, the Commission is possessed of no jurisdiction over the rates and charges of such system. Petition for writ of review was denied.

9. *T. R. LePage et al.* vs. *Railroad Commission.*

This was a petition for a writ of review to annul a decision of the Railroad Commission authorizing the transfer of certain public utility properties. It was contended that the Commission was without jurisdiction in the matter, in that the properties involved had not been dedicated to public use, and that the consumers received service under private contracts. The petition was denied.

INTERSTATE COMMERCE COMMISSION.

1. *Western Railroad Rate Increase Application* (*Ex parte* 87).

This involves an application by the common carrier railroads in what is known as the Western Group Territory, seeking an increase in all freight rates sufficient to furnish a net return of five and three-quarters per cent on the value of the railway properties of the carriers. By a supplemental request, the carriers asked for an advance of five per cent in their freight revenues, suggesting that the increases be applied principally to selected commodities. This application has been denied by the Interstate Commerce Commission (113 I. C. C. 3).

CASES PENDING.

At the close of the fiscal year June 30, 1927, the following active litigation was pending:

UNITED STATES SUPREME COURT.

1. *Holmes et al.,* vs. *Railroad Commission.*

This matter involves the jurisdiction of the Railroad Commission over so-called private automotive carriers, petitioner's claim being that they operate solely under private contract, and that they do not operate between fixed termini or over a regular route. The determina-

tion of this matter will probably be controlled by the decision of the United States Supreme Court in the case of *Frost and Frost* vs. *Railroad Commission* (271 U. S. 583, 70 L. Ed. 1101).

CALIFORNIA SUPREME COURT.

1. *Sutter-Butte Canal Company* vs. *Railroad Commission.*

This is a petition for a writ of review to annul a decision and order of the Railroad Commission dealing with certain contracts for the furnishing of water by the petitioner; with the valuation of petitioner's properties for rate-making purposes, and generally, with petitioner's water rates. The contention of the petitioner is that the Commission did not legally pursue its authority, but acted in excess of its jurisdiction in fixing the rate schedules as to contract holders and in fixing the rate base.

2. *Golden Gate Ferry Company* vs. *Railroad Commission.*

This is a proceeding to review a decision of the Railroad Commission holding that the Southern Pacific Company, operating a system of passenger and vehicular ferries upon the bay of San Francisco, is not required to obtain a certificate of public convenience and necessity before commencing to offer a vehicular, as well as a passenger, ferry service between its pier in Alamda on the one hand and San Francisco on the other, and hinges upon the construction of section 50 (*d*) of the Public Utilities Act.

3. *Oakland Terminal and Elevator Corporation* vs. *Mercantile Trust Company of California.*

The plaintiff and appellant warehouse utility issued its promissory note for a period of less than a year, together with its deed of trust to secure the payment of the note, neither the note nor the deed of trust being authorized by the Railroad Commission. The note being unpaid at maturity and recourse having been had to a sale of the property under the deed of trust, the question to be determined is whether such sale should have been enjoined on the ground that the deed of trust had not received the approval of the Commission. As the case involves the construction of certain sections of the Public Utilities Act, the Commission requested and obtained permission to file briefs as *amicus curiae.*

SUPERIOR COURT.

1. *City of Oakland* vs. *E. Ruedy et al.*

This matter involves the authority of a municipality to condemn a railroad right of way longitudinally for street purposes and the jurisdiction of the court to maintain such suit, in advance of the municipality having obtained such authority from the Railroad Commission.

2. *Gardner* vs. *Railroad Commission.*

This case, which has been pending during the last three fiscal years, involves a petition for an injunction in the superior court of the county of Marin, asking that the Railroad Commission be ordered not to interfere with a grade crossing over the tracks of the Northwestern Pacific Railroad Company.

INTERSTATE COMMERCE COMMISSION.

1. *Rate Structure Investigation* (Docket 17000).

This is an investigation to determine the extent and manner in which the rate structure of common carriers subject to the Interstate Commerce Act is in any respect unlawful, and to make, in accordance with law, such changes, adjustments and redistribution in the rate structure as may be necessary to correct any defects found to exist.

2. *In the Matter of the Consolidation of Railroads of Continental United States* (Docket No. 12964).

This proceeding, which has been pending during the last three fiscal years, was initiated pursuant to certain provisions of the Transportation Act of 1920, and relates to possible plans for the consolidation of the railroads of continental United States into "a limited number of systems." The Railroad Commission appeared at the hearings held at San Francisco and Los Angeles, and presented evidence dealing with certain railroad problems in the State of California which, in its opinion, had relation to the matter under consideration by the Interstate Commerce Commission.

3. *Mutual Creamery Company* vs. *American Railway Express Company et al.* (Docket No. 14047).

This is a proceeding which was pending at the close of the last fiscal year, in which the Mutual Creamery Company of Salt Lake, Utah, filed a complaint with the Interstate Commerce Commission, alleging that the rates of the American Railway Express Company maintained for the transportation of milk and cream within the State of California were preferential to milk and cream shippers in California, and discriminatory to Utah interests, and urging the establishment of a uniform schedule of rates. The schedule of rates proposed, if placed in effect, will result in a considerable increase to California shippers on short hauls of approximately 125 miles, more or less. The California Commission intervened in the proceeding and assisted California interests in presenting to the Interstate Commerce Commission testimony and exhibits showing the variable climatic conditions, the good highways, the truck competition, and other influences that justify the present low schedule of rates in effect in California. The matter has been taken under submission by the Interstate Commerce Commission for its decision, and the proposed report of the examiner has been issued.

4. *Application of the Southern Pacific Company et al., to Abandon Operation of Lines in the City of Los Angeles* (Docket No. 3556).

This application, which has been pending during the last three fiscal years, involves questions in connection with the Los Angeles Union Terminal proceedings. The Interstate Commerce Commission decided to retain jurisdiction over this application until the Union Passenger Terminal proceedings were finally determined.

5. *California Growers' and Shippers' Protective League* vs. *The Atchison, Topeka and Santa Fe Railway Company et al.* (Docket No. 19130).

This case involves the petition of growers of California deciduous fruits for a reduction of rates applicable on transcontinental shipments from $1.73 to $1.44. The Commission intervened in 1923 in a prior Interstate Commerce Commission case involving a similar request, which, however, was denied by the Interstate Commerce Commission. In the renewed case the Commission appeared as formal intervener, and presented testimony concerning the financial condition of the principal carriers involved in this fruit movement. A showing of extreme economic distress on the part of the fruit producers was made by the complainant, and the Commission joined in urging a reduction in the rates in the interest of the public of California, and in particular of these fruit growers.

STATISTICAL SUMMARY.

Since the reorganization of the Commission in 1911 it has made 18,568 formal orders and decisions. During that same period it has been a party to 177 court proceedings, of which 11 are still pending. Of these cases, 24 have been decided against the Commission, but included in these are five which have been reversed by later action of the California Supreme Court, four which were test cases, and, although nominally decided against the Commission, in reality sustained the Commission in principle; and one which, though actually sustaining the Commission, went off on a minor technical point.

This leaves a net of 14 cases lost during these 16 years, out of the 177 cases which have been handled. In other words, the formal action of this Commission, in the regulation of public utilities in California as expressed in over 18,500 decisions, has been reversed in but 14 instances, considerably less than one-tenth of 1 per cent.

This record is, we believe, rendered even more impressive by the fact that of the cases lost a large number went off upon such technical questions as dedication to public use, or the status of corporations or persons as public utilities.

PART TWO

STATISTICAL REPORT

LIST OF AUTO STAGES AND AUTO TRUCKS

Names and Business Addresses of Automotive Transportation Companies

Tables 1 to 4, inclusive

LIST OF AUTO STAGES AND AUTO TRUCKS.

List of Officers of Auto Stages and Truck Companies as Reported in Annual Reports Filed with the Railroad Commission for the Year Ending December 31, 1926.

A. B. C. Transportation System.
G. C. Cunningham and E. M. Akins, Owners, 1049 E. Ninth street, Los Angeles, California.

Acme Transfer Company.
A. M. Thatcher, 2320 B street, Sacramento, California.

Adams Motor Drayage.
Ray and Harry A. Adams, Owners, 17 Central avenue, Salinas, California.

Aetna and Pope Stage.
W. B. Twitchell, St. Helena, California.

Akamatsu, F.
966 S. San Pedro street, Los Angeles, California.

Akins, A. M., and Sons.
Lower Lake, California.

Alhambra-Los Angeles Express.
Care Alhambra Transfer and Storage Company, 102 S. Garfield avenue, Alhambra, California.

Allen and Reese Stages.
Sanger, California.

Allison Auto Express.
P. C. Allison, 4238 S. Harvard boulevard, Los Angeles, California.

Alpaugh-Earlimart Auto Line.
E. T. Ryker, Alpaugh, California.

Alpha Auto Company and Auto Truck Service, The.
F. F. Cassidy, President.
George A. Legg, Agent.
Nevada City, California.

Alturas-Bieber Stage Line.
L. M. Estes, Owner, Alturas, California.

Alturas Surprise Valley Stage Line.
Wm. Frailey, Cedarville, California.

Ambler Truck Line, The.
Cleason Ambler, Mesa Grande, California.

American Stage Line.
George M. Brice, Ferndale, California.

Anaheim Transit Company.
A. B. Scutt and O. C. Dwy, 925 N. Zeyn Street, Anaheim, California.

Anaheim Truck and Transfer Co.
J. B. Collings, President and Manager, 112 S. Claudina St., Anaheim, California.

Anderson and Allen.
Knights Landing, California.

Anderson, J. N., Theatre Service.
1733 Gardena avenue, Long Beach, California.

Anderson Truck Service.
R. A. Anderson, Owner, 106 S. Park avenue, Pomona, California.

Annapolis-Stewart's Point Stage.
Edward Mitchell, Annapolis, California.

Arroyo Grande-Oceano Truck Line.
John Bardin, Arroyo Grande, California.

Aruturian, Giegoroff and Sahakian.
M. Aruturian, Manager, 923 East Vernon avenue, Los Angeles, California.

Asbury Truck Co.
F. H. Asbury, President, 4908 S. Alameda street, Los Angeles, California.

Ashton Truck Company.
A. P. Ashton, Owner, 508 E. 3d street, Los Angeles, California.

Associated Transit Company.
F. M. Smith, President.
H. J. Exterstein, General Manager.
G. M. Chapman, Secretary and Auditor.
1000 Mateo street, Los Angeles, California.

Atkinson, Frank.
130 E. 121st street, Los Angeles, California.

Atlantic and S. P. Transfer.
Lee Belden, 601 E. 5th street, Los Angeles, California.

Atlas Mail and Stage.
C. H. Biggs, 2287 Second street, Napa, California.

Atlas Transfer.
E. R. Ketchum, 520 Turner street, Los Angeles, California.

Auburn and Forest Hill Stage Line.
M. C. Langstaff, Forest Hill, California.

Auburn-Georgetown Stage.
C. W. Ganow, Georgetown, California.

Auto Transit Company.
George H. Higgins, President and Manager, 131 Pacific avenue, Santa Cruz, California.

Auto Truck Milk Route
Isaac Shakarian, Manager, R. F. D. No. 1, Box 210, Downey, California.

Azevedo's Auto Stage Line.
Wm. Azevedo, Half Moon Bay, California.

Bacon, C. B.
R. F. D. No. 2, El Cajon, California.

Bacon Service Corporation.
M. W. Bacon, President, Sanger, California.

Baetz Transfer.
Ralph Baetz, 2206 W. Commonwealth street, Alhambra, California.

Bahler, Edw., Auto Truck Freight Line.
Box 450, San Bernardino, California.

Bailey's Palomar Mountain Stage and Truck Line.
Milton Bailey, Owner, 447 Spreckles Bldg., San Diego, California.

Baker, J. F., Auto Line.
Copperopolis, California.

Bakersfield-Glenville Stage.
Guy Ames, Posey, Tulare County, California.

Bakersfield and Los Angeles Fast Freight, Inc.
George M. Duntley, President, 534 Molino street, Los Angeles, California.

Bakersfield-Shafter-Wasco Truck.
A. C. Coolbaugh, Owner, Shafter, California.

Bakersfield Wasco Stage Line.
E. M. Burner, Shafter, California.

Barrere, Jos., Company.
M. D. Savage, President.
Jos. Barrere, Vice President.
46 Shipley street, San Francisco, California.

Bay Cities Transit Company.
H. M. Thompson, President.
J. E. Anderson, Secretary and General Manager.
1726 4th street, Santa Monica, California.

Bay City Hauling Company.
Chew Chick, P. O. Box 130, Menlo Park, California.

Bay Rapid Transit Company.
A. J. Mason and W. E. Spoon, Owners, Monterey, California.

Bay Shore Draying Company.
W. J. Harris, 149 Franklin street, Oakland, California.

Bedwell, A. W., Freight Service.
A. W. Bedwell, Owner, Independence, California.

Bekins Van Lines, Inc.
Milo W. Bekins, President.
H. B. Holt, Secretary.
Reed J. Bekins, Manager.
190 Otis street, San Francisco, California.

Belden-Chester Stage Line.
C. A. Coykendall, Belden, California.

Belden, Lee, Milk Truck.
Lee Belden, Owner, 601 E. 5th street, Los Angeles, California.

Bell & Canfield Stage Line.
A. E. Canfield, Lompoc, California.

Bellflower Truck and Transfer.
T. I. Buie, Manager, 458 S. Alameda street, Los Angeles, California.

Belt Line Express.
Adam Baker, 689 E. 6th street, Riverside, California.

Belvedere Bus.
Barr and Duggan, Belvedere, California.

Belvedere Gardens Bus Line.
A. B. Dunphy, 531 S. Rowan street, Los Angeles, California.

Belyea Truck Company.
B. W. Belyea, Owner, 3128 E. 26th street, Los Angeles, California.

Benedict & Moorman.
114 E. Randolph street, Huntington Park, California.

Besone's Motor Express.
Emil Bonenso, Manager, Box 328, Bakersfield, California.

Big Pine and Zurich Auto Stage Line.
Vernon G. Smith, Big Pine, Inyo County, California.

Bisher's Truck Line.
A. C. Bisher, Ramona, California.

Bishop and Laws Freight Line.
Hess Lumber Co., Bishop, California.

Bishop-Mono Lake Auto Stage Line.
Geo. W. Wilkins and L. B. Larsen.
(Address from June 1 to October 1, Bishop, California.)
(Address from October 1 to June 1, 410 Salem street, Glendale, California.)

Blairsden Stage Company.
Green and Green, Owners, Blairsden, California.

Blue Nose-Happy Camp Auto Line.
David H. Drake, Somes Bar, Siskiyou County, California.

Bluff Truck.
Chauncey Bluff, 4339 Exchange street, Los Angeles, California.

Blythe-Palo Verde Truck Line.
W. H. Pfost, Blythe, California.

Bolton and Bennett Freight Line.
T. J. Bennett, Route A, Box 795, Fresno, California.

Bonillas, M.
Alta Loma, California.

Borderland Express, Incorporated.
W. J. Gibson, Owner, 312 11th street, San Diego, California.

Boronda, N., Mail Stage.
743 Abrego street, Monterey, California.

Boulevard Express, Inc.
C. D. Boynton, President and General Manager.
H. R. Harnish, Secretary.
335 W. G street, San Diego, California.

Bowman Dam Stage.
Jones, Jones and Rupley, Auburn, California.

Boyd and Mattly Stage Company.
Walter Boyd and Chris Mattly, Owners, 1800 Chester avenue, Bakersfield, California.

Bradley-Bryson Stage.
Pasquale Calcagno, Prop., Bryson, California.

Bridgeville-Ruth Auto Stage Line.
J. J. Burgard, Bridgeville, California.

Buffo and Coniglio Auto Stage.
75 W. 4th street, Pittsburg, California.

Burbank Transfer Co.
F. A. Mullens, 269 Orange Grove avenue, Burbank, California.

California Highway Express, Inc.
C. A. Nelson, President.
J. D. Driver, Secretary.
D. C. Bole, Treasurer.
1250 Polk street, San Francisco, California.

California Nevada Stages, Incorporated.
Beverly Gibson, President and General Manager, Union Stage Depot, Sacramento, California.

California Parlor Car Tours, Inc.
R. C. Smith, President.
J. A. Boyd, Secretary.
F. R. Smalley, General Manager.
1205 S. Olive street, Los Angeles, California.

California Transit Company,
W. E. Travis, President and General Manager, 1919 Market street, Oakland, California.

California Truck Company,
Rowe Sanderson, President.
H. B. Safford, Secretary.
1350 E. Sixth street, Los Angeles, California.

Calistoga and Clear Lake Stage Company.
S. Aronson, President, Calistoga, California.

Camillo, A., and Sons.
424 Fernando Court, Glendale, California.

Camp Elwell Stage.
W. F. Drew, Blairsden, California.

Camp Nelson Auto Stage Line.
Minaker & Holloway, Porterville, California.

Compodonico, H., Draying Company.
447 Front street, San Francisco, California.

Campo Seco-Valley Springs Stage Line.
Edward Maher, Campo Seco, California.

Cascada-Huntington Lake Stage Company.
D. A. Munger, General Manager.
C. P. Staal, Auditor.
Business address, Edison Building, Los Angeles, California.

Cassady, R. S., Auto Line.
Blairsden, California.

Central Transit Co.
Colberg and Colberg, 37 E. Weber avenue, Stockton, California.

Chico Butte City-Princeton Stage.
Burke & Hughes, Chico, California.

Chico De Sabla Stage.
W. A. Bailey, 4635 Eighth street, Chico, California.

Chico-Hamilton City-Orland Freight Stage.
John W. Hill, Chico, California.

Chico-Paradise-Sterling City Stage Company.
A. A. Johnson, Manager, Hotel Butte, Chico, California.

Chico-Red Bluff Auto Stage.
M. Bernardo, Union Stage Depot, Chico, California.

Chico-Willows Stage.
F. B. Smith, Union Stage Depot, Chico, California.

Chilcoot-Downieville Stage Line.
Frank Word and Wm. Spaletta, Box 711, Reno, Nevada.

Chino Express and Transfer.
G. E. Galbreath and L. A. Galbreath, Chino, California.

Cienega Auto Stage Line.
A. H. Elliott, Owner, Hollister, California.

Citizens Auto Stage Company.
Frank Davies, Owner, Nevada City, California.

Citizens Truck Company.
A. J. Cochran, President.
E. A. Cochran, Secretary and General Manager.
700 Turner street, Los Angeles, California.

City Auto Express and Drayage Co.
221 Washington street, San Francisco, California.

City Transfer Co.
Gus Temps and Conrad Temps, 138 Turk street, San Francisco, California.

City Transfer and Storage Company.
Mrs. J. H. Meldrim, President.
J. R. Zimmerman, Secretary.
140 Pacific avenue, Long Beach, California.

Clark Bros.
Watsonville, California.

Clark, J. A., Draying Co.
67 Spear street, San Francisco, California.

Clark's Sacramento-Plymouth Auto Stage Line.
S. C. Clark, Owner, Union Stage Depot, 5th and I streets, Sacramento, California.

Cloverdale-Elk-Navarro Stage.
Ledford and Hulbert, Cloverdale, California.

Cloverdale Geyser Stage.
Natalie Bacci, P. O. Box 471, Cloverdale, California.

Coast Auto Lines.
V. C. Gorst, President.
G. W. Bryant, Manager.
Coquille, Oregon.

Coast Line Stages, Inc.
W. W. Allen and J. Olinsky, Fort Bragg, California.

Coast Truck Line.
Rufus E. McConnell, President.
George W. Hanchett, Vice President.
H. P. Merry, Secretary and General Manager.
780 Crocker street, Los Angeles, California.

Coastside Transportation Company.
Edw. Seretto, L. A. Mattei & E. Michel, 75 Fifth street, San Francisco, California.

Colfax-Forest Hill Stage Line.
M. C. Langstaff, Forest Hill, California.

Columbia Stage Line.
Geo. M. Trask, Columbia, California.

Commercial Transfer Co.
Carl Ingalls, 725 Union avenue, Bakersfield, California.

Concord Avon Stage Line.
W. V. Hogan, Concord, California.

Condra, H. A., Mail Stage.
H. A. Condra, Owner, Los Alamitos, California.

Consolidated Furniture Moving Corp'n.
H. Gorman, Secretary, 138 Turk street, San Francisco, California.

Consolidated Motor Freight Lines, Inc.
J. B. McFarland, President.
A. A. McFarland, Vice President, Franklin street Dock, Oakland, California.
C. H. Smith, Secretary and Treasurer, Pier 19, San Francisco, California.

Contra Costa Transit Company.
H. J. Southerland, Fortieth and Shafter avenue, Oakland, California.

Copperopolis & Milton Auto Stage.
Jos. Deschamps, Copperopolis, California.

Corning, Paskenta Auto Service.
Noah Branham, Paskenta, California.

Coronado Transfer.
Robt. E. Hunt, 1023 Orange avenue, Coronado, California.

Cottonwood & Shingleton Stage Company.
H. A. & J. M. Cleland, Cottonwood, California.

Coulterville-Kinsley Auto Line.
Philip Noce, Coulterville, California.

Covelo Stage Line.
W. H. Goforth, Covelo, California.

Covey's Freight and Passenger Service.
David E. Covey, Redding, California.

Craig, E. C.
Santa Ynez, California.

Crescent Mills-Seneca Stage Line.
I. N. Short, Greenville, California.

Cuyama Valley Scenic Stage Line.
O. P. Hazard, Arroyo Grande, California.

Dardanelle Stage Line.
C. F. Whipple, Sonora, California.

Davies Warehouse Co.
126 S. Central avenue, Los Angeles, California.

Darwin and Olancha Stage.
M. V. Butler, Olancha, California.

Demar, Edmond H.
214 W. 2d street, San Dimas, California.

Derkum Stage Lines.
Paul Derkum, Box 388, Bakersfield, California.

Deysher and Lafargue.
San Anselmo, California.

Dinuba Truck Line.
Geo. Harm and H. Frasher, 1235 G street, Fresno, California, P. O. Box 2247.

Donovan Transportation Company.
W. M. Atkinson, President, 103 Emerald street, Redondo Beach, California.

Dorris Stage and Freight Line.
R. D. Dorris, Forest, California.

Dos Palos Passenger & Freight Line.
Carl S. Painter, Dos Palos, California.

Dowd's Fashion Stables.
Chas. I. Dowd, Owner, Mill Valley, California.

Downieville Stage Company.
M. P. Fischer, Downieville, California.

Ducor-California Hot Springs Stage Line.
F. A. Minaker, Ducor, California.

Duffey, Fred.
P. O. Box 442, Fort Bragg, California.

Dunham Stage Lines.
E. Dunham, Owner, 826 Second street, Santa Rosa, California.

Dunsmuir, Mt. Shasta, Weed Stage Line.
Mrs. M. K. Davis, Lessee, Mt. Shasta, California.

Dunsmuir-Sisson-Weed Stage Line.
G. L. Morrison, Dunsmuir, California.

Eagle Rock Auto Express.
Geo. A. Thompson, Owner, 1931 Addison Way, Eagle Rock, Los Angeles P. O., California.

East Bay Drayage & Warehouse Co.
A. Pasteris, Owner, 809 Cedar street, Berkeley, California.

East Bay Theatre Service.

STEAM RAILROADS

List of Steam Railroads and Their Officials

Tables 1 to 6, Inclusive

STEAM RAILROAD AND EXPRESS COMPANIES.

List of Officers of Steam Railroad and Express Companies as Reported in Annual Reports Filed With Railroad Commission for Year Ending December 31, 1926.

Albion Lumber Company Railway.

B. A. McAllister, Vice President.
G. L. King, Secretary.
T. O. Edwards, Auditor.
C. F. Flinn, General Manager, Albion, California.
65 Market street, San Francisco, California.

Amador Central Railroad Company.

Meta J. Erickson, President.
F. G. Athearn, Vice President.
J. A. McPherson, Secretary, Treasurer and General Manager.
Martell, California.

Arcata and Mad River Railroad Company.

James Tyson, President.
H. W. Jackson, Vice President and General Manager.
B. Lane, Secretary.
A. A. Scott, Treasurer.
W. A. Doyle, Auditor.
Vice President's and General Manager's address, Arcata, California.
President, Secretary and Auditor's address, 230 California street, San Francisco, California.

The Atchison, Topeka and Santa Fe Railway Company.

W. B. Storey, President.
E. J. Engel, Vice President.
E. L. Copeland, Secretary and Treasurer.
J. E. Baxter, Auditor.
W. E. Hodges, Vice President.
L. C. Deming, Comptroller.
Edward Chambers, Vice President.
A. G. Wells, Vice President.
80 E. Jackson Boulevard, Chicago, Illinois.

Bay Point and Clayton Railroad Company.

S. H. Cowell, Vice President.
W. H. George, Secretary and General Manager.
No. 2 Market street, San Francisco, California.

Bucksport and Elk River Railroad Company.

J. M. Carson, President.
N. H. Falk, Vice President.
B. N. Bullock, Secretary.
C. S. Carson, Treasurer.
Eureka, California.

The California Arizona and Santa Fe Railway Company.

Leased to The Atchison, Topeka and Santa Fe Railway Company.
W. B. Storey, President.
E. J. Engel, Vice President.
C. W. Jones, Secretary and Treasurer.
L. C. Deming, Comptroller.
J. E. Baxter, Auditor.
80 E. Jackson Boulevard, Chicago, Illinois.

California Central Railroad Company.

W. F. Humphrey, President.
J. A. McCarthy, Vice President and General Manager.
C. B. Flick, Secretary.
715 Standard Oil Building, San Francisco, California.

California Shasta and Eastern Railway Company.

W. J. Walker, President.
F. L. Walker, Vice President.
Leon B. Walker, Secretary and Treasurer.
C. E. Priest, Auditor.
J. C. Rickard, Superintendent, Bella Vista, California.
307 Monadnock Building, San Francisco, California.

California Southern Railroad Company.

W. B. Storey, President.
E. J. Engel, Vice President.
C. W. Jones, Secretary and Treasurer.
J. E. Baxter, Auditor.
80 E. Jackson Boulevard, Chicago, Illinois.
Leased to A. T. & S. F. Ry. Company.

California Western Railroad and Navigation Company.

F. C. White, President.
O. R. Johnson, Vice President.
C. L. White, Secretary and Treasurer.
A. T. Nelson, Auditor.
C. A. Curtis, General Manager.
Fort Bragg, California.

Camino, Placerville and Lake Tahoe Railroad Company.

James Danaher, Jr., President.
John W. Blodgett, Vice President.
S. V. R. Hayes, Secretary and Treasurer.
Camino, California.

Cement, Tolenas and Tidewater Railroad Company.

Robert B. Henderson, President and General Manager.
James A. Keller, Traffic Manager.
H. T. Battelle, Secretary and Auditor.
827 Pacific Building, San Francisco, California.

Central Pacific Railway Company.

Leased to Southern Pacific Company.
B. A. McAllaster, Vice President.
W. F. Bull, Vice President.
T. O. Edwards, Auditor.
G. L. King, Secretary.
65 Market street, San Francisco, California.

Coal Fields Railway.

J. A. Chanslor.
509 Wells Fargo Building, San Francisco, California

Death Valley Railroad Company.

R. C. Baker, President.
C. B. Zabriskie, Vice President, Treasurer and General Manager.
U. S. Miller, Secretary.
H. Escherich, Auditor.
W. W. Cahill, Superintendent, Ludlow, California.
Wilmington, California.

Diamond and Caldor Railway.

Walter Y. Kellogg, President.
Chas. W. Doe, Vice President and Treasurer.
Frank A. Merguir, Secretary.
Wilbur I. Wilson, General Manager.
Chas. W. Doe, Jr., Superintendent, Diamond Springs, California.
15th and Wood streets, Oakland, California.

Fresno Interurban Railway Company.

Leased to The Atchison, Topeka and Santa Fe Railway Company.
W. B. Storey, President.
C. W. Jones, Secretary and Treasurer.
J. E. Baxter, Auditor.
80 E. Jackson Boulevard, Chicago, Illinois.

Holton Interurban Railway Company.

A. B. West, President and General Manager.
B. A. McAllaster, Vice President.
G. L. King, Secretary.
C. M. Scott, Treasurer.
P. Hughes, Auditor.
Room 511, 65 Market street, San Francisco, California.

Howard Terminal Railway.

R. C. Reid, President.
B. D. Adamson, Vice President.
H. G. Ramsan, Secretary.
C. D. Howard, Treasurer and General Manager.
First and Market streets, Oakland, California.

Hueneme, Malibu and Southern Railway Company.

May K. Rindge, President.
R. R. Adamson, Vice President.
A. S. Cooper, Secretary.
Pacific Southwest Bank Building, Los Angeles, California.

Humboldt Northern Railway Company.

J. M. Carson, President.
C. S. Carson, Vice President.
E. S. Murray, Secretary.
H. H. Bell, Treasurer.
Eureka, California.

Indian Valley Railroad Company.

F. Klamp, President.
J. F. Humburg, Vice President.
Elmer E. Paxton, Secretary, Treasurer and General Manager.
W. J. McDonagh, Auditor.
C. L. Eaton, Superintendent, Paxton, California.
341 Mills Building, San Francisco, California.

Inter-California Railway Company.

Leased to Southern Pacific Company.
G. L. King, Vice President and Secretary.
C. M. Scott, Treasurer.
T. O. Edwards, Auditor.
65 Market street, San Francisco, California.

Industrial Terminal Railway Company.

P. Sheedy, President.
L. E. St. John, Secretary.
Geo. A. Bigler, General Manager.
275 Pacific Electric Building, Los Angeles, California.

The Iron Mountain Railway Company.

Wm. F. Kett, President.
W. S. Howard, Secretary and Treasurer.
M. J. Murphy, General Superintendent, Matheson, California.
332 Pine street, San Francisco, California.

Kings Lake Shore Railroad.

Chas. King, President and General Manager.
J. W. Guiberson, Secretary.
Hanford, California.

Laton and Western Railroad Company.

Leased to The Atchison, Topeka and Santa Fe Railway Company.
W. B. Storey, President.
E. J. Engel, Vice President.
C. W. Jones, Secretary and Treasurer.
L. C. Deming, Comptroller.
J. E. Baxter, Auditor.
80 E. Jackson boulevard, Chicago, Illinois.

Los Angeles Junction Railway Company.

Richard Fitzgerald, President.
J. A. McNaughton, Vice President and General Manager.
K. J. Good, Secretary.
Central Manufacturing District, Los Angeles, California.

Los Angeles and Salt Lake Railroad Company.

Carl R. Gray, President.
E. E. Calvin, Vice President.
H. M. Adams, Vice President.
Thomas Price, Secretary.
G. E. Bissonett, General Auditor.
C. C. Barry, Auditor.
F. H. Knickerbocker, General Manager.
573 Pacific Electric Building, Los Angeles, California.

McCloud River Railroad Company.

D. M. Swobe, President and Traffic Manager.
E. F. Murray, Secretary.
W. W. Martin, Auditor, McCloud, California.
216 Southern Pacific Building, San Francisco, California.

Modesto and Empire Traction Company.

W. F. Beard, President and General Manager.
F. O. Hoover, Secretary.
Wm. H. Murray, Auditor.
Modesto, California.

Mount Tamalpais and Muir Woods Railway.

Harry Petrie, President and General Manager.
Wm. Kent, Jr., Vice President.
W. A. Cannons, Secretary and Auditor.
Mill Valley, California.

Minarets and Western Railway Company.

Arthur H. Fleming, President.
C. S. Fleming, Secretary.
B. A. Cannon, General Manager.
Pinedale, California.

Minkler Southern Railway Company.

Leased to The Atchison, Topeka and Santa Fe Railway Company.
W. B. Storey, President.
E. J. Engel, Vice President.
C. W. Jones, Secretary and Treasurer.
L. C. Deming, Comptroller.
J. E. Baxter, Auditor.
80 E. Jackson boulevard, Chicago, Illinois.

Nevada-California-Oregon Railway.

Chas. Moran, President.
S. H. McCartney, Vice President and General Manager.
W. F. Goldsberry, General Superintendent.
Alturas, California.

Nevada County Narrow Gauge Railroad Company.

O. E. Williams, President and General Manager.
J. C. Tyrrell, Secretary.
J. W. Barrows, Superintendent.
Grass Valley, California.

Northwestern Pacific Railroad Company.

W. S. Palmer, President and General Manager.
Paul Shoup, Vice President.
A. H. Payson, Vice President.
G. L. King, Secretary.
W. W. Ellicott, Treasurer.
W. B. Burris, Comptroller.
64 Pine street, San Francisco, California.

Pacific Coast Railway Company.

E. C. Ward, President.
N. D. Moore, Vice President.
E. W. Clarke, Vice President.
E. T. Cooper, Secretary.
H. M. Watkins, Auditor.
W. T. Masengill, Superintendent, San Luis Obispo, California.
618 L. C. Smith Building, Seattle, Washington.

Pajaro Valley Consolidated Railroad Company.

Alexander Hamilton, President.
W. H. Hannam, Secretary.
F. E. Sullivan, General Manager.
F. E. Miles, Auditor.
No. 2 Pine street, San Francisco, California.

Porterville Northeastern Railway Company.

Leased to Southern Pacific Company.
Paul Shoup, President.
G. L. King, Secretary.
T. O. Edwards, Auditor.
65 Market street, San Francisco, California.

Quincy Railroad Company.

W. P. Weber, President.
W. Y. Stoddard, Secretary.
R. L. MacRuther, Auditor.
L. H. Thayer, Superintendent.
Quincy, California.

Richmond Belt Railway.

Leased to Southern Pacific Company and The Atchison, Topeka and Santa Fe Railway Company.
E. S. Pillsbury, President.
H. D. Pillsbury, Vice President.
E. J. Wegscheider, Secretary.

ELECTRIC RAILWAYS

List of Electric Railways and Their Officials

Tables 1 to 5, Inclusive

26—54930

ELECTRIC RAILWAY COMPANIES.

List of Officers of Electric Railway Companies as Reported in Annual Reports Filed with the Railroad Commission for the Year Ending December 31, 1926.

Angeles Flight Railway Company.

R. M. Moore, President.
John Lopizich, Vice President.
L. J. Christopher, Secretary and General Manager.
215 W. Sixth street, Los Angeles, California.

Bakersfield and Kern Electric Railway Company.

A. G. Wishon, President.
A. E. Wishon, Vice President and General Manager.
W. E. Durfey, Secretary.
E. E. Behr, Treasurer.
V. N. Mickleberry, General Superintendent, Bakersfield, California.
1401 Fulton street, Fresno, California.

California Street Cable Railroad Company.

James W. Harris, President, General Manager and General Superintendent.
A. H. Payson, Vice President.
S. Waldo Coleman, Vice President.
George A. Hare, Secretary.
E. B. Stone, General Auditor.
1061 Hyde street, San Francisco, California.

Castro Point Railway and Terminal Company.

(Leased to Richmond-San Rafael Ferry and Transportation Company.)
Anson S. Blake, President.
Edwin T. Blake, Vice President and General Superintendent.
G. Kuppe, Secretary and Treasurer.
5000 Broadway, Oakland, California.

Central California Traction Company.

H. Fleishhacker, President.
M. Fleishhacker, Vice President.
G. W. Peltier, Vice President.
Alden Anderson, Vice President.
A. N. Baldwin, Secretary and Treasurer.
S. M. Smith, General Auditor.
F. W. Webster, General Manager, Stockton.
J. J. Hooper, General Superintendent, Stockton.
9 Main street, San Francisco, California.

City Railway Company of Los Angeles.

(Leased to Los Angeles Railway Corporation.)
H. E. Huntington, Vice President.
G. J. Kuhrts, Vice President and General Manager.
C. A. Henderson, Secretary, Treasurer and Comptroller.
R. O. Crowe, Auditor.
Los Angeles Railway Building, Los Angeles, California.

Fairfax Incline Railroad Company.

Julius Hochfelder, President and Manager, Fairfax, California.

Fresno City Railway Company.

(Leased to Fresno Traction Company.)

Wm. F. Herrin, President.
Paul Shoup, Vice President.
L. A. Lovell, Assistant Secretary and Auditor.
F. W. Webster, General Manager, Fresno, California.
275 Pacific Electric Building, Los Angeles, California.

Fresno Traction Company.

Wm. F. Herrin, President.
Paul Shoup, Vice President.
L. A. Lovell, Assistant Secretary and Auditor.
F. W. Webster, General Manager, Fresno, California.
E. A. Deveraux, General Superintendent, Fresno, California.
275 Pacific Electric Building, Los Angeles, California.

Glendale and Montrose Railway.

G. Henshaw, President.
Loren G. Barton, Vice President.
G. A. Beckett, Secretary and Treasurer.
A. A. Goethals, General Auditor.
P. L. Hatch, General Manager.
General Manager's address, 135 N. Glendale avenue, Glendale, California.
Secretary and Auditor's address, 800 Corporation Building, 724 S. Spring street, Los Angeles, California.

Key System Transit Company.

C. O. G. Miller, President.
W. R. Alberger, Vice President.
F. W. Frost, Secretary and Treasurer.
C. C. Vargas, Comptroller.
Frank Smith, Auditor.
Geo. H. Harris, General Manager.
Key System Building, Oakland, California.

Los Angeles Railway Corporation.

H. E. Huntington, President.
G. J. Kuhrts, Vice President.
C. A. Henderson, Secretary, Treasurer and Comptroller.
G. J. Kuhrts, General Manager.
R. O. Crowe, Auditor.
920 Los Angeles Railway Building, Los Angeles, California.

Market Street Railway Company.

Samuel Kahn, Vice President.
Geo. B. Willcutt, Vice President and Secretary.
A. M. Dahler, Treasurer.
Wm. M. Abbott, Vice President and General Counsel.
M. McCants, General Manager.
58 Sutter street, San Francisco, California.

Pacific Electric Railway Company.

Paul Shoup, President.
L. A. Lovell, Secretary and Auditor.
D. W. Pontius, Vice President and General Manager.
F. L. Annable, General Superintendent.

275 Pacific Electric Building, Los Angeles, California.

Peninsular Railway Company.

Paul Shoup, President.
L. A. Lovell, Assistant Secretary and Auditor.
F. W. Webster, General Manager, San Jose, California.
E. G. Shoup, General Superintendent, San Jose, California.

275 Pacific Electric Building, Los Angeles, California.

Petaluma and Santa Rosa Railroad Company.

E. H. Maggard, President and General Manager.
Thos. Maclay, Vice President.
R. W. Wise, Secretary.
H. W. von Emster, General Auditor.

Petaluma, California.

Pacific Gas and Electric Company.

(Sacramento Street Railway Department.)
W. E. Creed, President.
F. A. Leach, Jr., Vice President and General Manager.
A. F. Hockenbeamer, Vice President and Comptroller.
D. H. Foote, Secretary.
E. W. Hodges, General Auditor.

245 Market street, San Francisco, California.

Sacramento Northern Railway.

G. F. Detrick, President.
Chas. Elsey, Vice President.
J. R. Parke, Secretary and Treasurer.
J. B. Rowray, General Manager.

Union Station, Sacramento, California.

San Diego Electric Railway Company.

W. H. Hannam, President.
W. Clayton, Vice President.
L. D. Webber, Secretary.
H. D. Huff, Auditor.

San Diego, California.

San Francisco, Napa and Calistoga Railway.

James Irvine, President.
Guy C. Earl, Vice President.
John T. York, Vice President.
E. M. Price, Secretary and Treasurer.
H. J. Hoffman, General Auditor.
C. E. Brown, General Manager and Vice President.

General Manager's address, Napa, California.

Secretary's address, 826 Crocker Building, San Francisco, California.

San Jose Railroads.

Wm. F. Herrin, President.
Paul Shoup, Vice President.
L. A. Lovell, Assistant Secretary and Auditor.
F. W. Webster, Vice President and General Manager, San Jose, California.

275 Pacific Electric Building, Los Angeles, California.

San Francisco-Sacramento Railroad Company.

W. Arnstein, President.
H. A. Mitchell, Vice President and General Manager.
H. J. Sutherland, Secretary and Treasurer.
W. T. Richards, Chief engineer.

Fortieth street and Shafter avenue, Oakland, California.

Santa Barbara and Suburban Railway Company.

W. A. Brackenridge, President.
C. A. Edwards, Vice President.
S. M. Kennedy, Vice President.
L. J. Lee, Secretary.
E. G. Miller, Treasurer.
C. P. Staal, General Auditor.
D. M. Trott, Comptroller.
W. E. Erwin, General Superintendent, Santa Barbara, California.

Third and Broadway, Los Angeles, California.

South San Francisco Railroad and Power Company.

W. J. Martin, President.
Wm. M. Abbott, Vice President.
Geo. B. Willcutt, Secretary.
A. M. Dahler, Treasurer.

President's address, South San Francisco, California.

Secretary's address, 58 Sutter street, San Francisco, California.

Stockton Electric Railroad Company.

Paul Shoup, President.
L. A. Lovell, Secretary and Auditor.
M. S. Wade, Treasurer.
F. W. Webster, General Manager, Stockton, California.
J. J. Hooper, General Superintendent, Stockton, California.

275 Pacific Electric Building, Los Angeles, California.

Tidewater Southern Railway Company.

Charles Elsey, President.
Carl Taylor, Vice President.
W. J. Bruen, Secretary.
D. C. DeGraff, Auditor.
E. L. Gamble, Manager, Stockton, California.

922 Mills Building, San Francisco, California.

Visalia Electric Railroad Company.

Paul Shoup, President.
L. A. Lovell, Assistant Secretary and Auditor.
M. S. Wade, Treasurer.
F. M. Webster, General Manager, Exeter, California.
Roy T. Jackson, General Superintendent, Exeter, California.

275 Pacific Electric Building, Los Angeles, California.

TABLE No. 1.—ABSTRACT OF OPERATING MILEAGE OF ELECTRIC RAILWAYS OPERATING IN CALIFORNIA DURING THE YEAR ENDING DECEMBER 31, 1926.

GAS AND ELECTRIC COMPANIES

List of Gas and Electric Companies and Their Officials

Gas and Electric Companies, Tables 1 to 4, Inclusive

GAS AND ELECTRIC COMPANIES.

List of Officers of Gas and Electric Companies as Reported in Annual Reports Filed With the Railroad Commission for Year Ending December 31, 1926.

Arrowhead Utility Company.

Morgan Adams, President.
H. L. Martin, Secretary.
J. B. Van Nuys, General Manager.
1011 I. N. Van Nuys Building, Los Angeles, California.

Bear Valley Utility Company.

Frank L. Talmadge, President.
Mrs. B. T. Ergenbright, Secretary.
C. S. Crain, Vice President.
J. E. Daugherty, General Manager.
Pine Knot, California.

Bay Point Light and Power Company.

W. S. Van Winkle, President, Treasurer and General Manager.
J. T. Fisher, Vice President.
E. N. Van Winkle, Secretary.
Bay Point, California.

Ben Lomond Light Company.

F. A. Dickinson, Manager, Ben Lomond, California.

Bidwell Electric Company.

C. H. Aldridge, Owner.
Fort Bidwell, California.

Big Oak Flat Electric Distribution System.

Yosemite Lodge No. 97, I. O. O. F.
V. J. Repetto, Agent.
Big Oak Flat, Tuolumne County, California.

Alex Brown Electric Plant.

John S. Brown, Manager, Walnut Grove, California.

California Electric Generating Company.

Guy C. Earl, President.
J. B. Black, Vice President and General Manager.
H. P. Wilson, Vice President.
W. H. Spaulding, Secretary.
L. A. Reynolds, Auditor.
225 Bush street, San Francisco, California.

The California-Oregon Power Company.

John J. O'Brien, President.
Darwin G. Tyree, Secretary.
P. O. Crawford, Vice President and General Manager.
T. G. Bradley, General Superintendent.
Medford, Oregon.

California Telephone and Light Company.

W. E. Creed, President.
A. F. Hockenbeamer, Vice President and Treasurer.
F. A. Leach, Jr., Vice President and General Manager.
D. H. Foote, Secretary.
E. W. Hodges, Auditor.
245 Market street, San Francisco, California.

Callayoni Electric Plant.

S. H. McKinley, Lessee, Middletown, California.

Capitola Company.

H. A. Rispen, President.
Thos. W. Mellon, Treasurer.
Capitola, California.

Central Counties Gas Company.

F. W. Hunter, President and General Manager.
W. B. Holmes, Secretary.
E. L. Brandon, General Superintendent.
Visalia, California.

Central Mendocino County Power Company.

Amy R. Long, President.
H. L. Denham, Secretary.
Edward Morris, Vice President and General Manager, Willits, California.

Coast Counties Gas and Electric Company.

S. Waldo Coleman, President.
J. D. Grant, Vice President.
Walker W. Kamm, Secretary and Treasurer.
R. L. Cardiff, Manager.
315 Montgomery street, San Francisco, California.

Coast Valleys Gas and Electric Company.

J. J. O'Brien, President.
E. N. Hoffman, Secretary and Auditor.
Jas. F. Pollard, Vice President and General Manager.
T. W. Snell, General Superintendent.
Salinas, California.

Commercial Land Company.

Thos. W. McManus, President.
Hay Building, Bakersfield, California.

The Diamond Match Company.

W. A. Fairburn, President.
H. F. Holman, Secretary and Treasurer.
W. B. Dean, General Manager.
F. A. Compton, Superintendent.
P. O. Box 1037, Chico, California.

Downieville Electric Light Company.

C. J. York, Owner, Downieville, California.

Elsinore Gas Works.

Agnes Gunder, Manager, Elsinore, California.

Fair Oaks Electric Company.

R. A. Rose, President and General Manager.
C. M. Rose, Vice President.
L. M. Rose, Secretary and Treasurer.
Fair Oaks, California.

Fontana Power Company.

A. B. Miller, President.
J. D. McGregor, Secretary.
Fontana, California.

Fowler Gas Company.

R. J. Mitchell, President.
Edwin Gower, Vice President.
C. A. Patton, Secretary and General Manager.
Fowler, California.

Great Western Power Company of California.

Guy C. Earl, President.
J. B. Black, Vice President.
H. P. Wilson, Vice President.
W. H. Spaulding, Secretary.
Chaffee E. Hall, Assistant Secretary.
L. A. Reynolds, Auditor.
J. B. Black, General Manager.
225 Bush street, San Francisco, California.

Grizzly Electric Company.

R. B. Young, Owner, Portola, California.

Hanford Gas and Power Company.

E. E. Bush, President.
W. B. Holmes, Secretary.
F. W. Hunter, General Manager.
President and Secretary's address, Hanford, California.
General Manager's address, 115 S. Locust street, Visalia, California.

Hazel Gold Mining Company.

I. O. Jillson, President and General Manager.
J. F. Peattie, Secretary.
C. F. Kimball, Treasurer.
1103 Crocker First National Bank Building, San Francisco, California.

Hotchkiss, J. M.

Care Hobbs, Wall and Company, Fife Building, San Francisco, California.

Imperial Valley Electric Power Company.

E. J. Condon, President.
W. F. Hackett, Agent.
603 E. 4th street, Los Angeles, California.

Indian Valley Light and Power Company.

D. J. McIntyre, Greenville, California.

Kohler and Schwartz.

H. O. Kohler and A. Schwartz, Owners.
Washington, Nevada County, California.

Lake County Water and Power Company.

James A. Gunn, Jr., President.
Kelseyville, California.

Lassen Electric Company.

Willis J. Walker, President.
Fletcher L. Walker, Vice President.
L. R. Cady, General Manager.
C. E. Priest, Secretary.
General Manager's address, Westwood, California.

Los Angeles Gas and Electric Corporation.

W. B. Cline, Chairman of the Board.
Wm. Bauthyte, President.
C. S. Vance, Vice President.
W. E. Houghton, Vice President and Treasurer.
T. P. McCrea, Secretary.
H. L. Masser, Gas Engineer.
810 S. Flower street, Los Angeles, California.

Madera Gas Company.

R. W. Miller, President.
A. T. Wilson, Secretary.
A. A. Caldwell, General Manager.
President's and Secretary's address, 433 California street, San Francisco, California.
General Manager's address, Turlock, California.

Midland Counties Public Service Corporation.

A. G. Wishon, President.
W. E. Durfey, Secretary.
E. E. Behr, Treasurer and Comptroller.
E. A. Quinn, General Superintendent.
A. E. Wishon, General Manager.
1401 Fulton street, Fresno, California.

Midway Gas Company.

A. C. Balch, President.
A. P. MacBeth, Executive Vice President.
L. M. Farnham, Vice President and Secretary.
W. E. Robbins, Auditor.
A. E. Peat, Comptroller.
Wm. Moeller, Jr., General Manager.
950 S. Broadway, Los Angeles, California.
P. O. Box 910, Station "C."

Modesto Gas Company.

Frank A. Cressey, Jr., President and General Manager.
J. D. Turner, Vice President.
Josephine Cressey Edleston, Secretary and Treasurer.
818 Tenth street, Modesto, California.

Mount Shasta Power Corporation.

W. E. Creed, President.
F. A. Leach, Jr., Vice President and General Manager.
A. F. Hockenbeamer, Vice President, Treasurer and Comptroller.
D. H. Foote, Secretary.
E. W. Hodges, Auditor.
245 Market street, San Francisco, California.

Napa Valley Electric Company.

Guy C. Earl, President.
J. B. Black, Vice President and General Manager.
R. A. Sharron, Secretary and Treasurer.
225 Bush street, San Francisco, California.

Needles Gas and Electric Company.

R. S. Masson, President and General Manager.
Leta Masson, Secretary.
J. W. Wadsworth, General Superintendent, Needles, California.
1200 Citizens National Bank Building, Los Angeles, California.

Novato Utilities Company.

J. W. Cain, President.
R. H. Trumbull, Vice President.
A. J. Cain, Secretary and Treasurer.
Novato, California.

Oakdale Gas Company.

M. M. Anderson, President.
G. W. Anderson, Secretary-Treasurer and General Manager.
Oakdale, California.

Ojai Power Company.

John J. Burke, President.
M. W. Phillips, Vice President and General Manager.
E. L. Wiest, Secretary and Treasurer.
Ojai, California.

Ontario Power Company.

A. Podrasnik, President.
A. C. Reynolds, Secretary and Treasurer.
Glenn D. Smith, Vice President and General Manager.
Ontario, California.

Pacific Gas and Electric Company.

W. E. Creed, President.
Frank A. Leach, Jr., Vice Uresident and General Manager.
A. F. Hockenbeamer, Vice President-Treasurer and Comptroller.
D. H. Foote, Secretary.
E. W. Hodges, Auditor.
245 Market street, San Francisco, California.

Partington, J. F.

114 S. Eleventh street, San Jose, California.

Peoples California Hydro-Electric Corporation.

M. T. Neff, President.
T. W. Dahlquist, Secretary and Treasurer.
Insurance Exchange Building, San Francisco, California.

Pinole Light and Power Company.

E. M. Downer, President.
L. E. Hart, Secretary.
Geo. A. Dutra, General Manager.
Pinole, California.

Point Arena Electric Light and Power Company.

C. W. Henry, Owner.
Point Arena, California.

Producers Gas and Fuel Company.

Wm. G. Kerckhoff, President.
A. C. Balch, Vice President.
L. M. Farnham, Secretary.
A. E. Peat, Treasurer and Comptroller.
A. B. MacBeth, Vice President.
W. E. Robbins, Auditor.
Wm. Moeller, Jr., General Manager.
P. O. Box 910, Station C, 950 S. Broadway, Los Angeles, California.

Quincy Electric Light and Power Company.

F. G. Gansner, Owner.
Quincy, California.

Riverbend Gas and Water Company.

A. B. MacBeth, President.
C. L. Whitehill, Secretary.
George W. Wiley, Auditor, Dinuba, California.
F. W. Hunter, Vice President and General Manager, Visalia, California.

President and Secretary's address, Visalia, California.

Sacramento Valley Sugar Company.

A. M. Gelston, Manager.

Hamilton City, California.

San Diego Consolidated Gas and Electric Company.

R. J. Graf, President.
W. F. Raben, Vice President.
Gen. Geo. H. Harries, Vice President.
M. B. Fowler, Secretary and Treasurer.
Byllesby Engineering and Management Corporation, General Managers.
L. M. Klauber, General Superintendent.
J. A. Cannon, Auditor.

San Diego Electric Building, San Diego, California.

San Joaquin Light and Power Corporation.

A. G. Wishon, President.
W. E. Durfey, Secretary.
E. E. Behr, Treasurer and Comptroller.
A. E. Wishon, Vice President and General Manager.
A. B. Carpenter, Auditor.
E. A. Quinn, General Superintendent.

1401 Fulton street, Fresno, California.

San Gorgonio Power Company.

R. R. Scarborough, President.
W. T. McAllister, Secretary, 720 Security Building, Los Angeles, California.
A. W. Hazen, Auditor, Banning, California.

Santa Cruz County Utilities.

J. C. Hughes, President and General Manager.
E. H. Russell, Secretary and Treasurer.

President's address, 440 Lake Shore boulevard, Oakland, California.

Santa Maria Gas Company.

James F. Goodwin, President.
L. P. Scaroni, Vice President.
R. E. Easton, Secretary and General Manager.
Paul O. Tietzen, Treasurer.
Chas. W. Hatch, Auditor.
Allen T. Fesler, General Superintendent.

Santa Maria, California.

Snow Mountain Water and Power Company.

E. S. Pillsbury, President.
H. D. Pillsbury, Vice President.
M. A. Harris, Secretary.

216 Pine street, San Francisco, California.

Sierra and San Francisco Power Company.

Leased to Pacific Gas and Electric Company, December 31, 1919.

J. J. O'Brien, President.
Samuel Kahn, Vice President.
A. L. Chickering, Vice President.
Alma L. Ferguson, Secretary.

58 Sutter street, San Francisco, California.

Sorensen, A.

1932 Irving avenue, Oakland, California.

Southern California Edison Company.

John B. Miller, President and Chairman.
W. A. Brackenridge, Senior Vice President.
R. H. Ballard, Vice President and General Manager.
S. M. Kennedy, Vice President.
G. C. Ward, Vice President.
Clifton Peters, Secretary.
E. G. Miller, Treasurer.
C. P. Staal, Auditor.
D. M. Trott, Comptroller.

Third and Broadway, Los Angeles, California.

Southern California Gas Company.

Wm. G. Kerckhoff, President.
A. C. Balch, Vice President.
F. J. Schaffer, General Manager.
L. M. Farnham, Vice President and Secretary.
A. E. Peat, Comptroller and Treasurer.
W. E. Robbins, Auditor.
C. D. Bell, General Superintendent.

950 S. Broadway, Los Angeles, California.

P. O. Box 910, Station "C."

Southern Counties Gas Company of California.

Ferdinand R. Bain, President.
A. Schilling, Vice President.
Charles H. Dickey, Vice President.
A. S. Bradford, Vice President.
Walter S. McFarland, Secretary and Auditor.
T. H. Dudley, Treasurer.
Franklin S. Wade, General Superintendent.

810 S. Flower street, Los Angeles, California.

The Southern Sierras Power Company.

A. B. West, President and General Manager.
W. S. Fisher, Secretary.
L. C. Phipps, Jr., Vice President and Treasurer.
P. R. Ferguson, Auditor.
G. M. Wills, General Superintendent.

Riverside, California.

Stewart, James D.

Auburn, California.

Surprise Valley Electric Light and Power Company.

Thomas B. Sizer, President.
R. H. Stanley, Vice President and Secretary.
C. M. Johnstone, Treasurer.

Cedarville, California.

The Truckee Electric Light and Power Company.

P. M. Doyle, President and General Manager.
P. L. Doyle, Vice President.
K. E. Doyle, Secretary and Treasurer.
Dixon, California.

Truckee River Power Company.

F. S. Pratt, President.
Wm. T. Crawford, Secretary.
Geo. A. Campbell, Manager.
21 Front street, Reno, Nevada.

Tuolumne County Electric Power and Light Company.

Mrs. A. C. Crooks, President.
F. D. Madison, Vice President.
V. W. Vincent, Secretary
H. J. Coffill, General Manager.
Sonora, California.

Turlock Gas Company.

L. H. Susman, President.
C. O. G. Miller, Vice President.
R. W. Miller, Secretary.
A. A. Caldwell, General Manager.
Turlock, California.

Turn Back Creek Light and Power Company.

D. H. Steinmetz, President and General Manager.
Helen Baehr, Secretary.
602 First National Bank Building, San Francisco, California.

Twin Cities Gas Company.

J. M. Berkeley, President.
Earle G. Dole, Secretary.
Banning, California.

Utica Mining Company.

H. G. Stevenson, Secretary.
Balfour Building, San Francisco, California.

Vacaville Water and Power Company.

T. L. Gates, President.
Mrs. S. W. Inglish, Vice President and Treasurer.
W. Z. McBride, Secretary and General Manager.
Vacaville, California.

Vallejo Electric Light and Power Company.

Albert Casper, President and General Manager.
Berdie M. Newman, Secretary.
Vallejo, California.

Valley Natural Gas Company.

A. C. Balch, President.
L. M. Farnham, Secretary.
A. E. Peat, Treasurer and Comptroller.
W. E. Robbins, Auditor.
A. B. MacBeth, Vice President-General Manager.
950 S. Broadway, Los Angeles, California.
P. O. Box 910, Station "C."

Watkins, C. T.

Davis Creek, Modoc County, California.

Weaverville Electric Company.

J. R. Blair, President and General Superintendent.
C. H. Edwards, Secretary.
Weaverville, California.

West Side Natural Gas Company.

Jos. McDonald, President.
J. T. Ryan, Vice President.
J. I. McKean, Secretary.
Taft, California.

Western States Gas and Electric Company.

J. J. O'Brien, President.
Samuel Kahn, Vice President and General Manager.
H. H. Jones, Vice President.
B. F. Wellington, Jr., Secretary and Treasurer.
G. N. Rooker, Manager—Richmond Division.
H. L. Jackman, Manager—Eureka Division.
B. B. Stith, Auditor.
48 N. Sutter street, Stockton, California.

TABLE No. 1.—ABSTRACT OF BALANCE SHEETS OF GAS AND ELECTRIC COMPANIES OPERATING IN CALIFORNIA AS OF DECEMBER 31, 1926.

ABSTRACT OF OPERATING EXPENSES OF CLASS "A" ELECTRIC COMPANIES OPERATING IN CALIFORNIA DURING THE YEAR ENDING DECEMBER 31, 1926.

	Mount Shasta Power Corporation	Ontario Power Company	Pacific Gas and Electric Company	San Diego Consolidated Gas and Electric Company	San Joaquin Light and Power Corporation	Snow Mountain Water and Power Company	Sierra and San Francisco Power Company[1]	Southern California Edison Company
PRODUCTION EXPENSES.								
STEAM POWER GENERATION.								
Superintendence			$72,318 01	$29,272 41	$12,112 19			$64,670 02
Steam production labor			131,985 04	21,698 75	38,857 64			69,543 36
Station labor			151,442 44	39,375 36	61,548 47			130,832 28
Miscellaneous labor			25,872 46	3,101 35	6,137 62			37,821 11
Fuel			749,351 82	481,237 39	407,649 73			1,323,072 05
Water			36,761 45	15,426 44	9,158 44			1,761 24
Supplies and expenses			30,420 87	13,543 77	4,907 84			31,025 47
Maintenance of structures			22,053 13	2,103 70	13,689 73			7,286 12
Maintenance of boiler plant equipment			76,454 61	62,710 11	19,821 45			84,425 93
Maintenance of steam power plant equipment			112,675 16	28,823 50	16,204 65			61,633 19
Maintenance of miscellaneous power plant equipment—steam			3,536 62	1,910 58	964 86			2,619 71
Repairs charged to reserves—credit								
Production rents					600 00			2,064 12
Steam from other sources								
Joint production expenses—debit				78,922 71				
Joint production expenses—credit								
Total steam power generation			$1,412,871 61	$778,126 07	$591,652 62			$1,816,754 60
HYDRAULIC POWER GENERATION.								
Superintendence	$17,278 42		$113,556 03		$11,614 41			$58,593 97
Hydraulic labor	6,839 41	$48 69	135,630 22		7,720 37	$4,215 99		50,895 59
Station labor	51,571 82	6,505 35	199,124 18		60,812 45	10,705 68		177,213 69

Maintenance of hydraulic power plant equipment	9,400 80			2,008 21			220,564 51
Maintenance of miscellaneous power plant equipment—hydro	451 81			718 40			21,322 70
Repairs charged to reserves—credit				[2]9,809 82			[2]9,809 82
Production rents	289 69						102,609 20
Water from other sources	7,037 84						62,335 59
Joint production expenses—debit							
Joint production expenses—credit							[2]152,167 53
Total hydraulic power generation	$126,124 55			$122,485 51			$2,328,943 32

GAS POWER GENERATION.							
Superintendence	$1,773 76						$1,773 76
Fuel labor	6 67						6 67
Station labor	3,341 71						3,341 71
Miscellaneous labor	227 05						227 05
Engine fuel	3,183 50						3,183 50
Water	271 33						271 33
Supplies and expenses	909 61						909 61
Maintenance of structures	450 66						450 66
Maintenance of fuel holders, producers and accessories	13 64						13 64
Maintenance of gas power plant equipment	4,074 88						4,074 88
Maintenance of miscellaneous power plant equipment—gas	3 79						3 79
Repairs charged to reserves—credit							
Production rents	420 00						420 00
Power gas from other sources							
Joint production expenses—debit							
Joint production expenses—credit							
Total gas power generation	$14,676 60						$14,676 60
MISCELLANEOUS PRODUCTION EXPENSES.							
Electric energy from other sources	$140,216 11		$50,263 98	$7,486 42	$7,486 07	$31,215 64	$4,214,768 61
Joint production expenses—debit							2,281,769 88
Joint production expenses—credit				[2]22,458 94			[2]211,887 58
Total miscellaneous production expenses	$140,216 11		$50,263 98	$141,837 48	$7,486 07	$31,215 64	$6,284,650 91
TRANSMISSION EXPENSES.							
Transmission superintendence	$4,597 81			$2,697 46			$144,216 50
Transmission substation labor	19,185 03			654 24			346,817 70
Transmission substation supplies and expenses	3,121 36			9 18	$13 25		45,664 00
Labor and expenses underground transmission lines							
Labor and expenses overhead transmission lines	20,190 42			8,819 92	5 25		401,239 78
Miscellaneous transmission supplies and expenses	10 54			1,045 70			66,715 22
Maintenance of transmission structures	464 79			29 21			46,900 46
Maintenance of transmission substation equipment	4,080 66			535 37			285,794 22
Maintenance of transmission towers and fixtures	189 68						21,328 68
Maintenance of transmission tower line conductors	11,176 21			10 25			76,105 34
Maintenance of transmission poles and fixtures	2,114 32			6,770 88			163,466 78
Maintenance of transmission pole line conductors	2,935 19			9,313 31	52 25		125,318 92
Maintenance of transmission underground conduits							
Maintenance of transmission underground conductors				23 84			23 84
Maintenance of transmission roads and trails	914 53			26 34			19,970 29
Maintenance of miscellaneous transmission capital	362 75			100 77			2,225 28
Repairs charged to reserves—credit							
Transmission rents	22,235 81						27,570 73
Joint transmission expenses—debit							
Joint transmission expenses—credit							
Total transmission expenses	$91,579 10			$30,036 47	$70 75		$1,773,357 74

TABLE No. 4—Continued.

ABSTRACT OF OPERATING EXPENSES OF CLASS "A" ELECTRIC COMPANIES OPERATING IN CALIFORNIA DURING THE YEAR ENDING DECEMBER 31, 1926.

	The Southern Sierras Power Company	Truckee River Power Company[1]	Vallejo Electric Light and Power Company	Western States Gas and Electric Company	Bear Valley Utility Company	Napa Valley Electric Company	Total
DISTRIBUTION EXPENSES.							
Distribution superintendence	$23,551 29		$4,597 82	$22,493 54		$740 53	$1,244,598 66
Distribution substation labor	17,292 15		1,890 23	22,708 11		1,630 20	1,049,340 99
Distribution substation supplies and expenses	7,351 74		191 58	10,040 57		487 41	204,934 39
Storage battery supplies and expenses							
Distribution maps and records	9,860 46			8,167 01		65 31	129,666 54
Labor and expenses underground distribution lines			1 14	597 84			61,383 40
Labor and expenses overhead distribution lines	18,261 08		235 45	2,643 78	$565 53	862 40	472,896 47
Removing and resetting transformers	535 28		183 06	4,124 26	31 56	470 14	390,868 85
Changing services	3,104 30		58	4,533 69	16 78	214 69	119,024 55
Removing and resetting meters	17,231 03		1,824 71	20,153 60	91 65	627 28	337,310 35
Meter department salaries and expenses	10,872 09		1,404 41	19,741 60		230 09	335,217 77
Miscellaneous distribution expenses	3,285 91		11,318 26	2,711 15	1,919 81	537 31	212,628 17
Maintenance of distribution structures	4,199 70		164 77	624 20		22 16	85,396 75
Maintenance of distribution substation equipment	26,286 55		157 90	5,185 30	1 87	1,151 30	511,836 85
Maintenance of storage batteries							
Maintenance of distribution poles, towers and fixtures	19,921 25		2,334 19	14,774 88	122 74	2,453 54	615,911 95
Maintenance of distribution overhead conductors	10,983 97		999 00	13,453 62	275 49	760 92	467,645 02
Maintenance of distribution underground conduits			2 50	87 67			26,934 93
Maintenance of distribution underground conductors				1,273 58			130,756 74
Maintenance of line transformers	9,998 47		71 36	15,651 82	[2] 41	119 50	407,552 68
Maintenance of services	10,666 70		924 82	3,675 50	43 14	600 33	205,810 10
Maintenance of consumers' meters	2,172 87		479 95	2,718 30	15 71	1 00	78,718 19
Maintenance of miscellaneous distribution capital	3,266 65		906 59	3,214 92		629 02	49,415 66
Repairs charged to reserves—credit				[2]1,864 88			[2]1,864 88
Distribution rents	6,762 67					103 10	55,926 39
Joint distribution expenses—debit							
Joint distribution expenses—credit							
Total distribution expenses	$205,604 16		$27,688 32	$176,710 06	$3,081 87	$11,706 23	$7,191,909 52
UTILIZATION EXPENSES.							
Inspection—consumers' premises	$751 17			$10,848 83		$46 28	$386,557 78
Commercial lamps—operation				4,707 82			9,485 56
Municipal street lamps—operation	2,455 52		$516 08	8,197 55	$230 36	68 05	285,098 82
Municipal lighting—miscellaneous	11 13			714 08	31 88	48 59	15,456 78
Maintenance of installations on consumers' premises	7,877 97		20 13	3,145 67		[2] 62 59	129,971 50
Maintenance of commercial lamps and lamp equipment				776 85			770 99
Maintenance of street lighting equipment	1,345 23		1,762 94	5,478 13	7 27	147 45	192,518 02
Maintenance of leased appliances							11 15
Maintenance of miscellaneous utilization capital							[2]128 52
Repairs charged to reserves—credit							
Total utilization expenses	$12,441 02		$2,299 15	$33,868 93	$269 51	$247 78	$1,019,742 08

Commercial Department Expenses.							
Commercial general labor	$43,447 84		$7,395 90	$18,056 01		$365 52	$943,660 32
Commercial books and contracts	18,767 18			18,743 66		245 00	811,987 59
Meter reading and collecting	27,852 50		2,678 90	30,210 34	$286 86	891 65	901,864 45
Commercial rents	4,016 63					140 00	134,335 10
Commercial supplies and expenses	11,226 91			8,395 13		583 17	619,452 31
Agents' commissions							1 00
Total commercial expenses	$105,311 06		$10,074 80	$75,405 14	$286 86	$2,225 34	$3,411,300 77
New Business Expenses.							
New business management salaries	$4,534 75			$6,097 76		$619 34	$299,094 91
New business advertising	10,652 05		$1,790 54	5,838 03	$255 40	26 92	107,884 03
Demonstrating, canvassing and soliciting	30,058 35		700 54	12,204 95		546 50	649,173 48

[2] Credit item.
[3] Steam sales expense.

TABLE No. 4—Continued.

ABSTRACT OF OPERATING EXPENSES OF CLASS "B" ELECTRIC COMPANIES OPERATING IN CALIFORNIA DURING THE YEAR ENDING DECEMBER 31, 1926.

	Fontana Power Company	Fort Bragg Electric Company	Lassen Electric Company	Needles Gas and Electric Company	Ojai Power Company
PRODUCTION EXPENSES.					
Superintendence	$1,200 00	$1,282 50			
Labor		2,249 97		$4,739 08	
Fuel					
Supplies and expenses				1,748 28	
Maintenance of structures	187 82			17 73	
Maintenance of plant and equipment	117 67	6 27		2,757 84	
Repairs charged to reserves—credit					
Production rents	4,178 41				
Steam from other sources					
Joint operating expenses—debit					
Joint operating expenses—credit					
Maintenance dams, penstocks, etc.					
Water from other sources					
Engine fuel				5,488 84	
Power gas from other sources					
Electric energy from other sources	23,871 94	13,457 11	$20,170 57		$25,852 03
Total production expenses	$29,555 84	$16,995 85	$20,170 57	$14,751 77	$25,852 03
TRANSMISSION EXPENSES.					
Superintendence			$231 50		
Transmission labor and expenses			270 70		
Maintenance transmission structures					
Maintenance transmission system		$718 36	242 65		
Repairs charged to reserves—credit					
Transmission rents	$17,559 79				
Joint operating expenses—debit					
Joint operating expenses—credit					
Total transmission expenses	$17,559 79	$718 36	$744 85		
DISTRIBUTION EXPENSES.					
Superintendence		$1,282 50	$1,231 50		$770 00
Distribution substation labor and expenses			15 96		232 18
Storage battery supplies and expenses					
Labor and expenses distribution lines			231 50		20 62
Removing and resetting transformers		6 12	33 40	$19 03	141 01
Removing and resetting meters		149 28	793 54	623 69	261 65
Miscellaneous distribution expenses					166 90
Maintenance of distribution structures		1,351 00	5 00		
ntenance distribution system		11 71	1,075 55	370 69	1,488 01

Maintenance of consumers' meters				50 69	160 14
Maintenance of miscellaneous distribution capital					
Repairs charged to reserves—credit					
Distribution rents			5 00		86 61
Joint operating expenses—debit					
Joint operating expenses—credit					
Commercial lamps operation and maintenance		155 95		916 00	
Maintenance of miscellaneous utilization capital					
Total distribution expenses		$2,956 56	$3,391 45	$1,980 10	$3,327 12
COMMERCIAL EXPENSES.					
Commercial department supplies and expenses		$2,862 16	$5,398 59	$1,124 39	$1,383 40
New business expenses			689 04	109 00	321 22
Total commercial expenses		$2,862 16	$6,087 63	$1,233 39	$1,704 62
GENERAL AND MISCELLANEOUS EXPENSES.					
Pay and expenses of general officers	$419 55		$1,812 16	$4,470 00	$1,315 64
Pay and expenses of other general office employees	28 33	$525 00	217 99	1,890 00	1,103 56
General office supplies and expenses		353 44	951 75	1,090 00	1,114 90
Law expenses		210 00	50 00		
Insurance		311 39	91 64	871 97	157 20
Injuries and damages					600 00
Relief and welfare work		574 82		275 00	
Regulatory commission expenses					
Other miscellaneous expenses		525 00		392 40	172 92
Maintenance miscellaneous structures and equipment					
Repairs charged to reserves—credit					
Depreciation expenses	11,718 31	4,051 58	8,577 84	4,564 30	3,001 80
Depreciation adjustments			2,633 03		
Joint operating expenses—debit					
Joint operating expenses—credit					
Total general and miscellaneous expenses	$12,166 19	$6,551 23	$14,334 41	$13,553 67	$7,466 02
RECAPITULATION OF EXPENSES.					
Production expenses	$20,555 84	$16,995 85	$20,170 57	$14,751 77	$25,852 03
Transmission expenses	17,559 79	718 36	744 85		
Distribution expenses		2,956 56	3,391 45	1,980 10	3,327 12
Commercial expenses		2,862 16	6,087 63	1,233 39	1,704 62
General and miscellaneous expenses	12,166 19	6,551 23	14,334 41	13,553 67	7,466 02
Total operating expenses	$59,281 82	$30,084 16	$44,728 91	$31,518 93	$38,349 79

TABLE No. 4—Continued.

ABSTRACT OF OPERATING EXPENSES OF CLASS "A" GAS COMPANIES OPERATING IN CALIFORNIA DURING THE YEAR ENDING DECEMBER 31, 1926.

	San Diego Consolidated Gas and Electric Company	San Joaquin Light and Power Corporation	Santa Maria Gas Company	Southern California Gas Company	Southern Counties Gas Company of California	Truckee River Power Company[2]	Western States Gas and Electric Company	Total
PRODUCTION EXPENSES.								
MANUFACTURED GAS PRODUCTION.								
Production superintendence	$20,926 79	$625 24		$15,541 70	$3,402 46		$6,317 07	$382,782 71
Production labor	88,037 34	8,318 12		143,529 39	17,477 85		32,551 19	1,806,146 80
Fuel for steam	239 46	50 94		101,047 98	10,689 18		1,100 00	389,116 13
Fuel for gas	438,939 68	21,909 82		454,741 76	584 51		125,787 39	6,905,756 72
Miscellaneous production supplies and expenses	52,718 96	5,863 86		27,986 13	5,873 77		8,092 51	804,437 41
By-products production labor	12,990 22							56,082 61
By-products production supplies and expenses	977 79							30,465 65
Maintenance of production structures	966 38	216 58		1,738 10	38 37		645 41	62,204 02
Maintenance of boiler plant equipment	17,091 43	1,188 80		8,876 80	1,987 03		2,008 55	155,818 18
Maintenance of production equipment	35,853 49	448 52		25,262 64	2,905 88		7,221 74	471,847 39
Maintenance of storage equipment	5,369 50	13 67		1,463 99	14 83		2,769 29	73,869 26
Maintenance of miscellaneous production equipment	523 68	566 85		842 61	2,230 57		817 76	22,201 86
Maintenance of by-products structures and equipment	7,397 97			1,035 02				18,815 57
Repairs charged to reserves—credit								
Production rents		15 00						1,260 50
Steam from other sources								
Joint production expenses—debit								
Joint production expenses—credit	[1]40,659 42			[1]474,600 11			[2]210 54	[1]516,117 22
Total manufactured gas production	$641,373 27	$39,217 40		$307,466 01	$45,204 45		$187,100 37	$10,664,687 59
NATURAL GAS PRODUCTION.								
Production superintendence			$98 84				$1,584 07	$13,859 56
Operating gas wells							16,393 82	19,209 45
Operating field collecting system			83 52		$14 00			4,246 49
Operating field measuring stations			18 77		99 60			48,501 38
Miscellaneous production expense			24 12				373 28	18,338 65
Maintenance of production structures							384 44	3,520 91
Maintenance of gas wells and equipment							1,787 34	3,872 66
Maintenance of field collecting system			52 52		207 05			8,485 22
Maintenance of field measuring equipment			47 26		172 96			3,335 92
Maintenance of production roads and trails								933 33
Maintenance of miscellaneous production equipment					3 80		418 79	897 15
Repairs charged to reserves—credit								
Production rents								17 59
Joint production expenses—debit								
Joint production expenses—credit							[1]1,146 84	[1]124,728 47
Total natural gas production			$325 03		$497 41		$19,764 90	$489 84

MISCELLANEOUS PRODUCTION EXPENSES.								
Gas from other sources		$120,430 30	$63,172 19	$3,785,096 52	$2,143,986 41			$9,536,969 98
TRANSMISSION EXPENSES.								
Transmission superintendence			$3,470 88	$2,567 42	$7,572 74		$1,019 35	$91,197 23
Operating compressor stations			16,429 86	13,395 71	98,995 58		2,965 37	553,211 58
Operating transmission lines			150 08	2,445 29	15,536 12		777 58	54,820 50
Operating transmission meter and regulator stations			1,075 35	10,636 74	40,956 91		754 58	95,045 91
Miscellaneous transmission expenses			21 52	28 70	6,907 22		102 79	26,084 68
Maintenance of transmission structures			403 60	25 04	1,069 33		4 80	15,925 87
Maintenance of transmission compressor			1,047 38	75 09	19,428 07		287 64	110,828 78
Maintenance of transmission storage equipment				135 73				224 45
Maintenance of transmission mains			3,030 28	12,570 85	15,111 84		411 29	110,295 83
Maintenance of transmission meter and regulator station equipment			190 36		1,055 46		281 47	6,317 78
Maintenance of transmission roads and trails								3,215 90
Maintenance of miscellaneous transmission equipment				15 16	52 97		6 05	7,197 14
Repairs charged to reserves—credit								
Transmission rents				602 30				12,357 40
Joint transmission expenses—debit								
Joint transmission expenses—credit					[1]55,889 04			[1]271,917 24
Total transmission expenses			$25,819 31	$42,498 03	$150,797 20		$6,610 92	$814,805 81
DISTRIBUTION EXPENSES.								
Distribution superintendence	$2,440 00	$7,842 43	$3,973 53	$61,016 45	$18,720 77		$6,946 48	$455,419 15

TELEPHONE AND TELEGRAPH COMPANIES

List of Telephone and Telegraph Companies
and Their Officials

Tables 1 to 4, inclusive

TELEPHONE AND TELEGRAPH COMPANIES.

List of Officers of Telephone and Telegraph Companies, as Reported in Annual Reports Filed With the Railroad Commission for the Year Ending December 31, 1926.

Adelaide Rural Telephone Company.
Jas. W. Lemen, General Manager.
Mrs. Hettie Lemen, Secretary.
Adelaide, California.

Alpaugh Telephone and Telegraph Company.
John H. Callister, Secretary, Alpaugh, California.

Antelope Valley Telephone Company.
O. F. Goodrich, Owner.
Ernest Irwin, Auditor.
Lancaster, California.

Arrowhead Utility Company.
Morgan Adams, President.
Harry L. Martin, Secretary.
J. B. Van Nuys, General Manager.
1015 Van Nuys Building, Los Angeles, California.

Associated Telephone Company.
S. L. Odegard, President.
A. L. Hart, Secretary.
Sam R. Heffley, Vice President and General Manager.
Long Beach, California.

Aukum Telephone Company.
J. L. Harris, Owner, Aukum, California.

Bandy, G. W.
Kernville, California.

Bass Telephone Line.
Geo. W. Johnstone, Manager, Montgomery Creek, California.

Bear Valley Utility Company.
Frank L. Talmadge, President.
Mrs. B. P. Ergenbright, Secretary.
J. E. Daugherty, General Manager.
Pine Knot, California.

Berg, Lily, Telephone Line.
Lily Berg, Owner, Llanada, California.

Bigelow Telephone Company.
H. E. Bigelow, Owner, O'Neals, California.

Baird Telephone Company.
D. H. Briggs, Owner, Baird, California.

Bridgeport Telephone and Telegraph Company.
A. S. Bryant, Owner, Bridgeport, California.

Butte Meadows Telephone and Telegraph Co.
J. W. Roper, Manager, Box 907, Chico, California.

Butte Valley Telephone Company.
Jos. Hessig, President and Manager.
J. H. Hessig, Secretary.
Chiloquin, Oregon.

Butts, Wm., Telephone Company.
E. J. Graham, Manager, Hollister, California.

Calaveras Telephone Company.
J. A. Tower, Owner, Felix, California.

Coast Telephone Company.
J. R. Fort, Owner, Cambria, California.

Camp Creek Telephone Company,
Joe Franklin, Secretary, Hornbrook, California.

Campbell Telephone Company.
Ed. Howes, President.
A. C. Keesling, Secretary.
Campbell, California.

Capay Valley Telephone System.
Willard F. Smith, Owner, Brooks, California.

Chileno Valley Telephone Company.
J. L. Goatley, President.
Chas. G. Martin, Vice President.
Americo J. Bloom, Secretary and Treasurer.
R. F. D. No. 2, Box 188, Petaluma, California.

Coachella Valley Home Telephone and Telegraph Company.
J. W. Newman, President.
Mrs. M. E. Alderman, Vice President.
W. D. Gibbs, Secretary and General Manager.
Thermal, California.

Colusa County Telephone Company.
J. F. Campbell, President.
F. H. Crosby, Secretary and Treasurer.
N. C. Steele, General Superintendent, Colusa, California.
405 Sansome street, San Francisco, California.

Colorado River Telephone Company.
M. I. Kamrar, President.
LeRoy Kamrer, Vice President.
S. D. Kamrar, Secretary, Treasurer and General Manager.
Blythe, California.

Colfax Telephone Exchange.
Mrs. S. K. Morrison, Owner.
Carl G. Bell, Manager.
Colfax, California.

Corona Home Telephone and Telegraph Company.
Joy G. Jameson, President.
W. S. Clayson, Vice President.
Jas. S. Campbell, Secretary and General Manager.
116 E. Sixth street, Corona, California.

Coos and Curry Telephone Company.
Chas. Hall, President and General Manager.
Ernest C. Smith, Vice President.
C. E. Hickman, Secretary.
E. W. Gates, General Superintendent.
Marshfield, Oregon.

Corcoran Telephone Exchange.
C. H. Glenn, President and Manager, Corcoran, California.

Consolidated Utilities Company.
Lon Dunn, President and General Manager.
Rex Dunn, Vice President.
Estella Wilson, Secretary and Auditor.
Compton, California.

Del Norte Peoples Telephone Company.
Crescent City, California.

Delta Telephone and Telegraph Company.
P. J. Huth, President.
H. H. McClain, Vice President.
H. D. Kercheval, Secretary and General Manager.
Courtland, California.

Dos Palos Telephone Company.
D. A. Leonard, President.
J. E. McClelland, Vice President.
E. W. Heston, Secretary and General Manager.
Dos Palos, California.

Downey Home Telephone and Telegraph Company.
Arthur L. Darby, President.
Orrin Gallup, Vice President.
A. Wardman, Secretary.
E. A. Carter, Auditor.
Whittier, California.

Ducor California Hot Springs Telephone and Telegraph Co.
L. S. Wingrove, President and General Manager.
F. M. Carlisle, Vice President.
Bert Baxley, Secretary and Treasurer.
Ducor, California.

Eel River and Southern Telephone Company.
P. Calanchini, President.
E. M. Loveland, Secretary and General Manager.
Ferndale, California.

Elk Grove Telephone Company.
R. J. Baker, President.
Edw. L. Garrish, Secretary.
Ross L. Franks, General Manager.
Elk Grove, California.

Evans Telephone Company, The.
J. H. Evans, Owner, Patterson, California.

Exeter Telephone and Telegraph Company.
Wm. B. De Carteret, Owner, Exeter, California.

Fall River Valley Telephone Company.
J. C. Lamburth, President, McArthur, California.

Farmington Telephone Association.

W. D. Mobley, President.
J. D. Todo, Manager.
Farmington, California.

Federal Telegraph Company.

Ellery W. Stone, President.
R. H. Smith, Vice President.
Augustus Taylor, Secretary.
J. E. Godcharles, Treasurer and Auditor.
802 Hobart Building, San Francisco, California.

Forest Hill Telephone Exchange.

M. C. Langstaff, Manager, Forest Hill, California.

Follows Toll Line.

Mrs. R. M. Follows, Azusa, California.

Fowler Independent Telephone Company.

Jas. L. Mathews, President.
L. R. Brown, Vice President.
F. O. Bain, Secretary.
J. D. Magill, General Manager.
Fowler, California.

Gilroy Telephone Company.

H. R. Chesbro, President.
E. J. Chesbro, Vice President.
C. R. Willson, Secretary.
K. L. McAtee, Manager, Gilroy, California.
W. E. Hills, Auditor, 467 Mills Building, San Francisco, California.

General Grant Park Telephone Company, Inc.

B. L. Hughes, Secretary.
310 Bank of Italy Building, Visalia, California.

Green, G. F.

Ripon, Cailfornia.

Guglielmetti Telephone Company.

W. J. Guglielmetti, General Manager, Petaluma, California.

Happy Valley Telephone Company.

Geo. W. Stowell, President.
A. L. Walker, Vice President.
L. D. Walker, Secretary.
Olinda, California.

Home Telephone Company, The, of Etiwanda.

O. H. Price, President.
Thomas Donnelly, Secretary.
Etiwanda, California.

Home Telephone Company, The.

W. H. Buster, President and General Manager.
Oscar Robinson, Secretary.
Sycamore, California.

Home Telephone Company of Covina.

J. O. Houser, President.
J. R. Elliott, Vice President.
Mrs. L. M. LaFetra, Vice President.
F. H. Wright, Secretary and General Manager.
Covina, California.

Home Telephone and Telegraph Company of Pasadena.

H. D. Pillsbury, President.
N. R. Powley, Vice President and General Manager.
James T. Shaw, Vice President.
A. H. Griswold, Vice President.
B. C. Carroll, Vice President.
D. P. Fullerton, Vice President.
T. V. Halsey, Secretary.
Geo. J. Petty, Treasurer.
C. S. Casassa, General Auditor.
140 New Montgomery street, San Francisco, California.

Huntington Beach Telephone Company.

E. H. Cookingham, President, Treasurer and General Manager.
R. Ewart, Secretary.
602 Main street, Huntington Beach, California.

Interstate Telegraph Company.

A. B. West, President and General Manager.
A. S. Cooper, Vice President.
W. E. Porter, Secretary.
P. R. Ferguson, Auditor.
H. A. Vanloon, General Superintendent, Bishop, California.
777 W. Eighth street, Riverside, California.

Ione Valley Telephone Line.

A. V. Prouty, Manager, Ione California.

Keeler-Darwin Telephone Line.

Fred M. Hess, Owner, Bishop, California.

Kent Telephone System.

P. E. Garmire, Meridian, California.

Kenwood Rural Telephone Company.

S. A. Whipple, President.
Geo. K. Moyle, Secretary, Treasurer and General Manager.
Kenwood, California.

Kerman Telephone Company.

F. F. Matenaers, President and General Manager.
Jacob Mansar, Vice President.
Mrs. Mary R. Sandell, Secretary.
Kerman, California.

Kern Mutual Telephone Company.

T. F. DeLury, President.
Phil Blankenship, Assistant General Manager.
T. A. Brooks, Secretary.
A. R. Young, Auditor.
J. T. Maguire, Jr., General Manager, Taft, California.
625 Market street, San Francisco, California.

Klamath Telephone and Telegraph Company.

J. H. Hessig, Manager, Chiloquin, Oregon.

Knights Landing Telephone Exchange.

O. Reinhardt, Owner, Woodland, California.

Lakeport and Blue Lakes Telephone Association.

M. Wombold, President and General Manager, Lakeport, California.

Lake County Telephone Association.

Hugh Warring, Owner, Piru, California.

Washington Water and Light Company.
Eli Fourness, President.
R. C. Waring, Secretary.
Broderick, California.

Watson Water Company.
Romola, Riverside County, California.

Wawona Park Water Company.
Jas. W. Brewster, Owner, Route 3, Box 797, 3159 Seminole avenue, Tweedy Abbott road, Los Angeles, California.

Weaverville Town Water Works.
Emma C. Young, Weaverville, California.

Western States Gas and Electric Company.
Stockton, California.

Western Water Company.
W. A. Howell, President.
F. M. Worthington, First Vice President.
T. M. Young, Second Vice President and General Manager.
W. F. Whittaker, Secretary.
G. R. Peckham, Auditor.
Box 289, Taft, California.

West Riverside Canal Company.
E. L. Williamson, President and General Manager.
R. C. Gill, Secretary and Treasurer.
Box 163, Riverside, California.

Westmoreland Water Company.
F. T. Cook, Owner, Westmorland, California.

West Side Water Company.
J. I. Wagy, Owner, Maricopa, California.

West San Joaquin Valley Water Company.
J. Leroy Nickel, President and General Manager.
W. H. Trump, Secretary.
Miller and Lux, Inc., Treasurer.
1114 Merchants Exchange Building, San Francisco, California.

Whittier Water Company.
J. L. Scott, President.
J. B. Chaffey, Vice President.
Thos. H. Foulds, Manager.
A. M. Chaffey, Secretary.
Whittier, California.

Willowbrook Water Company, Inc.
Chas. T. Alleman, President.
Geo. M. Long, Vice President.
J. L. Sherrin, Secretary.
Willowbrook, California.

Windsor Water Works.
J. F. Philpott, Manager, Windsor, California.

Wilmington Water Company.
Edwin W. Sandison, President.
L. J. Bratager, Vice President.
Mary S. Bovard, Secretary.
350 Avalon boulevard, Wilmington, California.

Winton Water Works.
L. B. Read, Manager, Winton, Merced County, California.

Wiseman, I. F.
Jenner, California.

Woodlake Water Company.
James F. Mains, President, Woodlake, California.

Yolo Water and Power Company.
A. C. Huston, President.
Bruce Brubaker, Secretary and Treasurer.
L. J. Shuman, General Manager.
Woodland, California.

Yolo County Consolidated Water Company.
(Leased to Yolo Water and Power Company.)
Bruce Brubaker, Secretary, Woodland, California.

Yucaipa Domestic Water Company.
G. A. Atwood, President.
J. H. Logie, Secretary.
Redlands, California.

TABLE No. 1.

ABSTRACT OF BALANCE SHEETS OF WATER COMPANIES OPERATING IN CALIFORNIA AS OF DECEMBER 31, 1926.

	Abrott and Booth	Agua Caliente Water Works	Alexander Home Garden Water System	Anderson Canal Company	Mattie E. Alderman	Anderson Water Company	Aptos Water Works	Arrowhead Utility Company[1]

WHARF COMPANIES

List of Wharf Companies and Their Officials

Tables 1 and 2

WHARF COMPANIES.

List of Officers of Wharf Companies as Reported in Annual Reports Filed With the Railroad Commission for Year Ending December 31, 1926.

Albion Lumber Company Wharf.
C. F. Flinn, Manager, Albion, California.
T. O. Edwards, Auditor, S. P. Building, San Francisco, California.

Antioch Wharf Company.
R. M. Beede, Manager, Antioch, California.

Birds Landing Wharf.
Arthur Engell, Birds Landing, California.

Blinn, L. W., Lumber Company, The.
C. G. Lynch, General Manager.
W. A. Bassett, Auditor.
2501 S. Alameda street, Los Angeles, California.

California Wharf and Warehouse Company.
W. L. Shaw, Vice President, Balfour Building, San Francisco, California.

Clarksburg Wharf.
Lawler and Cosby, Managers, Clarksburg, California.

Crescent City Wharf and Dock Company.
Care of Hobbs, Wall and Company, Fife Building, San Francisco, California.

Gardiner Improvement Company.
Mrs. Ida P. Gardiner, President.
L. P. Gardiner, Manager, Isleton, California.

Hammond Transportation Company.
H. W. McLeod, President.
A. P. Van Fossen, Secretary.
2010 S. Alameda street, Los Angeles, California.

Hoffman, H. L.
24 California street, San Francisco, California.

Hueneme Wharf and Warehouse Company.
C. D. Prescott, Manager, Hueneme, California.

Kerckhoff-Cuzner Mill and Lumber Company, The.
Wm. G. Kerckhoff, President.
M. G. Eshman, Secretary.
Guy L. Cuzner, Assistant Secretary.
201-209 Kerckhoff Building, Los Angeles, California.

Chas. R. McCormick Lumber Company of Delaware.
Chas. R. McCormick, President.
Jas. S. Brown, Secretary.
215 Market street, San Francisco, California.

Miller-Jackson-Isham and Son.
Courtland, California.

Outer Harbor Dock and Wharf Company.
E. W. Clark, President.
1220 Union Oil Building, Los Angeles, California.

Point Arena Wharf.

Wells, Russell and Company, Owners.
Tracy G. Russell, President.
1195 Bush street, San Francisco, California.

Redwood Manufacturers Company.

C. J. Wood, President.
W. M. Casey, Manager.
J. J. Rodgers, Auditor.
582 Market street, San Francisco, California.

San Simeon Wharf.

Estate of Phoebe A. Hearst, R. A. Clark, Agent.
410 Hearst Building, San Francisco, California.

Schmeder Wharf.

M. R. Schmeder, Manager.
Foot of E street, Eureka, California.

South San Francisco Terminal Company.

P. J. Shaw, President.
South San Francisco, California.

Southwestern Wharf Company.

M. H. Hellman, President.
Lionel T. Barneson, Vice President.
E. A. Mills, Secretary.
Wesley Cunningham, Auditor.
F. W. Maurer, General Superintendent.
1003 Higgins Building, Los Angeles, California.

Spreckels Brothers Commercial Company.

W. H. Hannam, President.
Lane D. Webber, Secretary.
H. D. Huff, Auditor.
218 Union Building, San Diego, California.

Stearns Wharf Company.

Frank Smith, President and General Manager, Santa Barbara, California.

Ventura Wharf and Warehouse Company.

Ventura, California.

Walnut Grove Wharf.

N. C. Barry, Lessee.
Walnut Grove, California.

Wood, E. K., Lumber Company.

F. J. Wood, President.
C. A. Thayer, Secretary and General Manager.
No. 1 Drumm street, San Francisco, California.

Wright Corporation, The.

486 California street, San Francisco, California.

CARRIERS BY WATER

Carriers by Water and Their Officials

Tables 1 to 4, inclusive

CARRIERS BY WATER.

List of Officers of Carriers by Water as Reported in the Annual Reports Filed with the Railroad Commission for the Year Ending December 31, 1926.

Alameda Transportation Company.
W. D. Heryford, Owner, Pier 19, San Francisco, California.

Albach, W. J.
732 Apgar street, Oakland, California.

Albers Brothers Milling Company.
332 Pine street, San Francisco, California.

Anderson, Carl.
227 Bennington street, San Francisco, California.

Anderson Transportation Company.
D. O. Donoghue, Secretary.
1727 Lake street, San Francisco, California.

Antioch-Sherman Island Ferry Company.
C. A. and H. F. Lauritzen, Antioch, California.

Ayres-Whiteside Transportation Company.
John A. Whiteside, Manager.
486 California street, San Francisco, California.

Ball, Fred F.
Antioch, California.

Bay Cities Transportation Company.
A. T. Gibson, President.
J. C. Swain, Secretary.
J. J. Lankin, General Manager.
37 Drumm street, San Francisco, California.

Bay Transport Company.
T. T. C. Gregory, President.
W. C. McDonald, Secretary.
Pier 26, San Francisco, California.

Berkeley Transportation Company.
J. M. Atthowe, Manager.
Pier 9, San Francisco, California.

Bloomfield, W. G.
Antioch, California.

Bolinas Bay Transportation Company.
L. B. Petar, Manager.
Bolinas, California.

Brown, Frank.
Rio Vista, California.

Brown, Geo. A.
Rio Vista, California.

California Transportation Company, The.
A. E. Anderson, President.
W. H. Metson, Secretary.
Pier 3, San Francisco, California.

Channel Lighterage Company.
George V. Freethy.
Third and Channel streets, San Francisco, California.

Christensen, J. P.
1477 Jackson street, San Francisco, California.

Coggeshall Launch Company.
W. Coggeshall, President.
Foot of "F" street, Eureka, California.

Colberg Motor Boats.
Wm. C. Colberg, Manager.
37 E. Weber avenue, Stockton, California.

Crescent City Transportation Company.
Hobbs Wall and Company.
Fife Building, No. 1 Drumm street, San Francisco, California.

Crowley Launch and Tugboat Company.
John L. Crowley, Secretary.
Thos. Crowley, President.
David Crowley, Vice President.
Pier 14, San Francisco, California.

Delta Transportation Company.
Benj. Walters, Manager.
P. O. Box 507, Stockton, California.

Dealers Transportation Company.
C. F. Christensen, President and General Manager.
43 W. Weber avenue, Stockton, California.

Empire Barge Company.
Wm. A. McCauley, Manager.
P. O. Box 434, Stockton, California.

Easdale, David.
Guerneville, California.

Erikson Navigation Company.
A. T. Gibson, President.
J. C. Swain, Secretary.
A. B. Wellington, General Manager.
37 Drumm street, San Francisco, California.

Fay and Son, N.
N. Fay, Manager.
Rio Vista, California.

Frederickson, S.
Pier 5, San Francisco, California.

Freethy, Ellen J.
Third and Channel streets, San Francisco, California.

Golden Gate Ferry Company, The.
A. O. Stewart, President.
Harry E. Speas, Vice President and General Manager.
G. T. McNeely, Secretary.
211 Holbrook Building, 58 Sutter street, San Francisco, California.

Hansen, Peter.
1674 Tenth avenue, San Francisco, California.

Harbor Tug and Barge Company, The.
A. E. Williams, General Manager.
Foot of Franklin street, Oakland, California.

Heringer and Scott.
P. F. Heringer, Manager.
Rio Vista, California.

Higgins Transportation Company.
Mrs. J. W. Higgins, Owner.
Jas. Higgins, Manager.
40 E. Weber avenue, Stockton, California.

Hoffman Transportation Company.
E. A. Hoffman, Proprietor.
1033 W. Flora street, Stockton, California.

Hunt-Hatch Transportation Company.
G. G. Billington, Secretary and Manager.
Second and Franklin streets, Oakland, California.

Independent Steamship Company.
W. S. Scammell, Manager.
Pier 24, San Francisco, California.

Island Oil Transportation Company.
Benjamin Walters, Manager.
P. O. Box 507, Stockton, California.

Island Transportation Company.
Benjamin Walters, Manager.
P. O. Box 507, Stockton, California.

Jensen, Mrs. E. C.
164 Precita avenue, San Francisco, California.

Johansen, Chris.
182 Townsend street, San Francisco, California.

Johnson, Harry.
Pier 24, San Francisco, California.

Johnston, A. F.
2422 Fourth avenue, Sacramento, California.

Juhl Brothers.
998 Innes avenue, San Francisco, California.

Lange Launch Company.
M. Lange, Owner.
Sausalito, California.

Larkin Transportation Company.
D. L. Larkin, President.
F. J. Larkin, Secretary and Manager.
Pier 23, San Francisco, California.

Lewis, Capt. Geo.
No. 10 Embarcadero, San Francisco, California.

Los Angeles-San Francisco Navigation Company.

A. F. Horne, President.

Pier 17, San Francisco, California.

Los Angeles Steamship Company.

M. H. Sherman, President.
H. L. Westbrook, Secretary.
R. J. Chandler, General Manager.
R. P. Dunbar, Auditor.

Wilmington, California.

Mare Island Ferry.

Robert Roahauge, Manager, Georgia street wharf, Vallejo, California.
John T. Whitmire, Secretary, 520 Underwood Building, San Francisco, California.

Martinez-Benicia Ferry and Transportation Company.

Dr. P. B. Fry, President.
J. E. Glenden, Secretary.

Benicia, California.

McCormick Steamship Company.

Chas. R. McCormick, President.

LETTER OF TRANSMITTAL

To His Excellency, C. C. YOUNG,
Governor of California,
Sacramento, California.

In conformity with the provisions of section 12 of the Public Utilities Act herewith is transmitted the report of the Railroad Commission of the State of California for the fiscal period beginning July 1, 1927, and ending June 30, 1928.

Important revisions were made in the rates of all large utilities, except steam railroads, during the period herein reviewed. With the exception of street railways, the rates of all major utilities coming before the Commission were revised downward.

The growth in the business of all utilities, except transportation companies, was maintained at a satisfactory average.

FORMAL MATTERS

The Commission rendered 1647 decisions during the twelve months period. In but two other years (1925–26 and 1922–23) was a larger number of opinions issued. There were 951 formal applications filed, as against 906 the previous year. Formal complaints filed exceeded by 50 per cent those of the preceding year, there being 195 as compared with 130 during the 1926–27 period. The Commission instituted 48 proceedings on its own motion covering a wide variety of subjects, some of first class importance. There were 19 more cases begun on the Commission's motion than in the year before.

In handling the business coming before it the Commission held 998 hearings of all kinds, as against 896 in the previous year. Of these hearings 571 were original and 427 were adjourned, further or rehearings. There were 328 hearings of all kinds conducted at the San Francisco office, and 240 at the Los Angeles office of the Commission. Hearings were held at other widely scattered points throughout the state to the number of 430. In reporting these hearings the Reporting Department of the Commission transcribed 132,377 folios, or a total of 13,237,700 words. This exceeds the previous year's record by 1,226,600 words.

As the year ended the Commission found itself again involved in a number of important proceedings before the Interstate Commerce Commission and the United States Supreme Court. It also has pending before it several major proceedings dealing with rates or the fixing of valuations for condemnation purposes, which have continued over from previous years. These have involved a vast amount of work which will not appear in the record of matters decided during the fiscal period of 1927–28.

The number of public utilities reporting under the jurisdiction of the Commission decreased from 1798 to 1762 during the fiscal year. This was largely due to consolidations or acquisitions of smaller utilities by large holding companies. This was one of the outstanding developments of the year, several large groups of eastern capital being active in the purchase of water, electric and other utility companies.

INFORMAL COMPLAINTS

Informal complaints from patrons against rates, service or practices of public utilities reached the lowest level during 1927–28 of any year since the World War. This is taken as an indication of marked improvement in the relations of the utilities and their patrons. There has been a steady decrease in these complaints since the peak was reached in 1923–24, when there were 6315, until the present fiscal year, when there were but 2601. There were 317 complaints involving disputed bills for service. Deposits made with the Commission of the amount of these contested bills aggregated $47,430.91. All of these were adjusted by the Commission to the general satisfaction of both the complainants and the utilities. The total number of informal complaints investigated by the Commission from January 1, 1912, to June 30, 1928, was 54,446, while the number of disputed bills adjusted was 3851.

Through the medium of informal complaints many matters have been settled satisfactorily without delay and expense to the complainants that would have incurred had it been necessary to bring formal proceedings.

The excellent spirit of cooperation between the California Farm Bureau Federation and the Commission was again in evidence during the last fiscal year in the adjustment of a large number of complaints informally. Many matters of this kind were handled by the bureau successfully without having to appeal to the Commission for assistance. Some of these informal adjustments represent actual savings to agricultural users of utility service amounting to many thousands of dollars.

SECURITY ISSUES

The prices which are being paid for public utility properties or for stock of public utility corporations by representatives of holding companies has been given considerable attention by the Commission during the last year. It has in all instances required that such part of the price paid for public utility properties which it regarded excessive, should not be capitalized through security issues or charged to fixed capital accounts. It is firmly convinced that its policy of limiting security issues to the actual cost of the properties, allowing the present land value, due consideration being given to earning rather than the sale price of such properties, is sound and in the interest of both the purchaser of public utility securities and the patron of the utility.

The Commission has not permitted the capitalization of an alleged value of operative rights of stage companies, or the alleged going concern value of public utility properties. In authorizing the issue of securities during the last year, the Commission has proceeded in accordance with its established policy that bond issues should not exceed 60 per cent of the depreciated historical cost of public utility properties, with land considered at its present value, and that it is not in the public interest to recapitalize public utility properties on a basis so that a new utility will show an earning materially below the average cost of money on its proposed stock issue.

During the year ending June 30, 1928, the Commission passed on applications involving the issue of $230,112,914.57 of securities as compared with $337,952,323.92 for the year ending June 30, 1927, and

$271,024,507.26 for the year ending June 30, 1926. The totals for the two previous years include three stock authorizations of an extraordinary nature. During that period the Pacific Gas and Electric Company, the Southern California Edison Company and Southern California Gas Company reclassified their stock by changing the par value from $100 to $25 per share. The three companies received permission to issue new shares of stock of the lower par value in exchange for the old shares outstanding in the ratio of four new shares for each old one; the issue amounting to $117,339,646.92 in the case of Pacific Gas and Electric Company, $119,746,000 in the case of the Southern California Edison Company, and $10,000,000 in the case of Southern California Gas Company. If these three amounts are eliminated from the totals of 1926 and 1927, we arrive at the following results:

Disposition of applications	*Year ending June 30, 1926*	*Year ending June 30, 1927*	*Year ending June 30, 1928*
Granted	$142,717,149 26	$187,302,567 00	$218,559,617 57
Denied	274,960 00	7,415,000 00	1,456,297 00
Dismissed	8,286,398 00	15,895,110 00	10,097,000 00
Totals	$151,278,507 26	$210,612,677 00	$230,112,914 57

REVENUES AND EXPENSES

The operating revenues of utilities which filed reports with the Commission during 1927 aggregated $1,024,889,114.32, as compared with $1,001,170,243.26 for 1926, an increase of $23,718,871.06. The operating expenses for the same periods totaled $718,441,021.99 and $693,828,607.29, respectively, while for 1927 the net operating revenue is reported as $306,448,092.33 and for 1926 at $307,341,635.97. These figures include the total operating revenues and operating expenses of companies such as Southern Pacific Company, The Atchison, Topeka and Santa Fe Railway Company, The Pacific Telephone and Telegraph Company and Western Union Telegraph Company and others engaged in both intra and interstate business.

From reports and data at hand we estimate the operating revenues of utilities, applicable to California business, at $591,988,000 for 1927, as compared with $543,091,000 for 1926.

During 1927 public utilities operating in California paid out in the form of dividends $125,614,281.84, while for 1926 the payments totaled $109,312,215.97.

Steam railroads during the year 1927 carried 41,821,723 passengers in California, as compared with 43,156,341 in 1926; and 44,199,058 tons of freight as compared with 44,799,393 in 1926.

Electric railways during the year 1927 carried 708,641,500 passengers as compared with 712,569,466 in 1926, a decrease of 3,927,966.

Water companies report 531,071 consumers in 1927, as compared with 485,572 in 1926, an increase of 45,499.

Electric light and power companies report 1,329,050 consumers in 1927, as compared with 1,254,878 in 1926, an increase of 74,172.

Gas companies report 1,219,168 consumers in 1927, as compared with 1,168,618 in 1926, an increase of 50,550.

Telephone companies report 2,045,039 subscribers' stations in 1927, as compared with 1,877,862 in 1926, both figures including all the

stations of The Pacific Telephone and Telegraph Company, an increase of 167,177.

Auto stages engaged in the transportation of passengers report operating 1591 buses in 1927 and carrying 24,634,648 passengers as compared with 1655 buses and 24,319,697 passengers in 1926.

TRANSPORTATION RATES

The Rate Department of the Commission handled a greater number of important transportation proceedings during the fiscal year ending June 30, 1928, than have been disposed of in any previous year since the Commission was organized. There was such a large volume of work in connection with formal complaints and formal applications that it was impossible to hear all of the complaints that were filed prior to July 1; consequently, there were more than 30 proceedings carried over, and put on the calendar for hearing during the ensuing fiscal period.

RATE SAVINGS TO SHIPPERS

Material savings were rendered to California shippers and receivers of freight due to the decisions rendered by the Commission in the matter of reduced rates ordered into effect on lumber and box shooks from Sacramento to practically all points in the San Joaquin Valley and southern California; grain and grain products from northern California points to central and southern California, and from Oakland to San Joaquin valley points; refrigeration charges on dairy products between practically all points in the state, and the milling in transit privileges established at San Francisco and Oakland on grain and grain products.

REPARATION AWARDED

The Commission awarded reparation on empty barrels from San Francisco and Los Angeles to Trona; fertilizer from Potash to Los Angeles; Riverside and other points in the Los Angeles territory; fresh fruit from Empire to Hayward; rock from Dwight to Matheson; canned goods from Los Angeles to East San Pedro; mineral compost from Terminus to Guadalupe and Mountain View; dried fruit from Lodi to San Francisco; fresh fruit from Yuba City to San Francisco and from Everglade to Sacramento; clay from Los Angeles to Watson; vinegar from Watsonville to Hayward; empty boxes from Hanford to Calpack; petroleum products from Pozo, Watson and Naples to Los Angeles; Martinez to Yuba City, Woodland and Fort Bragg and from Oleum to Petaluma; paddy rice from Mackert and related points to San Francisco and Sacramento; lumber from Korbel to Northwestern Pacific Railroad points.

INTERSTATE RATE PROCEEDINGS

In addition to the intrastate reduction of rates during the last year, due to the activities of this department, the Commission, through its rate expert, W. P. Geary, rendered considerable service in behalf of California growers and shippers in two cases brought before the Interstate Commerce Commission.

One of these cases involved rates on deciduous fruits from California to all points between the Rocky Mountains and the Atlantic seaboard. In disposing of that proceeding the federal commission ordered the

transcontinental lines to reduce the rate on deciduous fruits from California to Denver and points taking the same rates, from $1.62 to $1.50 per 100 pounds, and to all points east thereof, from $1.73 to $1.60 per 100 pounds.

ASSISTANCE RENDERED FRUIT GROWERS

In the second case, the carriers attempted to cancel the through joint rates from California to southern Florida points, and by so doing would have brought increases ranging from 24.5 per cent to 66.8 per cent higher than the through rate. These increases applied on such commodities as canned goods, dried beans and deciduous fruits. Valuable service was rendered by the Commission's Rate Department in obtaining the order of the federal commission instructing the carriers to restore the joint through rates that had been in effect for many years.

INFORMAL RATE MATTERS

While formal proceedings involving transportation rates numbered 111, the informal complaints and applications handled totaled 1730. In excess of 15,000 tariffs and supplements were received, checked and filed.

ENGINEERING DEPARTMENT

One of the most far-reaching public utility developments of the fiscal year, as far as its immediate effect upon a large number of consumers is concerned, has been the voluntary reduction in rates by practically all of the important electric utilities in the state.

These changes are of direct and immediate benefit to a large majority of the electric utility consumers in California, and while the reduction in individual monthly bills is not impressive, the aggregate saving to the public is approximately two and one-half million dollars a year. It is interesting to note that these reductions in rates have been made possible, not by any material change in the cost of generation of electricity, but rather by the gradual and steady increase in the use of energy by individual consumers and the continual addition of new consumers to lines already constructed.

NATURAL GAS CONSERVATION

Possibly as important, but of less immediate effect, are the results of the efforts that have been made by the oil companies and the utilities distributing natural gas to reduce the waste of this valuable natural resource. Through the efforts within the oil industry the production of natural gas in excess of present use has been curtailed, and through the cooperation of oil producers and utilities, millions of cubic feet of gas, that would otherwise have been wasted, have been pumped into partially exhausted underground structures.

COOPERATION

The Railroad Commission has opened up to the Tax Commission its records and data respecting the value of public utilities, and through Mr. L. S. Ready, consulting engineer, and W. C. Fankhauser, in charge of the Commission's Department of Finance and Accounts, has cooperated with the Tax Commission in ascertaining the value of public

utility properties for tax purposes. The Commission is at all times glad to make available to other state departments or agencies any data it may have in its files, and to cooperate with state departments in the interest of economy.

REGULATION OF AIR CARRIERS

One activity of the Engineering Department falling outside of the scope of any of its existing divisions has been a preliminary survey of the development of the airplane as a common carrier. This work was instituted by the Commission with the thought that such information would be vitally necessary in any consideration of a future system of regulation for this rapidly growing industry. A number of lines are now in regular daily operation, carrying passengers as well as mail, in both interstate and intrastate traffic.

Probably the most important feature of the regulation of this developing industry is some adequate assurance to the public that all operators shall provide properly for the safety of passengers.

GAS AND ELECTRIC DIVISION

There was a slight increase in the number of both formal and informal proceedings handled by this division. Reductions in electric rates have already been referred to. The trend toward the acquiring of small utilities by larger organizations continued with same noteworthy developments, chief of which was the absorption of Western States Gas and Electric Company by Pacific Gas and Electric Company. The Southern California Gas Company also acquired a number of gas utilities in the lower end of the San Joaquin Valley through acquisition of Midway Gas Company, a large natural gas pipe line company.

FORMAL MATTERS

The division reported on 71 formal proceedings in which decisions were rendered. These covered every type of proceeding normally coming before the Commission. There were also a number of extraordinary matters which will be completed during the ensuing year. There were 29 formal matters awaiting decision at the close of the year.

GAS SERVICE STANDARDS

The Commission's engineers made 23 inspections as to the quality of gas service rendered by the companies serving 60 per cent of gas consumers of the state. To insure accuracy of meters they tested 32 meter-provers, but one of which was found defective. The tests indicated a high quality of service. Informal complaints on this source were few.

ELECTRIC SERVICE STANDARDS

Increased attention was devoted to investigations of electric meters and the adequacy of voltage conditions throughout the state, and especially in agricultural installations. A study made with the cooperation of the California Farm Bureau Federation disclosed the need of uniform electrical construction standards governing agricultural pumping installations. Accordingly a proposed set of rules of this nature has been prepared and submitted to the electric utilities, which are expected

to be made effective by general order of the Commission before the next agricultural season.

ELECTRIC LINE CONSTRUCTION STANDARDS

Satisfactory progress has been made in revising General Order No. 64 providing standards of overhead electric line construction. Two experimental installations have been made of a single neutral conductor for primary and secondary systems to determine in a practical way the alleged economy in electrical distribution of that system, and its effect on nearby telephone lines. The power and telephone companies are cooperating, and the results of the test are being watched with interest by all concerned, including national organizations.

HYDRAULIC DIVISION

There are now 450 water works operating in California under the jurisdiction of the Commission. These concerns vary in size from those serving a few consumers to the largest which serves over 125,000 consumers. The total investment in public utility water property is estimated to be in excess of $205,000,000.

It is interesting to note that at the present time there are not in excess of forty public utilities engaged in the sale and distribution of water strictly for agricultural purposes. The decline in the number of privately-owned irrigation companies has been the result of the gradual and steady absorption of companies by the water users themselves, mainly through the formation of irrigation districts. Consolidations and purchases of smaller companies by larger organizations are also reducing the number of water companies. If applications now pending before the Commission are acted upon favorably it will result in almost all of the large water companies in the state being owned and operated by about six corporations.

The activities of the Hydraulic Division during the last fiscal year related principally to investigations of public utility domestic and irrigation systems for rate fixing purposes, transfers, for the remedying of inadequate service, and also in relation to inspection of impounding dams and reservoirs from the safety standpoint.

Much of the work of the division was directed, with marked results, toward bettering the service of water utilities that have failed to maintain their facilities in keeping with the growth of the communities served. In the majority of these cases necessary improvements have been accomplished through informal action.

The Commission rendered 156 decisions in public utility water matters during the fiscal year. Of this number 32 decisions involved security issues solely. There were 138 formal proceedings and 611 informal complaints. The division made 24 valuations aggregating $3,178,609. No large water utility was involved in a valuation proceeding during the year.

The winter season of 1927-28 has resulted in a snowfall in general about one-third of normal. This has already caused considerable distress among the users of water for agricultural irrigation purposes from those systems dependent upon unregulated stream-flow. The division's investigations show conclusively that throughout the entire state the communities relying upon underground water supplies for domestic uses are experiencing increasing difficulties in obtaining

water in sufficient quantities, due to the steady lowering of the ground water table.

The ever-increasing population of this state is making alarming inroads into the supply of water available, not only for agricultural and power purposes, but has now reached the point where the domestic water supplies are proving inadequate in the months of maximum demand.

RATE INCREASES DISALLOWED

During the fiscal year the Commission denied three major water companies increases and reduced materially the domestic rate of one other. Through informal action an adjustment was obtained for consumers of three other major water companies, which resulted in a reduction of rates for domestic and irrigation service.

TELEPHONE AND TELEGRAPH DIVISION

There were approximately 140 utilities engaged in the telephone and telegraph business in California on June 30, 1928, many of which are comparatively small companies. There were approximately 1,215,000 connected telephone stations in California, an increase of more than 6 per cent over the number in service at the end of the previous fiscal year.

The division conducted 64 special investigations in the interest of better service and participated in 116 public meetings and informal conferences, held for the purpose of obtaining a fuller understanding of telephone problems, and the discussion of various aspects of the service from the standpoint of the utility and the subscriber.

During the year in review the division prepared 340 reports and memoranda on service, rates, or other features of the operation of communication utilities, and the Commission issued 230 special permissions or informal orders, authorizing the establishment or discontinuance of toll stations, exchanges, telegraph offices, or the filing of rates on less than the usual statutory notice. A total of 37 formal proceedings dealing with these utilities, exclusive of security issues, were filed with the Commission during the year. Communication companies were made defendants in nine formal complaints during the year, one of which was instituted by the Commission on its own motion for the investigation of the reasonableness of certain toll rates. During the same period the Commission handed down decisions in 57 formal proceedings affecting this type of company, exclusive of stock and bond authorizations.

Activities of the Commission's telephone and telegraph engineers in the investigation of telephone exchange boundaries, rate areas, or hours of service, resulted in a number of revisions being made reducing inter-exchange rates from 10 cents to 5 cents, the establishment of longer hours of service in rural exchanges without additional cost to the subscribers, and other general improvements in the service. These changes are estimated to have resulted in reductions of rates, or increases of service, representing a saving of $20,000 per year to the subscribers. These were largely accomplished informally, with a resulting saving of time and expense to all concerned.

Despite the demands for increased rates growing out of increased demands for service, the Commission issued decisions resulting in the

saving of many thousands of dollars a year to telephone users. The largest of these savings was $50,000 a year in the case of the Kern Mutual Telephone Company, and $24,000 a year for Northern California Telephone Company.

PACIFIC TELEPHONE AND TELEGRAPH COMPANY RATE CASE

The outstanding telephone rate proceeding of the fiscal year was that of The Pacific Telephone and Telegraph Company, involving increases in exchange rates and the creation of new exchange and interexchange areas. Realizing the vital importance of this proceeding, affecting more than 225,000 subscribers, the Railroad Commission requested the Governor for a special appropriation to defray the extraordinary expense of the proceeding. The state placed a fund of $100,000 at the disposal of the Commission for this purpose, and Mr. Lester S. Ready, formerly chief engineer of the Commission, who has had special experience in similar investigations, was placed in charge of the work and was named special examiner, and empowered to hear matters in relation to the proceeding.

TRANSPORTATION DIVISION

The Transportation Division which has charge of steam railroad, electric railway and other transportation lines, including motor carrier service, in connection with street railway operation, investigated and reported on 537 formal proceedings during the fiscal year.

Matters handled by this branch of the Commission's Engineering Department were as follows: Grade crossings 345, grade separations 23, grade crossing protection 11, removal of spur tracks 14, abandon or move station buildings 21, abandon or move agencies or nonagencies 34, discontinue or reduce passenger rail service 27, discontinue or reduce motor bus service 5, reroute or establish passenger rail service 4, reroute or establish motor bus service 15, rates 11, buy or sell railroad property 7, joint track agreements 7, impaired clearances 8, and discontinue or rearrange interlocking plants 5.

During this fiscal year the division concluded the largest number of rate proceedings in any one year in its history, including the following: Key System Transit Company and Southern Pacific Company, respectively, involving transbay fares and east bay local fares; Los Angeles Railway, Pacific Electric Railway Company, Peninsular Railway (San Jose and vicinity), San Jose Railroads, Stockton Electric Railway, Pacific Gas and Electric Company (Sacramento street railroad), Central California Traction Company (local lines in Sacramento), and Santa Barbara and Suburban Railway.

Investigations and reports recommending the granting of 232 grade crossing applications, the denial of 7, and the dismissal of 40, were made by the division during the year. Investigations were also made of 15 applications for grade crossing separations, 12 of which were granted, one denied, and two dismissed.

SERVICE INVESTIGATIONS

One of the most important transportation proceedings handled during the year was the investigation into the operations, service and safety of the Northwestern Pacific Railroad Company, with particular refer-

ence to the interurban lines serving a portion of Marin County, made as the result of complaints filed by Marvelous Marin, a civic organization, and others, and as an investigation on the Commission's own motion.

The company was ordered to renew a portion of its equipment, improve the motive power by the installation of additional substation equipment and feeder lines; renew or improve certain station buildings; to protect more adequately the third rail through the built-up sections and improve the conditions on Second street, San Rafael, and make other general improvements. The company is now proceeding to carry out these improvements in compliance with the Commission's order.

EXPERIMENTAL FARES

As the result of an application filed by Pacific Electric Railway Company, a thorough investigation was made of that company's operations. Many informal conferences were held with the officials of the various interested communities with particular reference to the service afforded. Helpful suggestions were considered and embodied in exhibits in the proceeding. New rates were established, which resulted in a material decrease in one way and round trip fares, and in general in increases in commutation fares. Monthly and special passes were also introduced in the fare structure. It was explained in the decision that this new fare structure was constructed upon somewhat of an experimental basis, and if conditions appeared to justify same it would be changed by subsequent order in this proceeding.

OTHER TRANSPORTATION MATTERS

During the year General Order No. 22, prescribing regulations for reporting accidents in train operation was revised to conform to the method employed by the Interstate Commerce Commission. General Order No. 33-a, containing provisions for improved interlocking protection, remote control of interlockers centralized traffic control, automatic interlocking, and other efficient and economical features resulting in elimination of stops, faster train operation, and increased safety, was issued. Three proceedings conducted by the Commission for the Interstate Commerce Commission were participated in by the Transportation Division. More than 160 informal complaints were investigated and adjusted.

SAFETY WORK

Field investigations of the safety devices for the protection of 2165 crossings were made. A trial installation of one type of automatic gate for the protection of the Alameda avenue crossing of the Southern Pacific tracks in Burbank was ordered. A new system of tabulating grade crossing accidents was installed, and studies were made of many such accidents, which will facilitate correction of their causes. An intensive study of impaired clearances on railroads was also made and many were corrected. Similarly a study was made of accidents involving loss of life of passengers or train employees, with the hope of working out plans to prevent their recurrence.

VALUATION DIVISION

Valuation division activities included work on twenty-five independent appraisals authorized under nine condemnation proceedings, seven rate proceedings and six security issue proceedings. Properties of six different types of utilities, located in various parts of the state, were included in these investigations, twelve of the valuations referred to were in progress when the year began, eight were commenced and finished, and ten were still in progress when the year ended.

VALUATIONS FOR TAX PURPOSES

Cooperating with the investigation by the California Tax Commission, the valuation division, as well as the Department of Finance and Accounts, assisted in preparing valuations of the operative properties in California of the utilities paying state taxes on the bases of a percentage of gross revenue. The historical reproduction cost, reproduction cost new, and reproduction cost new less depreciation was approximately determined as of December 31, 1926, March 1, 1927, and December 31, 1927, respectively, for 50 steam railroads, 27 electric railroads, 65 electric utilities and 26 gas utilities; 3 telegraph companies, 2 car companies and 1 express company.

INTERSTATE COMMERCE COMMISSION VALUATIONS

Final valuation reports were received from the Interstate Commerce Commission and checked during the fiscal year for The Atchison, Topeka and Santa Fe Railway Company, Santa Maria Valley Railroad Company, and Sunset Railway Company.

The Federal Bureau of Valuation has commenced the preparation of valuations of certain newly constructed or recently acquired railroads located within the state. The Valuation Division of the Railroad Commission is cooperating with this work, and has assigned an engineer to work with the field party which, at the close of the fiscal year was taking field notes for the Ventura County Railway Company valuation.

AUTO STAGE AND TRUCK LINES

There were 557 auto stage and truck lines operating in California under the jurisdiction of the Railroad Commission on June 30, 1928. Of this number 85 are engaged solely in transporting passengers. There are 203 lines carrying passengers and property, and 269 transporting property only. Of the latter, 99 are designated as special carriers limited to the transportation of specified commodities. Auto stages transported 24,634,648 passengers during 1927. Auto trucks transported 1,740,081 tons of freight. During 1926 the certificated auto stage and truck lines, numbering 620, transported 24,319,697 passengers, and 1,231,176 tons of freight.

The total investment of all motor carriers was $29,263,338.70. The total revenue from all lines reporting was $23,078,059.24; and total expenses, $22,089,667.80.

The extent of the Railroad Commission's task in regulating auto stages and trucks is shown by statistics contained in the annual report of the Auto Stage and Truck Department of the Commission. Of the 951 formal applications filed with the Commission from July 1, 1927,

to June 30, 1928, there were 244 involving auto stages and trucks. Of these 117 were applications for certificates of public convenience and necessity, 14 were for security issue authorizations, and 77 requests for authority to lease or transfer operating rights. There were 9 applications to incease rates and 8 were for authority to establish rules and rates. Nineteen of the applications asked for authority to abandon or reduce service. Of the 195 formal complaints filed with the Commission, 49 involved auto stages and trucks. Of the 1647 decisions signed by the Commission 379 were on auto stage and truck matters. Throughout the year 291 hearings on auto stage and truck matters were held.

RATE REDUCTIONS

Reference has already been made to certain rate reductions, or denials of rate increases by the Commission, most of which occurred prior to January 1, 1928. By far the larger number of rate reductions were ordered by the Commission after that date. During the first six months of 1928 these reductions aggregated $3,392,458, and the increases amounted to $89,211, leaving a net reduction in rates acted upon by the Commission of $3,293,247. These figures do not include an increase of approximately $450,000 a year in the rates of east bay interurban fares, which did not go into effect until the beginning of the ensuing fiscal year, and will appear in the next report of the Commission.

A considerable item of the reductions in rates was due to the working of the Commission's plan of automatic gas rate adjustments under which fluctuations in the price of fuel oil are immediately reflected in the rates. On the Pacific Gas and Electric Company's system alone the reduction in gas rates through automatic adjustment will amount to $270,000 during 1928.

Among the rate proceedings resulting in decreases were the following: Railroad Commission's investigation into rates of Kern Mutual Telephone Company, $53,726; Albers Brothers versus Southern Pacific Company, $1,000; Western States Gas and Electric Company, gas rates, $5,500; Pacific Gas and Electric Company, gas rates, $270,000; City of San Francisco versus Great Western Power Company and Pacific Gas and Electric Company, electric rates, $225,000; East Bay Cities versus Great Western Power Company and Pacific Gas and Electric Company, electric rates, $1,660,000; San Diego Consolidated Gas and Electric Company, gas and steam, $20,700; Coast Valleys Gas and Electric Company, $1,300; Railroad Commission's investigation into Huntington Beach Water Company, $25,232; Western States Gas and Electric Company, electric rates, $82,000; Pacific Electric Railway Company, $104,000; Northern California Telephone Company, $24,000; Railroad Commission's investigation into electric rates of San Diego Consolidated Gas and Electric Company, $440,000; Vallejo Electric Light and Power Company, $25,000; Coast Counties Gas and Electric Company, electric rates, $70,000; Southern Counties Gas Company, $135,000; San Joaquin Light and Power Corporation, electric rates, $250,000.

REQUESTED INCREASES DENIED

The Commission denied increases in rates aggregating $3,706,712, including its action in refusing to allow the Los Angeles Railway Cor-

poration to increase its fares from 5 cents to 7 cents, with four tokens for 25 cents. This action of the Commission, which was appealed by the utility to the federal courts, represents a denial of requested increase of revenue of approximately $3,700,000 a year.

BENEFITS OF REGULATION

That regulation of public utilities pays large dividends to the general public is apparent from a comparison of the figures showing the cost of such regulation, and the amount of reductions in rates ordered, or of increases denied. The total income from California business of the public utilities operating within the state was $591,988,000 in 1927. The amount expended by the Railroad Commission in the regulation of these utilities during the fiscal year 1927–28 was $518,104.38.

Reductions in rates aggregated $3,392,458 during the period from December 15, 1927, to June 30, 1928, when a careful compilation was kept by the Commission. A conservative estimate shows that rate reductions for the entire fiscal year amounted to a net amount of $3,500,000. These figures would include numerous transportation rate adjustments not included in the Commission's tabulation of formal rate actions.

It is apparent, therefore, that it has cost approximately $1 to every $1,000 of their revenue within the state to regulate the utilities in California. On the other hand for every dollar expended by the Railroad Commission in regulating the utilities, there has been returned to the rate payers $7 in reduced utility charges, irrespective of any savings accruing because of the refusal of the Commission to sanction requested increases in rates, or the part played by the Commission in winning substantial reductions in interstate rates.

LEGAL DEPARTMENT

The fiscal year 1927–28 proved to be a busy one for the attorney and his staff, who represented the Commission in twenty-seven court cases, in addition to the general work of advising the Commission and its staff on legal problems.

During the year one case was decided by the United States Supreme Court, one case by the Federal District Court, six cases by the California Supreme Court and three cases by the Interstate Commerce Commission, in matters involving the jurisdiction or orders of the Commission. At the close of the fiscal year seventeen cases in which the Railroad Commission was an interested party were still pending, three in the United States Supreme Court, two in the Federal District Court, eight in the California Supreme Court and three in the superior courts of California and two before the Interstate Commerce Commission.

Thus, during the year, the Legal Department represented the Commission in three cases before the United States Supreme Court, fourteen before the California Supreme Court, three before the Federal District Court, five before the Interstate Commerce Commission and three before the superior court of California.

Of the cases decided during the year the decision of the Federal District Court in *B. G. Adams* vs. *Decoto et al.* is of particular importance.

It sustains the Commission's authority to proceed under those provisions of the Public Utilities Act giving it authority to punish violations of its orders through contempt proceedings.

A complete digest of the Decisions and Orders of the Commission up to July 15, 1927, was published. Supplementary digests will be prepared for each volume of decisions, thus keeping the digest up to date with all ensuing volumes of decisions.

RECORD OF LITIGATION

Since the reorganization of the Commission in 1911 it has made 19,974 formal orders and decisions. During that period it has been a party to 192 court proceedings, of which 17 are still pending. Of these cases, 25 have been decided against the Commission, but included in these are five which have been reversed by later action of the California Supreme Court; four which were test cases, and although nominally decided against the Commission, in reality, sustained the Commission in principle; and one which, though actually sustaining the Commission, went off on a minor technical point.

This leaves a net of 15 cases lost during these 17 years, out of the 192 cases which have been handled. In other words, the formal action of this Commission, in the regulation of public utilities in California as expressed in nearly 20,000 decisions, has been reversed in but 15 instances, considerably less than one-tenth of one per cent.

The report is in one volume of two parts. Part one is devoted to a description of the work of the Commission from a statistical and departmental standpoint. Part two contains tables compiled from the annual reports of utilities filed with the Commission in conformity with the provisions of the Public Utilities Act and the rules of the Commission.

Respectfully submitted.

LEON O. WHITSELL,
CLYDE L. SEAVEY,
EZRA W. DECOTO,
THOMAS S. LOUTTIT,
WILLIAM J. CARR,
Commissioners.

December 1, 1928.

PART ONE

THE BUSINESS OF THE YEAR

Chapter I

JURISDICTION—LEGISLATION—HISTORY—ORGANIZATION

There were no changes in the law affecting the regulations of public utilities during the last fiscal year. For purpose of reference the constitutional provisions and legislative enactments, under which the Railroad Commission functions, are herewith reprinted.

LEGISLATION

The Railroad Commission, originally created under a provision of the constitution of 1879, was reorganized under its present status as the result of the adoption of constitutional provisions at a special election October 10, 1910. Its principal powers were conferred on the Commission by the Public Utilities Act effective March 23, 1912.

Following is a list of the constitutional amendments and statutes describing and increasing the powers of the Railroad Commission since the present Commission was created:

Public Utilities Act enacted 1911, approved December 23, 1911; in effect March 23, 1912. (Statutes 1911, extra session, chapter 14, page 18.) Reenacted 1915; Statutes 1915, chapter 91, page 115. Amended: Statutes 1917, chapter 120, page 168; chapter 137, page 199; chapter 176, page 261; chapter 176, page 269; chapter 209, page 320; chapter 707, page 1329; Statutes 1919, chapter 304, page 488; chapter 304, page 493; chapter 304, page 497; Statutes 1921, chapter 776, page 1355; Statutes 1923, chapter 387, page 834; chapter 388, page 837. Constitutional provisions, article XII, sections 20 to 23*a*. Food Warehousemen Act, Statutes 1919, chapter 215, page 314. Act for regulation of auto stage and truck transportation, Statutes 1917, chapter 213, page 330; amended, Statutes 1919, chapter 280, page 457; Statutes 1921, chapter 840, page 1609; Statutes 1923, chapter 310, page 644. Act for regulation of water companies, Statutes 1913, chapter 80, page 84, and Statutes 1923, chapter 172, page 413.

1925 ENACTMENTS

Chapter 144, Laws of 1925—Amending section 5 of the Public Utilities Act to enable the Commission to appoint more than one assistant secretary.

Chapter 145, Laws of 1925—Amending section 1 of chapter 213, Statutes of 1917 (Auto Stage and Truck Transportation Act), exempting from the provisions of said act "busses engaged solely in the transportation of bona fide pupils attending an institution of learning when such pupils are transported solely between their homes and such institution of learning."

Chapter 153, Laws of 1925—Amending section 7 of chapter 213, Statutes of 1917 (Auto Stage and Truck Transportation Act), granting immunity from prosecution to any person testifying before the Commission as to violations of said act, this to prevent a witness from refusing to testify on the ground that his testimony might incriminate himself.

Chapter 254, Laws of 1925—Amending section 9 of chapter 213, Statutes of 1917 (Auto Stage and Truck Transportation Act), by providing that the Commission may adopt reasonable and uniform rules and regulations governing the operation of transportation companies operating solely in interstate commerce between this and another state.

Chapter 357, Laws of 1925—Amending section 71 of the Public Utilities Act by enabling the Commission to grant reparation for unreasonable rates and by providing that no assignment of a reparation claim shall be recognized by the Commission.

Chapter 398, Laws of 1925—Amending the Public Utilities Act by adding thereto a new section designated "section 52½" prohibiting any public utility from assuming any obligation as guarantor, indorser or surety in respect to securities of any other person without the Commission's permission.

Chapter 406, Laws of 1925—Amending section 52 of the Public Utilities Act by inserting at various places throughout that section the words "Other evidence of interest or ownership" to give the Commission jurisdiction over that type of security in addition to stocks, stock certificates, notes and other evidences of indebtedness, and by the substitution of the word "may" for "shall" in subdivision (*b*) of said section to enable the Commission to dispense with the hearing where deemed necessary on certain applications for issuance of stocks, bonds notes and other evidences of indebtedness.

1927 ENACTMENTS

Chapter 129, Laws of 1927—Amends section 50 (*d*) of the Public Utilities Act by revising and clarifying the requirement of a certificate of public convenience and necessity from operators of vessels on the inland waters of the state. Provides that such certificates may be transferred only upon authorization of Railroad Commission, and empowers the Commission to revoke such certificates for cause.

Chapter 130, Laws of 1927—Amends section 2 (*h*) of the Public Utilities Act to include in definition of street railway any person who operates in conjunction with such carrier any automobile, jitney bus, stage or auto stage over the highways between fixed termini or over a regular route.

Chapter 44, Laws of 1927—Amends section 51 of the Public Utilities Act to extend to all public utilities, as defined in said act, the prohibition against selling, leasing, encumbering or otherwise disposing of any or all of their operative properties without the consent of the Railroad Commission. Heretofore only certain specified classes of public utilities were included under this section.

Chapter 37, Laws of 1927—Adds to section 6 of the Auto Stage and Truck Transportation Act a new subsection lettered (*c*) forbidding transportation companies, as defined by that act, to assume any obligation or liability as guarantor, endorser, surety or otherwise in respect to the securities of any other person or corporation payable more than twelve months after their date without securing authority from the Railroad Commission, and providing that every unauthorized assumption of such character shall be void. This amendment writes the provisions of section 52½ of the Public Utilities Act into the Auto Stage Act.

Chapter 28, Laws of 1927—Amends section 6 of the Auto Stage and Truck Transportation Act by forbidding the execution of any mortgage or other lien on any of the property of operators under said act without authority from the Railroad Commission.

Chapter 38, Laws of 1927—Adds to the Auto Stage and Truck Transportation Act a new section ($7\frac{1}{2}$), conferring upon the Railroad Commission jurisdiction to award reparation for excess or unreasonable charges against operators falling under said act, substantially in the manner provided as to public utilities generally by section 71 of the Public Utilities Act.

Chapter 64, Laws of 1927—Amends section 5 of the Auto Stage and Truck Transportation Act to forbid the granting of certificates of public convenience and necessity under said act to foreign corporations (cf. section 26, Public Utilities Act, forbidding operation of public utilities by foreign corporation save in certain specified instances), and to limit the requirement of a $50 fee to applications for original certificates. Hitherto such fee has applied to transfers of certificates as well as to the issuance of original certificates.

Chapter 690, Laws of 1927—New act granting power to municipal and county legislative bodies, where public necessity and convenience require, to create assessment districts and raise funds by assessment therein to defray all or part of the public's share of the expense of separating the grades of highways and railroads at railroad crossings. Procedure specified.

Chapter 878, Laws of 1927—Adds two new sections to the Public Utilities Act relating to the regulation of warehousemen. By section $2\frac{1}{2}$ the definition of warehousemen subject to said act is broadened to include all such enterprises which for compensation store merchandise other than second-hand household effects, or merchandise sold but retained in the custody of the vendor, but excepting warehouses conducted by any nonprofit cooperative association or corporation engaged in handling or marketing members' agricultural products, and warehouses conducted by their agents while acting under the legal limitations on the principals of such agents. By section $50\frac{1}{2}$ persons desiring to operate in cities having a population of 150,000 or more are required to obtain certificates of public convenience and necessity before engaging in the warehousing business, as above defined, or before enlarging their warehouse space by more than 50,000 square feet. No certificate is required of existing warehousemen, but transfers must receive the Railroad Commission's approval. Certificates may be revoked for cause, and, on complaint, the Commission may direct cessation of operation until decision.

Chapter 42, Laws of 1927—Amends section 33 of the Public Utilities Act and adds two new sections ($2\frac{1}{4}$ and $50\frac{1}{4}$) thereto, the purpose of the act being to subject passenger motor stages to regulation under the Public Utilities Act, such stages having heretofore been regulated by the Auto Stage and Truck Transportation Act (Statutes 1917, chapter 213, as amended). Section $2\frac{1}{4}$ defines "passenger stage" and "passenger stage corporation." Section 33 relates to joint rates and through routes. Section $50\frac{1}{4}$ provides for the certification of such carriers.

Chapter 81, Laws of 1927—A resolution to propose the addition of a new section to be numbered (6) in article XIV, California constitu-

tion, to provide for a bond issue of $10,000,000 to defray railroad grade crossing elimination expense on the primary road system. Funds have hitherto been lacking to cover the cost of grade separations at any but the most hazardous crossings.

Chapter 704 Laws of 1927—Amends section 43 of the Public Utilities Act by adding a provision that if the political subdivision interested in a railroad grade crossing separation deems that special benefits will flow therefrom, it may raise the necessary funds to defray its portion of the cost thereof by assessment upon the benefited district. This law was enacted as a companion law to chapter 690, *supra*.

Court decisions and litigation involving jurisdiction of the Commission are treated in detail in the report of the Legal Department, Chapter XIV of this report. A complete history of the Commission, its legislation and organization, was published in the annual report of the Commission for 1922–23. Those interested in the subject are referred to Chapter I of that report. The ensuing chapters cover the Commission's activities during the fiscal year 1926–27.

CHAPTER II

THE YEAR'S WORK—STATISTICAL REPORT

All branches of the Commission's activities showed an increase during the fiscal year ending June 30, 1928, over the preceding twelve months, according to statistics in the office of the Secretary. In addition to new business there were a number of important proceedings continuing from previous years including the valuation of the properties of Pacific Gas and Electric Company and Great Western Power Company in condemnation proceedings brought by the city and county of San Francisco. An enormous amount of work was performed in these and other proceedings which does not appear in the records.

Formal applications filed during the fiscal year numbered 951, as against 906 the previous year. The formal complaints filed totaled 195, as compared with 130 in the previous twelve months period, an increase of 65, or just 50 per cent. The Commission instituted 48 proceedings on its own motion, or 19 more than in the preceding fiscal period.

The Commission rendered 1647 decisions during the last fiscal year, as against 1539 in the 1926–27 period. In but two other years of its history were more decisions rendered; namely, in 1925–26, when 1908 decisions were issued, and 1922–23, when there were 1653.

In handling the business coming before it the Commission held 998 hearings of all kinds during the year in review, as against 896 for 1926–27. Of the hearings held during the twelve months ending June 30, 1928, there were 571 original hearings, and 427 adjourned, further, or rehearings.

Of the original hearings, 171 were held at the main office of the Commission at San Francisco, 116 were held at Los Angeles, and 284 at points throughout the state. There were 157 adjourned, further, or rehearings at the San Francisco office, 124 at Los Angeles, and 146 at outside points.

The number of public utilities reporting under the jurisdiction of the Commission dropped from 1798 to 1762 during the last fiscal year. This was due largely to consolidations, mergers, or acquisitions of utilities by larger organizations, some of whom have entered the state to acquire utility systems on a large scale.

In reporting hearings conducted by the Commission from July 1, 1927, to June 30, 1928, the Reporting Department transcribed 132,377 folios, or a total of 13,237,700 words. In the previous fiscal period there were 120,111 folios, or a total of 12,011,100 words.

GENERAL ORDER No. 77

The Commission approved on September 27, 1927, General Order No. 77 requiring public utilities and transportation companies to file salary data, donations, contributions and subscriptions. The general order became effective January 1, 1928, and reads as follows:

> *It is hereby ordered*, That all public utilities and transportation companies having gross annual operating revenues of $100,000 or more are directed and required to prepare and file with the Railroad Commission of the State of

California on or before February 20 of each and every year a statement showing the names of all officers or employees who during the preceding calendar year received a salary of $5,000 or more per annum; the salary received by each such officer or employee during the preceding calendar year; the amount of the expense account of each such officer or employee during the preceding calendar year; the amount of any contingent fee or other moneys directly or indirectly paid to each such officer or employee during the preceding calendar year, and the title and duties of each officer or employee.

It is hereby further ordered, That all public utilities and transportation companies having gross annual revenues of $25,000 and less than $100,000 are directed and required to prepare and file with the Railroad Commission of the State of California on or before February 20 of each and every year a statement showing the names of all officers or employees who during the preceding calendar year received a salary of $3,000 or more per annum; the salary received by each such officer or employee during the preceding calendar year; the amount of the expense account of each such officer or employee during the preceding calendar year; the amount of any contingent fee or other moneys directly or indirectly paid to each such officer or employee during the preceding year, and the title and duties of each such officer or employee.

It is hereby further ordered, That all public utilities and transportation companies having gross annual revenues of $25,000 or more are directed and required to file with the Railroad Commission of the State of California on or before February 20 of each and every year a statement showing for the next preceding calendar year the total donations, subscriptions and contributions of all kinds, and the total payments to attorneys, both of said totals to be distributed to the accounts as charged on the utility's books during the said next preceding calendar year.

SALARIES OF UTILITY EMPLOYEES

Reports filed by public utilities in compliance with the Commission's General Order No. 77 show that 796 public utility employees received salaries of $5,000 or more. The following table gives the number of salaries paid in each class of $5,000 or more:

$5,000 to $6,000 per annum	236
$6,000 to $7,000 per annum	195
$7,000 to $8,000 per annum	96
$8,000 to $9,000 per annum	50
$9,000 to $10,000 per annum	34
$10,000 to $12,000 per annum	63
$12,000 to $14,000 per annum	31
$14,000 to $16,000 per annum	23
$16,000 to $18,000 per annum	17
$18,000 to $20,000 per annum	10
$20,000 to $25,000 per annum	14
Over $25,000 per annum	22

On January 3, 1928, the Commission adopted a resolution requiring utilities to supplement their 1927 annual reports with a statement showing the amount of money, if any, expended for political purposes, the accounts to which such expenditures were charged, and the purposes for which such expenditures were incurred or made.

The Commission's resolution defines expenditures for political purposes to mean such expenditures, including allocations of compensation of executives, officers and employees, for time devoted to political purposes, as were incurred or made to elect or defeat a candidate for public office, or to support or defeat any measure on the ballot or to place any

measure on the ballot, or to keep it from being placed on the ballot at any city, county, municipal or other election during the year. Reports filed by public utilities show that an expenditure of $111,486.56 was incurred for political purposes, as defined by the Commission.

FORMAL COMPLAINTS

Table No. 1 shows the number of formal complaints filed with the Commission every year since January 1, 1911, the date of the reorganization of the Commission in its present form.

TABLE No. 1

Formal Complaints Filed With the Railroad Commission During the Fiscal Years Ending June 30, 1912, to June 30, 1928.

January 1, 1911, to June 30, 1912, inclusive	168
July 1, 1912, to June 30, 1913, inclusive	138
July 1, 1913, to June 30, 1914, inclusive	209
July 1, 1914, to June 30, 1915, inclusive	194
July 1, 1915, to June 30, 1916, inclusive	145
July 1, 1916, to June 30, 1917, inclusive	136
July 1, 1917, to June 30, 1918, inclusive	150
July 1, 1918, to June 30, 1919, inclusive	80
July 1, 1919, to June 30, 1920, inclusive	131
July 1, 1920, to June 30, 1921, inclusive	170
July 1, 1921, to June 30, 1922, inclusive	146
July 1, 1922, to June 30, 1923, inclusive	148
July 1, 1923, to June 30, 1924, inclusive	88
July 1, 1924, to June 30, 1925, inclusive	121
July 1, 1925, to June 30, 1926, inclusive	116
July 1, 1926, to June 30, 1927, inclusive	130
July 1, 1927, to June 30, 1928, inclusive	195
Total	2,465

Formal complaints segregated as to subject matter and utility are shown in the following table:

RATE ACTIONS BY THE COMMISSION

Beginning about the middle of December, 1927, the Commission commenced keeping a record of the estimated amount involved per year in all rate orders, whether reductions, increases or requested increases denied. Each order of the Commission involving the rates of a public utility is accompanied by a carefully prepared estimate of the results of the Commission's action. The totals are compiled at the end of each fiscal year, thus giving a comparative balance sheet on all of the Commission's rate actions. This balance sheet shows the estimated amount of reductions in rates ordered, the amount of increases in rates authorized, and the amount represented by requested increases in rates which were disallowed by the Commission.

While the statement does not cover the full fiscal year of 1927–28, the figures so far as available show a considerable balance on the side of reductions of rates, and increases denied. The totals are as follows: reductions ordered, $3,392,458; increases denied, $3,706,712; increases authorized, $89,983. Orders made between July 1, 1927, and December 15, of the same year would not materially alter these figures.

In addition to the actions sumarized in the following table the Commission during the fiscal year granted increases of transbay rates to

Key System Transit Company and Southern Pacific Company, amounting to $450,000 per year, which did not go into effect during that year and will accordingly appear in the record for the ensuing fiscal year.

The following table shows the actions of the Commission from December 15, 1927, to June 30, 1928, in its various orders affecting rates:

SUMMARY OF ESTIMATED RESULTS OF COMMISSION'S RATE ORDERS DECEMBER 15, 1927, TO JUNE 30, 1928

Number	Name	Increases denied (estimated)	Annual decrease	Annual increase	Effective date of order
C. 2324	Kern Mutual Telephone Company		$53,726		Dec. 15, 1927
A. 14004	Rohnerville Water Works			$300	Dec. 16, 1927

A. 14272	Foothill Ditch Company			4,712	June 29, 1928
A. 14640	Shastina Water Works (meter rates established, no change)				June 30, 1928
	Totals	$3,706,712	$3,392,458	$89,983	

Chapter III

INFORMAL COMPLAINTS—DISPUTED BILLS

Indicating the striking improvement in relations between public utilities under the jurisdiction of the Railroad Commission, and their consumers, the number of informal or consumer complaints, reached the lowest level since the World War period, during the fiscal year ending June 30, 1928.

The total number of informal complaints involving rates, service and other utility relations, except disputed bills, was 2601. The number of disputed bills adjusted by the Railroad Commission was 317, involving a total of $47,430.91. This is also the lowest number of any fiscal year, with one exception (1923–24), since the World War.

There has been a steady decrease in the number of informal complaints (not involving deposits) year by year since the peak was reached in the fiscal period of 1923–24, when there were 6315 complaints of this nature. From 1921 to 1925 the informal complaints maintained a high level, due largely to the complete reconstruction of the Los Angeles telephone system with its resultant interference with service, and also the tremendous development of all sections of the state, with unprecedented demands upon public utilities for service.

As in most other years, the telephone and telegraph companies had the largest number of informal complaints. There were 544 of these, involving principally installations and bills for service. Steam railroads were next highest with 483 complaints relating mostly to refunds, and the water companies were third with 436 complaints. These were chiefly relating to bills, service and installations. In only 317 instances, however, did the patron find it necessary to take advantage of the law under which the amount of a disputed bill is deposited with the Commission pending adjudication of the bill.

It is principally through these informal complaints that the Railroad Commission is able to come into direct contact with the great body of patrons of public utilities. Through the medium of informal complaints many matters that otherwise would have entailed the delay and expense of formal proceedings have been adjusted to the complete satisfaction of complainants.

In a number of cases, also, informal complaints developed into formal proceedings of widespread importance. In one instance, an informal complaint as to water service resulted in an adjustment whereby the utility agreed to build, and to turn over to the consumers, without cost to them, for their operation, a water system costing upwards of $75,000.

Informal complaints are received at both the San Francisco and Los Angeles offices of the Commission. The number of complaints of this nature received at the main office at San Francisco was 1771, and those received at the Los Angeles office numbered 830.

INFORMAL COMPLAINTS BY YEARS

The total number of informal complaints, not including deposits on disputed bills, handled by the Railroad Commission since January 1,

1912, when this was made a departmental function, to June 30, 1928, the end of the fiscal year, was 54,446:

January 1, 1912, to June 30, 1912, inclusive	245
July 1, 1912, to June 30, 1913, inclusive	1,381
July 1, 1913, to June 30, 1914, inclusive	2,288
July 1, 1914, to June 30, 1915, inclusive	2,382
July 1, 1915, to June 30, 1916, inclusive	3,039
July 1, 1916, to June 30, 1917, inclusive	2,644
July 1, 1917, to June 30, 1918, inclusive	2,423
July 1, 1918, to June 30, 1919, inclusive	2,342
July 1, 1919, to June 30, 1920, inclusive	2,663
July 1, 1920, to June 30, 1921, inclusive	4,888
July 1, 1921, to June 30, 1922, inclusive	4,950
July 1, 1922, to June 30, 1923, inclusive	5,493
July 1, 1923, to June 30, 1924, inclusive	6,315
July 1, 1924, to June 30, 1925, inclusive	4,394
July 1, 1925, to June 30, 1926, inclusive	3,453
July 1, 1926, to June 30, 1927, inclusive	2,945
July 1, 1927, to June 30, 1928, inclusive	2,601
Total	54,446

SEGREGATION OF INFORMAL COMPLAINTS

Segregated according to subject and utility, informal complaints for the period from July 1, 1927, to June 30, 1928, are shown in the following tabulation:

TABLE No. 1

Informal Complaints Filed with the Railroad Commission, Year Ending June 30, 1928

	Telephone and telegraph companies	Electric companies	Gas and electric companies	Gas companies	Water companies	Auto stages and truck lines	Express companies	Steam railroads	Electric railroads	Street railroads	Carriers by water	Warehouses	Wharves	Steam heat companies	Totals
Service	232	40	5	33	128	59	6	29	25	21	2	7		2	589
Installations, extensions, cancellations	92	131	14	63	70			2	2	1					375

Totals	544	400	87	279	436	231	14	483	66	34	11	12	1	3	2,601

DISPUTED BILLS

Following is a statement showing the number of deposits received on account of disputed bills presented to the Railroad Commission for adjustment since May 23, 1916:

May 23, 1916, to June 30, 1916, inclusive	76
July 1, 1916, to June 30, 1917, inclusive	173
July 1, 1917, to June 30, 1918, inclusive	157
July 1, 1918, to June 30, 1919, inclusive	347
July 1, 1919, to June 30, 1920, inclusive	253
July 1, 1920, to June 30, 1921, inclusive	330
July 1, 1921, to June 30, 1922, inclusive	496
July 1, 1922, to June 30, 1923, inclusive	340
July 1, 1923, to June 30, 1924, inclusive	301
July 1, 1924, to June 30, 1925, inclusive	351
July 1, 1925, to June 30, 1926, inclusive	365
July 1, 1926, to June 30, 1927, inclusive	345
July 1, 1927, to June 30, 1928, inclusive	317
Total	3,851

Deposits received for the period of July 1, 1927, to June 30, 1928, inclusive, tabulated as to class of utilities and amounts, are as follows:

Class of utility	*Number of deposits*	*Amounts*
Electric	59	$38,655 53
Gas	48	2,143 09
Gas and electric	37	1,255 73
Water	113	4,132 26
Telephone	59	1,200 44
Steam	1	43 86
Totals	317	$47,430 91

Detailed data in regard to informal complaints handled by the different departments of the Commission will be found in the respective chapters devoted to those departments, or divisions of departments, further on in this volume.

CHAPTER IV

SECURITY AUTHORIZATIONS

A review of the Commission's activities during the twelve months ending June 30, 1928, in connection with applications filed by public utilities and common carriers for permission to issue securities, shows that it passed upon applications involving $230,112,914.57 of stock, bonds, notes and other evidences of indebtedness. This amount includes $218,559,617.57 of securities authorized to be issued, $1,456,297 denied and $10,097,000 dismissed.

HISTORICAL SUMMARY

The above figures bring the total of the securities passed upon since March 23, 1912, the effective date of the Public Utilities Act, up to $2,948,266,160.23. The action taken by the Commission has been as follows:

Granted	$2,718,609,741 41
Denied	110,709,877 04
Dismissed	118,946,541 78
Total	$2,948,266,160 23

The securities authorized to be issued consisted of the following:

Stock	$1,308,419,360 71
Bonds	1,216,576,929 81
Notes	158,977,611 89
Other evidences of indebtedness	34,635,839 00
Total	$2,718,609,741 41

They were authorized to be issued for the following purposes:

Additions and betterments	$1,472,945,042 71
Refunding	693,074,064 87
Collateral	163,018,392 70
Reorganization	378,735,576 13
Miscellaneous	10,836,665 00
Total	$2,718,609,741 41

The securities were authorized to be issued by the various classes of utilities and carriers as follows:

Steam railroads	$360,864,164 89*
Electric railways	187,245,375 45
Gas and electric companies	1,626,266,261 82
Water companies	196,440,920 32
Telephone and telegraph companies	234,299,255 82
Warehousemen	15,825,778 16
Car companies	160,000 00
Pipe line companies	59,753,433 00
Carriers by water	20,403,434 00
Automotive carriers	17,351,117 95
Total	$2,718,609,741 41

*Since the enactment of the federal transportation act in 1920, some companies have taken the position that the Interstate Commerce Commission has exclusive jurisdiction over the issue of securities.

ACTION DURING THE LAST THREE YEARS

The amount of securities passed upon during the last year, namely, $230,112,914.57, compares with $337,952,323.92 for the twelve months ending June 30, 1927, and $271,024,507.26 during the twelve months ending June 30, 1926. The totals for the two previous years, however, are swelled somewhat abnormally because of the inclusion of three stock authorizations of extraordinary nature. During these two periods Pacific Gas and Electric Company, Southern California Edison Company and Southern California Gas Company reclassified their capital stock by changing the par value of the shares from $100 each to $25. These companies received permission to issue new shares of stock of the lower par value in exchange for the old shares outstanding in the ratio of four new shares for each old one, the issue amounting to $117,339,646.92 in the case of Pacific Gas and Electric Company, $119,746,000 in the case of Southern California Edison Company and $10,000,000 in the case of Southern California Gas Company. Eliminating these amounts results in a total of $151,278,507.26 for the twelve months ending June 30, 1926, and of $210,612,677 for the twelve months ending June 30, 1927, as compared with the $230,112,914.57 for the period just ended. These securities were disposed of as follows:

Disposition	*Year ending June 30, 1926*	*Year ending June 30, 1927*	*Year ending June 30, 1928*
Granted	$142,717,149 26	$187,302,567 00	$218,559,617 57
Denied	274,960 00	7,415,000 00	1,456,297 00
Dismissed	8,286,398 00	15,895,110 00	10,097,000 00
Totals	$151,278,507 26	$210,612,677 00	$230,112,914 57

The amounts granted consisted of the following classes of securities:

Security	*Year ending June 30, 1926*	*Year ending June 30, 1927*	*Year ending June 30, 1928*
Stock	$54,124,090 50	$114,695,410 00	$91,643,908 00
Bonds	80,024,400 00	70,712,200 00	110,961,200 00
Notes	6,568,658 76	1,594,957 00	15,654,509 57
Certificates	2,000,000 00	300,000 00	300,000 00
Totals	$142,717,149 26	$187,302,567 00	$218,559,617 57

The securities were authorized for the following purposes:

Purpose	*Year ending June 30, 1926*	*Year ending June 30, 1927*	*Year ending June 30, 1928*
Additions and betterments	$79,803,531 13	$137,191,630 00	$92,021,044 95
Refunding	52,968,121 13	36,291,407 00	57,304,068 46
Collateral	2,305,800 00		9,047,000 00
Reorganization	7,624,697 00	13,819,530 00	60,187,504 16
Miscellaneous	15,000 00		
Totals	$142,717,149 26	$187,302,567 00	$218,559,617 57

The authorizations to issue these securities were obtained by the various classes of utilities and carriers as follows:

Class	*Year ending June 30, 1926*	*Year ending June 30, 1927*	*Year ending June 30, 1928*
Steam railroads	$658,000 00	$2,825,000 00	$630,000 00
Electric railways	4,362,461 17	1,500,000 00	8,768 00
Gas and electric companies	121,568,100 00	110,572,700 00	191,645,650 00
Water companies	5,046,782 59	13,077,250 00	18,444,574 46
Telephone and telegraph companies	1,947,913 50	52,434,540 00	2,080,060 00
Warehousemen	1,259,320 00	976,897 00	1,212,536 16
Carriers by water	2,891,000 00	3,960,000 00	2,366,400 00
Automotive carriers	4,983,572 00	1,956,180 00	2,171,628 95
Totals	$142,717,149 26	$187,302,567 00	$218,559,617 57

FINANCING OF NEW CONSTRUCTION

The records of the Commission indicate that the utilities found it desirable, during the last few years, to finance their construction work largely through the issue of stock. During the last two years capital stock was the subject of about 75 per cent of the Commission's total authorizations to finance the cost of new work. The extensive stock financing of the last few years succeeded a period, immediately following the war, of large bond issues and seemingly came about in an endeavor, on the part of the operating companies, to even the ratio between stock and bonds. The Commission, in this connection, has adopted a general policy of limiting bond issues under existing conditions to 60 per cent of the cost or value of property acquisitions.

The amounts of securities authorized for new construction during the last five years are shown below:

Period	*Stock authorizations*	*Borrowed money authorizations*	*Total*
1927–1928	$64,466,113 00	$27,554,931 95	$92,021,044 95
1926–1927	102,808,730 00	34,382,900 00	137,191,630 00
1925–1926	46,486,893 50	33,316,637 50	79,803,530 50
1924–1925	96,976,470 29	51,050,599 60	148,027,069 89
1923–1924	85,783,510 41	107,137,215 00	192,920,725 41

By far most of the stock authorized for construction is that of gas and electric companies. In general these companies have followed the plan of disposing of their stock through their own organizations. This method seems to have been uniformly successful in enabling the companies to sell their stock under advantageous terms and to reach a large body of customers. Reports filed by the gas and electric companies show approximately 220,000 stockholders at the close of 1927.

REFUNDING

Favorable market conditions apparently prevailing throughout the year led to substantial refinancing operations resulting in the replacement of some outstanding security issues by those bearing lower coupon rates. The amounts authorized for this purpose aggregated $57,304,068.46, practically all of which represents stock and bonds of gas and electric companies.

All of the bonds authorized for refunding purposes ($51,726,500) bore interest at the rate of 4½ per cent per annum whereas substantially all of the refunding issues authorized during the previous fiscal period bore interest at the rate of 5 per cent. It was estimated that these refunding transactions would result in annual savings in interest of about $360,000.

CONSOLIDATIONS AND REORGANIZATIONS

The movement of consolidation of various properties continued on throughout the year and presented many interesting and important questions.

In all these cases the Commission has refused to consider the price paid for a public utility system as the basis for authorizing the issue of securities but has adopted as a basis the historical cost less accrued depreciation. In passing on these matters the Commission first endeavors to ascertain whether the proposed consolidation is in the public interest and, second, if the terms are reasonable and proper.

The amounts authorized to be issued for consolidations and reorganizations aggregated $60,187,504.16 for the twelve months ending June 30, 1928, as compared with $13,819,530 during the preceding twelve months period. Of this amount about 70 per cent represents authorizations granted gas and electric utilities, two mergers of major interest being completed during the year. Pacific Gas and Electric Company, in acquiring the properties of Coast Valleys Gas and Electric Company and Western States Gas and Electric Company, was authorized to issue $28,489,800 of stock and bonds, in addition to the $6,500,000 of stock authorized last year. Southern California Gas Company was authorized to issue $13,646,000 of stock and bonds in acquiring the properties of Midway Gas Company, Riverbend Gas and Water Company, Hanford Gas and Power Company and Central Counties Gas Company.

Mergers among water utilities attracted a considerable amount of interest. Last year California Water Service Company was authorized to issue $2,000,000 of stock in part payment of the cost of a number of water plants operating in this state. During the recent fiscal year it was permitted to issue, in addition, $2,280,300 of stock, $6,282,000 of bonds and $923,938 of notes to complete its financing. At the same time it was refused permission to issue $3,097,000 of securities.

Public Utilities California Corporation was authorized to issue $300,000 of stock and $156,000 of bonds, and was refused permission to issue $152,800 of stock and $69,000 of bonds, in acquiring the properties of Mountain Power Company, Smith River Power Company, The Capitola Company, Santa Cruz County Utilities and North Sacramento Land and Water Company.

Pacific Water Company, in acquiring the properties of Peninsula Water Company, Howard Estate Water Company and South San Francisco Land and Water Company, was authorized to issue $1,350,000 of securities and was refused permission to issue an additional $250,000.

These and other mergers accounted in large part for the volume of securities denied and dismissed during the year.

TABULATIONS OF SECURITY AUTHORIZATIONS

The tables following show the Commission's action during the year.

Table No. 1 shows the total amount of stock, bonds, notes and other evidences of indebtedness applied for, authorized, denied and dismissed during the year ending June 30, 1928, and the amount pending on June 30, 1928, segregated as to classes of utilities.

Table No. 2 shows the same information segregated as to classes of utilities and purposes of issue.

Table No. 3 shows the amount of stock and bonds of steam railroads applied for and authorized during the year ending June 30, 1928, and pending on June 30, 1928.

Table No. 4 shows the amount of bonds and notes of electric railways applied for and authorized during the year ending June 30, 1928, and pending on June 30, 1928.

Table No. 5 shows the amount of stock, bonds and notes of gas and electric companies applied for, authorized, denied and dismissed during the year ending June 30, 1928, and pending on June 30, 1928.

Table No. 6 shows the amount of stock, bonds and notes of water companies applied for, authorized, denied and dismissed during the year ending June 30, 1928, and pending on June 30, 1928.

Table No. 7 shows the amount of stock, bonds and notes of telephone and telegraph companies applied for, authorized, denied and dismissed during the year ending June 30, 1928, and pending on June 30, 1928.

Table No. 8 shows the amount of stock, bonds and notes of warehousemen applied for, authorized, denied and dismissed during the year ending June 30, 1928, and pending on June 30, 1928.

Table No. 9 shows the amount of stock and notes of carriers by water applied for, authorized and dismissed during the year ending June 30, 1928, and pending on June 30, 1928.

Table No. 10 shows the amount of stock, notes and equipment trust certificates of automotive carriers applied for, authorized, denied and dismissed during the year ending June 30, 1928, and pending on June 30, 1928.

COMMISSION'S DECISIONS

The Commission's decisions authorizing the issue of securities are published in pamphlet form and also in volumes entitled "Opinions and Orders of the Railroad Commission of California." Copies of either may be obtained from the secretary of the Commission.

Attention is called to a few of these decisions.

REFINANCING OF PROPERTIES

The Commission ferquently during the last few years was asked to pass upon programs for refinancing public utility properties and to approve as a basis for authorizing the issue of securities, the reproduction cost of the properties, the estimated "sound value," the purchase price and other figures.

It has, however, in all cases adhered to the historical cost less accrued depreciation in permitting the recapitalization of utilities properties, rejecting other proposals as not being in the public interest. Its views on this question are well set out in the order entered on the application of California Water Service Company to consolidate a number of water properties.

Decision No. 19467, dated March 12, 1928, reads in part as follows:

> We believe that in such a case consideration must be given to the fact of accrued depreciation since the purchasing company necessarily assumes the responsibility of replacing the properties which it proposes to acquire, while to allow the capitalization of such depreciated properties as though no depreciation had occurred would eventually result in gross overcapitalization of such property. And if we were to base refinancing capitalization upon an estimated "reproduction cost new" as is urged by applicant, a situation would be created in which even slight variations in the prices of public utility materials and supplies might quickly wipe out a part or even the whole of the equities possessed by the common stockholders. Indeed, this might easily go to the extent of seriously impairing the security of bondholders. That such a situation would be detrimental to the interest of the investing public, and therefore to the real interest of the public utilities themselves and their consumers can hardly be questioned. Public utility securities should, in our opinion, be based upon sound, conservative and, in so far as possible, nonfluctuating values. Only by adhering to such a policy can the stability requisite for such securities be established and maintained.

Based on the principles set forth above the Commission authorized California Water Service Company to issue in the aggregate $10,515,300 of stock and bonds to acquire the various properties covered by the application, although it appeared that the company, or those in control of its affairs, had agreed to pay more than that amount for the properties.

EARNINGS CONSIDERED IN REFINANCING

The Commission in passing on applications to refinance properties gives consideration to the earnings in determining upon the capitalization. In one decision, for example, it said that in its opinion to recapitalize operating properties on a basis so that they can show a return of three or four per cent on common stock is not in the public interest.

The Commission's views on this point are set forth fully in Decision No. 19005, dated November 4, 1927, wherein it said:

> While there is no question but that the properties of Los Angeles County Water Works should be refinanced they should, in our opinion, be refinanced on a basis different from that proposed in this proceeding. Too much emphasis is being placed on the number of times the net earnings of a property may exceed bond interest or dividends on preferred stock. It is just as important, if not more so, to capitalize a property so that it can show reasonable earnings on common stock. The records of the Commission show conclusively that companies which have been able to obtaiin some of their construction funds from the sale of common stock have been able to sell readily bonds or preferred stock and furnish more satisfactory service. * * * It is our conclusion that the capitalization of the properties in question should bear some relation to their earnings as well as the cost or the value thereof, and that a form of capitalization which on its face seems to preclude the raising of some of the construction funds through the issue of common stock is not in the public interest and therefore should not be authorized by this Commission.

The above decision was made upon an application of Gardena Valley Water Company to issue $125,000 of bonds, $30,000 of preferred stock and $85,000 of common stock. The Commission found that under such a set-up the common stock could receive about 2 per cent, and accordingly, for the reasons stated above, denied the application.

It should not be understood that the Commission permits the capitalization of properties on the basis of earnings, solely. It commented on this point in its Decision No. 18864, dated October 3, 1927, in refusing to approve, in toto, a financial program submitted by Mackay Radio and Telegraph Company when it appeared that a proposed capitalization was based on earnings. It said:

> It is obvious that the earnings basis is not the proper one upon which to base capitalization for the reason that public utilities being subject to rate fixing, capitalization based on earnings today would have entirely different security and probability of payment were those rates changed by a rate-fixing body tomorrow.

TREATMENT OF EXCESS PURCHASE PRICE

The Commission repeatedly has held that where a company in purchasing properties pays more than it has been found reasonable or proper to allow in the form of securities such overcost should be charged to surplus rather than to fixed capital. In other words it believes that any excessive purchase price should be paid by the stockholders rather than to become a charge on the public.

For example, Public Utilities California Corporation came before the Commission requesting a permit to issue $144,600 of stock to pay for the properties of North Sacramento Light and Water Company. The Commission found, upon investigation, that the historical cost of the properties, less accrued depreciation, was $117,769 and accordingly permitted the issue of 117,800 of stock. Its order, Decision No. 19777, dated May 18, 1928, provided in part as follows:

> If it (Public Utilities California Corporation) pays for the properties more than the $117,800 of common stock, it must charge the difference between the $117,800 and the price paid, to its corporate surplus account.

Somewhat similarly the Commission ruled in the California Water Service Company's application. That, being a new organization and having no surplus, was directed to charge any overcost to suspense account which should be amortized over a period of time through charges to surplus or by deductions from gross income.

For further rulings on this point reference might be made, among other decisions, to Decision No. 19372, dated February 16, 1928, in re Pacific Gas and Electric Company; Decision No. 18775, dated September 10, 1927, in re Peerless Stages, Inc.; Decision No. 19413, dated February 25, 1928, and Decision No. 19644, dated April 20, 1928, in re Southern California Edison Company; Decision No. 19698, dated May 2, 1928, in re Great Western Power Company of California, and Decision No. 19232, dated January 10, 1928, and Decision No. 19748, dated May 11, 1928, in re Pickwick Stages System.

MANUFACTURERS' PROFIT

It has not been the practice of this Commission in the event that utilities construct their own properties, to allow the addition to the actual construction cost of what might be termed a contractor's or manufacturer's profit. It recognizes, of course, overhead costs and depreciation of equipment used in construction.

Pickwick Stages System, during the year, brought to the Commission an application involving the financing of certain auto stage equipment. The Commission did not accept their reported costs and in Decision No. 19105, dated December 6, 1927, said:

> The testimony shows that the equipment which is to be acquired and made available for the Pickwick Stages System and which will finally be paid by the Pickwick Stages System is being constructed by the Pickwick Corporation, which owns all of the outstanding common stock of Pickwick Stages System. It appears that the Pickwick Corporation is selling the equipment at a profit ranging as high as 25 per cent.
>
> We feel that the amounts which Pickwick Stages System, a public utility, proposes to pay for the equipment are excessive and that such excessive prices are due in part at least to the practice of having the parent company construct the equipment. It occurs to us that the operations of Pickwick Stages System have reached such a magnitude as should enable it to acquire or construct its equipment on a more favorable basis than it is acquiring the same from Pickwick Corporation. The situation presented here is in its essentials no different from the practice, long since rejected by the Commission, of permitting a construction company to profit at the expense of a public utility when the construction company controls the public utility or is owned or controlled by the same interests which own or control the utility.

Similar findings occur in Decision No. 19232, dated January 10, 1928, and Decision No. 19748, dated May 11, 1928, in connection with this same applicant.

OVERHEAD ALLOWANCES

The Commission recognizes as a proper basis for security issues overhead items in reasonable amounts. The question of overhead allowances was touched upon in Decision No. 18962, dated October 25, 1927, on an application of The California-Oregon Power Company to issue stock and debentures to finance construction costs which temporarily had been provided for with advances from Standard Gas and Electric Company, an affiliated corporation. The Commission commented as follows:

> It is of record that the construction expenditures include interest during construction calculated at the rate of 7 per cent per annum. This charge, we feel, is unwarranted under existing financial conditions. While it may be to the advantage of Standard Gas and Electric Company, which has been advancing moneys to applicant for construction purposes, to charge 7 per cent interest on money advanced, such payment by applicant is, we believe, unjustified.

OPERATIVE RIGHTS

In the opinion of the Commission an operative right is not a class of property upon which a security issue should be based.

Peerless Stages, Inc., applied for permission to issue $150,000 of stock to acquire control of the Auto Transit Company. The financial statement of the latter company showed a net worth of $53,130.64, indicating that the balance represented a payment made for the operative right or other intangible property. The Commission's comment was as follows:

> Operative rights do not constitute a class of property which should be capitalized or used as an element of value in determining reasonable rates. Aside from their purely permissive aspect they extend to the holder a full or partial monopoly of a class of business over a particular route. This monopoly feature may be changed or destroyed at any time by the state which is not in any respect limited to the number of rights which may be

given. The Commission at the early stages of the development of this kind of transportation should be extremely careful not to lend encouragement to the idea that these rights possess a substantial element of value, either for rate fixing or capitalization.

GOING CONCERN VALUE

Another often claimed element of value that the Commission refuses to consider in authorizing security issues, is the so-called "going concern value." Quoting from Decision No. 19467:

> This Commission has never heretofore allowed the capitalization of potential values, nor has it permitted public utilities after a period of operation to refinance or recapitalize their properties upon such a basis that the outstanding securities thereof would be increased to reflect an alleged "going concern value" claimed to have been established. * * * This item we consider improper for capitalization purposes.

OPERATING LOSSES

Early operating losses can not be recovered through the issue of securities, the Commission held in its Decision No. 19660, dated April 23, 1928.

George A. Bray and H. G. Teale had applied for permission to transfer a water system to Mesmer City Water Company and claimed a business good will value of $15,000 attaching to the properties. On this point the Commission said:

> Mr. H. G. Teale testified that such amount in reality represented amounts which the copartnreship has had to advance and which will have to be advanced to cover operating losses. In our opinion we have no authority under the provision of the Public Utilities Act to authorize the issue of stock against operating losses.

ADEQUACY OF SHOWING

When a petition is filed with the Commission it is expected that the petitioner make an affirmative showing in support of its request. In the absence of such showing the Commission has held that it can not enter a favorable order in the matter.

During the year the Commission was asked to authorize the use of $66,500 of security proceeds to finance the cost of certain auto stage equipment when the showing made by the applicant indicated definite costs of only $57,589.69. The latter amount, accordingly, was authorized to be used, the decision, No. 19748, dated May 11, 1928, written by Commissioner Seavey, reading in part as follows:

> In this connection it should be borne in mind that under section 52 (*b*) of the Public Utilities Act the Commission is required to make a finding that in its opinion the money, property or labor to be procured or paid for by the issue of securities authorized is reasonably required, and the purposes for which the proceeds are to be used are not in whole or in part reasonably chargeable to operating expense or to income. If, in the Commission's opinion, the showing made is not of a nature to warrant it to make this finding, it can not, it seems to me, grant the authority requested.

Reference might also be made to Decision No. 18684, dated August 4, 1927, in re Tracy Gas Company, and to Decision No. 19087, dated December 2, 1927, in re Bay Point Light and Power Company.

REIMBURSEMENT OF TREASURY

When a company comes before the Commission for permission to issue securities to reimburse its treasury, it is encumbent upon it to make a showing that it has had surplus earnings and that such earnings have been invested in its properties and business. Donations, adjustments due to writing up assets, and similar items do not represent, so the Commission believes, surplus earnings available for reimbursement through the issue of securities. This ruling appears in Decision No. 18947, dated October 25, 1927, as follows:

> As of January 1, 1927, applicant (La Habra Domestic Water Company) reports an accumulated surplus of $23,377.82. An analysis of this surplus was made by a representative of the Commission's department of finance and account. His report shows that the surplus includes $3,984.87 of donations and that $4,336.92 was credited to surplus as a result of the revaluation of applicant's properties. In our opinion neither of the two amounts are proper credits to unappropriated surplus.

The Commission accordingly excluded the two sums in determining the amount of securities the company might be permitted to issue to reimburse its treasury.

TABLE No. 1

SHOWING AMOUNT OF STOCKS, BONDS, NOTES AND CERTIFICATES APPLIED FOR, AUTHORIZED, DENIED AND DISMISSED BY THE RAILROAD COMMISSION OF CALIFORNIA FROM JULY 1, 1927, TO JUNE 30, 1928, AND PENDING ON JUNE 30, 1928
